WHEREAS, the applicant states that the premises consist of a plot, 36.24 feet frontage by 100.07 ft. in depth, irregular, on which is located a building of masonry construction, two stories and attic, erected in 1949; that the premises were purchased January 3, 1950 from the builder, who had a certificate of occupancy for two families, and the builder advised the purchaser that it was possible to obtain a certificate of occupancy for three families in that zone; that the building was constructed for and has been occupied by 3 families; that although the builder filed plans showing only two family occupancy he completed the attic floor for occupancy by a third family; that since about one week after date of purchase by present owner, three families have occupied the building; and

WHEREAS, the applicant contends that prior to November of 1953, a certificate of occupancy for three families could have been obtained by filing the necessary plans with the department of housing and buildings and by making just a few alterations; that however, in November 1953 the zone was changed from a C district to an E-1 district; that the application herein is for the granting of a certificate of occupancy for use as a three family existing, not hereafter erected building, by variation of the zoning resolution to allow such occupancy in an E-1 district and also to allow the existing side yard of about 4 ft. instead of the 15 ft. required; that

MINUTES

the following are the proposed changes which will change existing conditions of the building: that the wall in the rear of the garage be reinforced by a new 4 in. cinder block wall; that the ceiling of the garage be fireproofed; that the doors on the 2nd floor be made self-closing; that a fire escape be erected in the rear of the building; that the doors on the 3rd floor be made self-closing; that the attic floor plan be altered to show three rooms and kitchen in addition to the bath now shown on plans, in place of the storage place shown on original plans filed by builder; that the 3 rooms, kitchen and bathroom have been in existence since the erection of the building; that a summons was issued by the department of housing and buildings for violations and was returnable in Municipal term of the Bronx Magistrates Court on June 14, 1954 at which time the case was adjourned until July 12, 1954 in order that action might be commenced before the Board; that on July 12, 1954 the case was disposed of by the payment of a fine of \$10; and

WHEREAS, the applicant states that the present owner has held title to the property since January 3, 1950; that the assessed valuation of land is \$2,200 and of the building \$15,800 making a total of \$18,000; that the building was erected in 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant stated that plans filed with the Borough Superintendent and the Board show complete compliance with the requirements of the Multiple Dwelling Law for an existing building; and

WHEREAS, the recent amendment to Section 15, E districts, as to yards which are required as stated in Section 15A, par. e. require only one side yard while this plot has two side yards, front to rear; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision a of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7a to permit, as to objection A1 and A2, occupancy of the three family existing building as proposed and as indicated on plans filed with this application marked, "Received, July 12, 1954" (9 sheets) and "March 22, 1955" (2 sheets), and revised plans marked, "Received, April 24, 1955" (3 sheets), *on condition* that the building shall not be increased in height or area; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including the Multiple Dwelling Law; and that all permits including a Certificate of Occupancy shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 15, 1955 after due notice by publication in the Bulletin; laid over from February 15, 1955, to March 22, 1955, for inspection and decision; hearing closed; then to April 12, 1955, applicant to file revised plans, and for further consideration; then to April 26, 1955, applicant to file new decision of the Borough Superintendent as to enlarged plot; then to May 17, 1955, for applicant to file letter with the owner of Block 5202, Lot 54, within the hundred feet of the enlarged plot and to permit two publication in the Bulletin; and for decision; then to June 1, 1955, for applicant to obtain a decision from the borough superintendent as to side and rear yard areas; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 45th avenue are in a residence use, E-1 area, class 1 height district; Bowne street is in residence and local retail use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 12, 1954, and repeated April 19, 1955, acting on N.B. Applic. 2821-54, reads:

"1. Proposed construction within a Residence Use District for the purpose of a Gas Station, Lubritorium, Motor Vehicle Repair Shop, Office, Storage and the parking of more than 5 cars waiting to be serviced is contrary to Art. II Sec. 3 of the Zoning Resolution.

2. Proposed curb cuts for a business use within a Residence Use District is contrary to Art. II Sec. 3 of the Zoning Resolution.

3. Proposed business signs within a Residence Use District is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 70 ft. frontage by 100 ft. in depth, on which is located a 2½ story frame dwelling and store, presently vacant, which it is proposed to demolish; that this structure was erected in 1885 and no certificate of occupancy is on file; that the premises is zoned as a residence use, E-1 area, class 1 height district; that on September 18, 1947 the use was changed from business to residence and on May 13, 1954 the area was changed from D to E-1; that there are no changes pending with the city planning commission at the present time; that it is proposed to erect a modern, one story, masonry automobile service and gasoline station, of class 3 construction, to be used for the sale of gasoline, oil, lubritorium, minor automobile repairs, office and storage; that there will be two dispensing pumps and four 550 gallon storage tanks underground; that the gas pumps will be the low, compact, streamline units; that the entire service area will be covered with black top paving and a concrete mat at the gasoline pumps only; and

WHEREAS, the applicant contends that the total area of the plot is 7,000 sq. ft.; that the building will cover 1,148 sq. ft. or 16.4% of the total area, which is within the coverage permitted in the use district; that a concrete block wall 5 ft. 6 in. high will be erected on the side and rear lot lines; that it is also the owner's desire to beautify the side and rear wall areas with a planting strip; that the variance is requested because the area is predominantly business, yet additional stores are not required since neighboring stores are vacant; that this property has been up for sale for quite some time and in the opinion of the real estate agents the use for which this property can be put is very limited, and therefore a gas station has been suggested; that there are no gas stations within the immediate vicinity; and

WHEREAS, the applicant states that the present owner has held title to Lot 7 since June 10, 1932 and Lot 6 since November 10, 1954; that the assessed valuation of land is \$6,500 and of the buildings \$2,500 making a total of \$9,000; that the building was erected in 1885; and

WHEREAS, the size of the plot was increased from 45 ft. by 100 ft. to 70 ft. by 100 ft., by the addition of Lot 6; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

MINUTES

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e, for a term of ten years, to permit the use of the premises as a gasoline service station, substantially as proposed and as indicated on plans filed with this application, marked "Received August 25, 1954", 5 sheets, as amended by revised plans marked "Received April 1, 1955", 3 sheets, *on condition* that all buildings and uses on the premises shall be removed and the premises leveled substantially to the grade of the abutting streets; that there shall be no cellar in the accessory building; that the accessory uses as shown on plans shall be as proposed; that the accessory building shall be constructed of face brick similar to that used on the wall; that there shall be erected on the interior lot lines continuously from Bowne street to 45th avenue, a masonry wall not less than 5 ft. 6 in. in height and properly coped; that such wall shall have terminating posts at the building lines; that pumps shall be erected not nearer than 15 feet to the street building line of Bowne street and shall be of a low, approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to two to Bowne street, each 30 ft. in width and one to 45th avenue of similar width; that no part of any curb cut shall be nearer than 5 ft. to a lot line as prolonged; that at the intersection there shall be erected and maintained a block of concrete, not less than 12 in. in height, extending for a distance of not less than 5 ft. from the intersection; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the intersection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and to permit such sign to extend beyond the building line for a distance of not over 4 feet; that the sidewalks and curbing on the streets abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; that under section 7i for a similar term, there may be minor motor vehicle repairs with hand tools only for adjustments maintained solely within the accessory building; that under section 7h for a similar term there may be parking of motor vehicles awaiting service, provided same are located so as not to interfere with the servicing of the station; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that there shall be no windows in the rear of the accessory building and if there are any openings, same shall be filled with glass block as approved for exterior walls; and that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

843-54-BZ

APPLICANT—Joseph Schafran, for Morris Pickman, owner, M.G.M. Inc., lessee.

SUBJECT—Application October 28, 1954 (decision of the borough superintendent), under sections 7h and 21 of the zoning resolution, to permit in the local retail use, D area district portion of plot, the erection and maintenance of a structure (dining car), using more than the area permitted, and to permit the parking of motor vehicles in residence use portion of plot for patrons and employees only, with curb cuts nearer the residence use district than is permitted.

PREMISES AFFECTED—87-87 Francis Lewis boulevard, south side, from Whitehall terrace to Hillside avenue, Block 10589, Lot 1, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Charles I. Goldman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955 for inspection and decision; hearing closed; then laid over to June 1, 1955, for applicant to file revised plans as to entrances to parking area and as to masonry walls; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and local retail use, D and F area, class 1½ height districts; Francis Lewis boulevard is in residence, local retail and restricted retail use, D and F area, class 1½ height districts; Whitehall terrace is in a residence use, D area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 11, 1954 acting on N.B. Applic. 3478-54, reads:

"1. Proposed use of premises located in a residence district for parking of cars is contrary to Sec. 3 of zoning resolution.

2. Area of proposed building is in excess of area permitted under Sec. 14-c of zoning resolution. Building is in a D area district portion of lot in local retail district considered for requirements of this action.

4. Curb cuts are contrary to Article II Sec. 3 of zone resolution and Sec. 7-A of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 224.42 ft. frontage by 70.25 ft. in depth, presently vacant; that the use district was business and residence in 1916 and was changed to local retail and residence on January 21, 1947; that the area district was E in 1916; that the southerly 100 ft. was changed to D on October 3, 1924 and the northerly portion of the plot was changed to F on June 30, 1954; that the plot is presently unimproved except for a triangular billboard sign at the southerly end; that it is proposed to erect upon the portion of land within the local retail use district a one story dining car of special construction which is to be moved from its present location approximately one mile from this site; that the land presently used by the dining car is being condemned by the city due to the widening of Horace Harding boulevard; that an extension of class 1 construction will be added to the relocated dining car; that it is also proposed to use the vacant land in the residence use district for parking of cars for patrons and employees only; and

WHEREAS, the applicant contends that in order to provide space for patrons who otherwise would park their cars upon the public thoroughfare, a paved and protected area is provided for 24 cars; that this area is approximately 4½ ft. below the level of the plot adjoining to the east; that the surface will be leveled to approximate grade level and covered with cinders and asphalt binder; that the parking area will be fenced along the building lines except for entrance and exit thereto and the fence will be protected with curbing to prevent the car bumpers from striking the fence; that along the easterly side, no curb or fence will be required because of the existing retaining wall and none will be required along the south side as the space adjoining the dining car is reserved for loading; that the building as proposed occupies 3,690 sq. ft. or less than 30% of the area of the area of the entire plot; that were the entire plot zoned as F area district, it would be permitted to occupy 4,374 sq. ft.; that within the local retail use district 500 sq. ft. of area is occupied over that permitted if only this section of plot is considered; that as now zoned for area, 6,016 sq. ft. of the entire plot may be occupied; and

WHEREAS, the applicant states that the present owner has held title to the property since June 10, 1946 and that the assessed valuation of land is \$7,400; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

MINUTES

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7h of the Zoning Resolution, as to use and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit extension of the building into the more restricted district as proposed and as indicated on plans filed with this application marked, "Received, October 28, 1954" (4 sheets), "February 24, 1955" (one sheet) and revised plans marked, "Received, May 25, 1955" (one sheet) *on condition* that the building shall not be increased in height or area; and to permit under Section 7h for a term of five years the use of the northerly portion of the plot for the parking of cars of patrons of the restaurant on the plot substantially as proposed and as indicated on such plans, provided that a wall shall be constructed along the easterly lot line and along the street building line of Whitehall Terrace as proposed on such revised plans to a total height of not less than five feet six inches; that such wall shall extend from the building northerly; that there shall be no openings in the wall at Whitehall Terrace; that all openings shall be as shown on such revised plans to Francis Lewis boulevard for entrance and exit and for such loading space; that from the corner of Whitehall Terrace extending along the street building line of Francis Lewis boulevard, except where proposed curb cut occurs as shown, there shall be erected and maintained a woven wire fence of the chain link type not less than five feet six inches in height, including a masonry base, with suitable terminating posts of sufficient strength at the entrances; that such area for parking shall be levelled substantially to the grade of Francis Lewis Boulevard and shall be surfaced with steam cinders or clean gravel and treated with an asphaltic binder and properly rolled; that during the term of this variance this portion of the premises shall be used for no other use than for the parking as herein permitted; that signs shall be restricted to a permanent sign attached to the fence near the entrance advertising the parking of cars for patrons only; that such sign shall not be illuminated or extend beyond the building line and shall state the use of the parking area for patrons only and such other information as may be required by the Commissioner of Licenses; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that sidewalks and curbing around the premises shall be constructed, restored or repaired to the satisfaction of the Borough President; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

844-54-A

APPLICANT—Joseph Schafran, for Morris Pickman, owner (M.G.M. Inc., lessee).

SUBJECT—Application October 28, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—87-87 Francis Lewis boulevard, east side, from Whitehall terrace to Hillside avenue, Block 10589, Lot 1, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Charles I. Goldman.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated October 11, 1954, on N. B. App. 3478/54, reads:

"3. Area of dining car is contrary to Sec. C-26-543.1 B.C. Area must not exceed 1,200 sq. ft."

and

WHEREAS, the applicant states the premises consist of a lot 224.42 ft. by 70.25 ft. irregular in area, in a local retail and residence use, D and F area, Class 1½ height district, upon which it is proposed to erect a one story, 14 ft. 4 in. high dining car, 85 ft. front by 44 ft. in depth; and

WHEREAS, the applicant states it is proposed to erect on portion of the lot within the local retail use district a one-story dining car of special construction which will be moved from its present location where the land is being taken due to the widening of the Horace Harding Expressway; that it is proposed to extend the size of the structure in Class 1 fireproof construction; and

WHEREAS, the applicant contends that the dining car was erected under N.B. 7652/49 on Block 7471, Lot 30, larger in area than permitted by the Code and the matter was waived by the borough superintendent with the notation the waiver was not to be deemed a precedent and was for that case only; that the dining car proper is constructed of steel studs and rafters, steel floor beams and reinforced concrete floor arches; that the interior and exterior are metal sheathed and the only wood existing in the structure are nailing strips for the fastening of the metal sheathing and the roofers which are of wood and a portion of the floor behind the counter which is of wood strips for employees' comfort; that all construction for the proposed extension will be of incombustible materials of Class 1 construction; that the area of the existing dining car is 1920 square feet and the area of proposed Class 1 addition will be 1770 square feet, giving a total structure area of 3690 square feet; that the fireproof addition will be divided from the special construction portion by three fireproof kalamein doors and with two unprotected openings, one 6 ft. 6 in. wide between the kitchen and bake shop and one 7 ft. 6 in. wide between the new and existing dining area; that the new portion of the structure will be provided with two new 3 ft. exits, one from the dining room area and the other from the service portion of the building, each equipped with an exit light and sign; that there will be no openings in the rear wall of the structure; that all flues and vents will be carried up above the roof line of the adjoining building.

Resolved, that the decision of the borough superintendent acting on N. B. App. 3478/54, Objection 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the extension to the approved dining car shall not exceed the area as indicated on plans filed with this appeal marked, "Received, February 24, 1955" (4 sheets); that the extension to the dining car, as shown, shall be of class one construction; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto as permitted by resolution adopted this day under Cal. No. 843-54-BZ.

864-54-BZ

APPLICANT—Max Horn, for Harry Wolsky, owner.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence use district the erection and maintenance of a business building (warehouse) with an entrance nearer the residence use district than is permitted.

PREMISES AFFECTED—178-15 Eveleth road, north side, 109.87 ft. north of Merrick boulevard, Block 12490, Lot 39, Springfield Gardens, Borough of Queens.

MINUTES

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D-1 area, class 1 height district; Eveleth road is in residence and retail use, D-1 area, class 1 height districts; Merrick boulevard is in a retail use, D-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 27, 1954, acting on N.B. Applic. 3565-54 and superseded by application dated February 23, 1955, which reads:

"1. The use of the premises as a warehouse with loading platform in a Residence Zone is contrary to Art. II Sec. 3 of Zoning Resolution.

2. The location of a business entrance or exit within 75' of a residence zone is contrary to Alt. II Sec. 7A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 100 ft. depth, presently vacant; that the premises are zoned residence D-1 having been changed from residence D on June 30, 1952; that it is proposed to erect a structure 100 ft. front by 57 ft. in depth, irregular, one story, 14 ft. in height, of class 3 construction, to be used as a warehouse; and

WHEREAS, the applicant further states that the owner purchased this property in 1954 with a view of assembling a reasonably large plot for possible expansion of the Graham Chemical Corporation requirements, subject of course to variance to be granted by the Board; that the owner built the 72 ft. by 70 ft. one story corner building for the chemical corporation under N.B. Applic. 5462-50 and a one story addition, about 50 ft. by 66 ft. was added under Alt. Applic. 2260-51; that the lessee now finds that he is cramped and requires more space for storage and shipping, hence this application for the proposed warehouse; that the lessee of the other buildings and of the proposed new warehouse, if granted by the Board, is the Graham Chemical Corporation which assembles and packages local anesthetics and which is about the third or fourth largest in the United States; that there are only about six concerns in the U. S. that produce and package these items; that the reason for the growth of the business is that they sell to practically every friendly government in Europe and to practically all ministries of health and defense in South America; that they are now negotiating to sell to the U. S. defense departments and will require the warehouse and storage facilities requested in this application; and

WHEREAS, the applicant contends that the product as produced and handled is non-explosive and safe; that the nature of the business involves extreme hygienic and sanitary conditions and environment and personnel are of the highest type; that about 35 persons are employed; that the building as proposed is neat, simple and will match in design the corner building; that it is proposed to use this proposed building for storage and shipping of their products and to release the space in the existing building now used for shipping and storage, for their processing and packaging; that the character of the building could not be objectionable in this neighborhood because the nature of the business demands extreme cleanliness; and

WHEREAS, the applicant states that the present owner has held title to the property since October 4, 1950 and that the assessed valuation of land is \$3,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended that the application be granted under conditions designed to protect the residential street; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use dis-

trict regulations of the zoning resolution and that the application be and it hereby is *granted*, under Section 7c, to permit the extension of the use now existing on lot 1 to include lot 39, substantially as proposed and as indicated on plans filed with this application, marked "Received November 16, 1954", 3 sheets, *on condition* that the building shall be of the size, design and location shown on such plans and shall be faced on all sides with face brick; that there shall be erected on the interior lot lines to the west and north, a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 inches; that a similar fence shall be erected from the side lot line to the building; that the space in front of the building except where the loading area will exist, shall be landscaped and maintained planted with suitable planting material; that the yard space shall also be similarly maintained; that the loading area may be located where shown, with curb opposite not over 18 feet in width; that on the southerly side of the building there may be an entrance as shown, not exceeding 6 feet in width, to provide access from this building to the existing building on lot 1; that the space between the proposed building and the building on lot 1 shall be paved and drained; that the sidewalk in front of the premises shall be constructed or repaired to the satisfaction of the borough president; that the use of this building shall be as proposed for a warehouse in connection with the building on lot 1 now occupied by the Graham Chemical Corporation and for no other use; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

900-54-BZ

APPLICANT—John F. Fitzsimons, for Arthur Miller, owner.

SUBJECT—Application November 30, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the erection and maintenance of a one-family dwelling without the required setback.

PREMISES AFFECTED—145-08 Hook Creek boulevard, west side, 50.09 ft. south of 257th street, Block 13603, Lot 31, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John P. Fitzsimons.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Hook Creek boulevard and 257th street are in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1954 acting on N. B. Applic. 3101-54, reads:

"1. Provide required 15'0 setback for E-1 area district. Sec. 15-A(c) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.09 ft. frontage by 103 ft. in depth, presently vacant; that it is proposed to erect a one family dwelling without the required setback of 15 ft.; and

WHEREAS, the applicant states that the owner has held title to this property since June 30, 1950 at which time the area zoning was D; that the present area designation of E-1 became effective June 20, 1952; that the frontage of the premises, to an average depth of 35.925 ft., is in the bed of mapped Hook Creek boulevard; that it is permissible to

MINUTES

include the area in the bed of the mapped street in the computation of the allowable coverage under the zoning resolution; that these computations are as follows:

A. Total area of lot	5,075.	sq. ft.
B. Reduced area	3,281.25	sq. ft.
C. Required open spaces		
front yard —	750	
rear yard —	1,000	
side yards—	306.25	
Total	2,056.25	sq. ft.
D. Excess or reduced area over required open spaces	1,225.00	sq. ft.
E. Allowable coverage (40% of "A")	2,003.00	sq. ft.

and

WHEREAS, the applicant contends that although the owner does not propose to build up to the allowable limit, he does desire to have a fair sized rear yard by providing only a 3.50 ft. setback from the street line; that the house on the north and the house on the south have no front setback from the mapped street line but straddle it and extend into the mapped street area; and

WHEREAS, the applicant states that the present owner has held title to the property since June 30, 1950 and that the assessed valuation of land is \$700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which observed the existing buildings and gave consideration to the proposed widening of Hook Creek boulevard, which has been in effect for a long time; and the committee believed that it is improbable that Hook Creek boulevard will be widened as much as shown, due to the presence of Francis Lewis boulevard one block away, which is a main thoroughfare in this vicinity; and the committee recommended that the applicant take this matter up with the borough president with the view of replanning the widening of Hook Creek boulevard; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under Section 21, to permit the construction of the proposed dwelling as shown on plans marked "Received November 30, 1954", 4 sheets, without the required setback for an E-1 district, *on condition* that at no point shall the building be nearer than 3½ feet to the proposed new street line; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

901-54-BZ

APPLICANT—John F. Fitzsimons, for Sylvia Ackerman, et al., owners.

SUBJECT—Application November 30, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, G-1 area district, the erection and maintenance of twelve 1-family dwellings, without the required setback.

PREMISES AFFECTED—133-40 to 135-14 Hook Creek boulevard, southwest corner of 133rd drive, southwest corner of 133rd road and Hook Creek boulevard, west side, 61.95 ft. south of 133rd road; 72.31 ft. south of 133rd drive; 41.32 ft. north of 134th avenue; 181.89 ft. south of 134th avenue; 20.21 ft. south of 135th avenue; 101 ft., 141.42 ft. and 181.84 ft. north of 135th avenue; Block 13210, Lots 1 and 4; Block 13211, Lots 1, 7 and 8; Block 13217, Lots 33, 43, 45 and 47; Block 13227, Lots 12 and 17, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Opposition: Joseph A. Kelly, Alice R. Kelly, Frank Carrion and Joseph Gioscia.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Hook Creek boulevard are in a residence use, G-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1954 acting on N. B. Applic. 3096-54, reads:

"1. Provide required 15' 0 setback for G-1 area district. Sec. 16-C of the Zoning Resolution.

The above objection also applies to:

N.B. 3097—133-76 Hook Creek Blvd., w.s., 72.31' s. of 133rd Rd., B13211, Lot 7.

3098—133-70 Hook Creek Blvd., w.s., Corner 133rd Rd., B13211, Lot 1.

3099—133-44 Hook Creek Blvd., s.s., 61.95' s. 133rd Rd., B1.13210, Lot 4.

3100—133-40 Hook Creek Blvd., s.w.c., 133rd Rd., B1.13210, Lot 1.

3102—135-15 Hook Creek Blvd., w.s., 40.42 n. of 135th Rd., B13227, Lot 17.

3103—135-04 Hook Creek Blvd., w.s., 20.21' s. of 135th Ave., B13227, Lot 12.

3104—134-34 Hook Creek Blvd., w.s., 101' n. of 135th Ave., B13217, Lot 47.

3105—134-30 Hook Creek Blvd., w.s., 141.42' n. of 135th Ave., B13217, Lot 45.

3106—134-26 Hook Creek Blvd., w.s., 181.84' n. of 135th Ave., B13217, Lot 43.

3107—134-22 Hook Creek Blvd., w.s., 181.89' s. of 134th Ave., B13217, Lot 40.

3969—134-08 Hook Creek Blvd., w.s., 40.42' s. of 134th Ave., Block 13217, Lot 33."

and

WHEREAS, the applicant states that the property referred to is presently zoned as a residence district, a class ½ height district and a G-1 area district; that as of July 25, 1916 the area in question was zoned as a business district, a one times height district and a D area district; that the present use designation became effective on January 21, 1947 and the present height and area designations became effective on June 20, 1952; that no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that this application is predicated on both practical difficulty and unnecessary hardship; that Hook Creek boulevard has been mapped for widening which has resulted in the taking of the frontages of the lots which are the subject of this application in depths ranging from 30 ft. up to 42 ft.; that it is permissible to include the area in the bed of mapped Hook Creek boulevard in the computation of the allowable coverage under the zoning resolution; that in no single case is the reduced area of the lot sufficient to permit the total allowable coverage without there being an encroachment into either the front setback or the required open space in the rear or the required side yards; that the block diagram submitted with this application shows that not a single house presently existing and fronting on Hook Creek boulevard has the setback from the new street line that is required under the area district regulations; that opposite properties on the easterly side of Hook Creek boulevard in block 13218, lots 20 and 22, likewise do not have the required 15 ft. setback from the new street line; and

WHEREAS, the applicant states that the assessed valuation of land is \$10,500; and

MINUTES

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which observed the existing buildings and gave consideration to the proposed widening of Hook Creek boulevard which has been in effect for a long time; and the committee believed that it is improbable that Hook Creek boulevard will be widened as much as shown due to the presence of Francis Lewis boulevard one block away, which is a main thoroughfare in this vicinity; and the committee recommended that the applicant take this matter up with the borough president with the view of re-planning the widening of Hook Creek boulevard; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the construction of the proposed dwellings as shown on plans marked "Received November 30, 1954", 4 sheets without the required setback for a G-1 district, *on condition* that at no point shall the buildings be nearer than $3\frac{1}{2}$ feet to the proposed new street line; that in all other respects the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permit required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

973-54-BZ

APPLICANT—Albert E. Deer, for Esso Standard Oil Co., owner.

SUBJECT—Application December 27, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a residence and retail use district, the reconstruction of existing gasoline service station, to include motor vehicle repairs, lubritorium, car washing and office; and to permit the parking of motor vehicles awaiting service.

PREMISES AFFECTED—140-06 Farmers boulevard, southwest corner of 140th avenue, Block 12592, Lot 37, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955 for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 140th avenue are in residence and retail use, D and E-1 area, class $\frac{1}{2}$ height districts; Farmers boulevard is in a retail use, D area, class $\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent, dated November 30, 1954 acting on N.B. Applic. 1919-54, reads:

"1. Proposed reconstruction of existing gasoline service station and auto repair shop including conjunctive uses of lubrication and car washing and the additional use of parking of motor vehicles awaiting service, partly in a residence use district and partly in a retail use district is contrary to Art. II Sections 3 and 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 114.24 ft. frontage by 161.52 ft. in depth, irregular,

on which is located a gas station, lubritorium and auto laundry, established in 1928 under N.B. Applic. 4962-28 and for which a certificate of occupancy No. 39123-28 was issued; that the motor vehicle repair shop was created in 1931 under N.B. Applic. 1070-31, approved March 23, 1931 and certificate of occupancy No. Q-11938 was issued June 11, 1940; that at the time of the establishing of the above uses, the entire plot was located in an undetermined use district, D area, class 1 height district; that on December 2, 1932 the use district was rezoned to retail and residence use; that on June 30, 1952 the height class was changed from 1 to $\frac{1}{2}$; that the area was changed from class D to class D within 100 ft. of Farmers boulevard and class E-1 for the remaining portion of the plot, also on June 30, 1952; and

WHEREAS, the applicant further states that fire department plan No. 1576-28 was approved May 22, 1928 for a gas station at premises 140-06 Farmers boulevard, southwest corner of 140th (Higbie) avenue, block 12592, lot 37; that the metes and bounds given in this approval show a frontage of 77.13 ft. on Farmers boulevard with a rear line of 61 ft., a frontage of 100 ft. on 140th avenue with a rear line of 65 ft.; that combustible permit E-428929 expiring September 1955 is now in effect and the gas station has been operated continuously since the original permit in 1928; that permit No. 261534 was issued by the fire department on September 19, 1928 for a motor vehicle repair shop; that present combustible permit F-411349 now expires July 1955 and the repair shop has been operated since 1928 in conjunction with the gas station; that the gas station was permitted in an undetermined use district under N.B. Applic. 4962-28 for which certificate of occupancy No. 39123-28 was issued; that N.B. Applic. 1070-31 was approved March 23, 1931 for a motor vehicle repair shop in an undetermined use district in conjunction with an existing gas station and certificate of occupancy No. Q-11938 was issued June 11, 1940 for the motor vehicle repair shop; that metes and bounds approved show a frontage of 119 ft. on Farmers boulevard with a rear line of 101.45 ft., 178.70 ft. on 140th avenue with a rear of 106.28 ft.; that the metes and bounds in the present application are less than those shown in the building department approval in 1931 and this is due to street widening; that the present application is confined solely to property owned by Esso and any proposed street widening is not included therein and therefore there is no conflict with General City Law Section 35; and

WHEREAS, the applicant further states that existing conditions show the existing gas station and motor vehicle repair as hereinbefore permitted consisting of 3 buildings, eight 550 gallon gas tanks with 3 dispensing pumps set back about 7 ft. from the lot line of Farmers boulevard, 3 curb cuts and driveways on Farmers boulevard and 2 curb cuts on 140th avenue, 3 outside lubricating pits and an unpaved plot, and one brand sign; that it is proposed to remove the 3 buildings and the 3 outside lubricating pits as well as grading the plot substantially to the level of the two streets; that it is also proposed to install 2 additional 550 gallon gas tanks for a total of 10, and to remove the present gas pumps and pumps island and to install two new pump islands with 2 pumps each; that the pumps will be of the low approved type and set back minimum distance of 12 ft. from the lot line of Farmers boulevard; that it is further proposed to rearrange the present curb cuts so that there will be three 30 ft. cuts on Farmers boulevard and one 20 ft. cut on 140th avenue; that the curb cut on 140th avenue will be within the first 25 ft. from the intersection of Farmers boulevard and there will be no conflict with section 7A of the zoning resolution; that no proposed curb cut will be within 5 ft. of any lot line as extended; that the brand sign, overhanging the lot line 4 ft., will be located as shown; that along the interior lot lines there will be erected a 2 ft. high masonry wall (interior face brick to match accessory building), with a woven wire fence 3 ft. 6 in. high on top for a total height of 5 ft. 6 in.; that along the lot line on 140th avenue, for a distance of about 42 ft., there will be constructed a 2 ft. high face brick wall with a 2 ft. high woven wire on top for a total height of 4 ft.; that planted

MINUTES

areas protected by concrete curbing will be provided and the yard area, where not occupied by planted spaces and building, will be paved with asphaltic concrete; that heating will be provided by an approved type, warm air, oil fired ceiling suspended furnace supplied by an outside buried 550 gallon fuel oil tank; that sidewalks and curbs will be repaired or replaced as may be required; that the building will be of masonry construction finished with face brick on the two street fronts and will consist of a sales office, rest rooms, combination heater and storage room and 3 service bays for lubrication, car washing and repairing; that the operation of the service station will be confined to the retail use district with the small residential portion being used chiefly for the planted area; and

WHEREAS, the applicant contends that the purpose of this application is to rehabilitate and reconstruct the existing facilities for the gas station and motor vehicle repair shop as legally permitted; that the repairing as permitted by certificate of occupancy No. Q-11938 consists of general auto repairs and it is proposed to continue this use; that there will be no heavy collision work, body or fender work, painting, spraying or welding; that on the same block, lot 315, northwest corner of Farmers boulevard and 142nd avenue, there now exists a gas station and repair shop which was granted by the Board under Cal. No. 807-52-BZ and which abuts the subject property immediately on the south; that 141st avenue, on the east side of Farmers boulevard, although shown on the city maps, is not physically opened; that title to said street is not vested in the city and no proceedings are now pending to acquire title; that Farmers boulevard is a highly traversed auto traffic lane and as such this proposal is entirely in keeping at this point; that it is essential that this gas station be modernized so that competition can be met; and

WHEREAS, the applicant states that the present owner has held title to the property since January 10, 1946; that the assessed valuation of land is \$17,000 and of the building \$7,000 making a total of \$24,000; that the building was erected in 1928 and 1931; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended the application be granted as to the reconstruction of the lawfully existing gasoline service station under proper conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the lawfully existing gasoline service station erected when the premises were in an undetermined district to be reconstructed and rearranged substantially as proposed and indicated on plans filed with this application, marked "Received December 27, 1954", 3 sheets, "April 4, 1955", 1 sheet and "May 26, 1955", 1 sheet, *on condition* that all buildings and uses shall be removed from the premises and the premises leveled substantially to the grade of the abutting streets; that the accessory building shall have no cellar, shall be faced on all sides, including the repair bay, with face brick and shall comply with the requirements of the Building Code; that on the interior lot lines there shall be erected a masonry wall 2 feet high, of similar brick as the accessory building, on which a wrought iron picket fence shall be erected to a total height of not less than 5 ft. 6 inches; that such fence shall continue on the southerly side of Farmers boulevard and on the northerly side to 140th avenue and return for a distance of approximately 45 feet; that planting shall be maintained in the area shown against such walls, planted with suitable material and protected at all points with a concrete curbing not less than 6 in. in width and 6 in. in height; that pumps shall be erected not nearer than 15 feet to the street building line of Farmers boulevard and shall be of a low, approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon tanks; that the balance of the premises

where not occupied by the building and planting shall be paved with concrete or asphaltic paving; that the sidewalks and curbs abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; that curb cuts shall be restricted to three, each of the width shown, to Farmers boulevard and one to 140th avenue within the first 25 feet from the intersection; that within the intersection there shall be erected a block of concrete not less than 12 in. in height extending for a distance of not less than 5 feet along either street building line from the intersection; that such portable fire fighting appliances shall be installed as the fire commissioner shall direct; that under section 7i there may be motor vehicle repairing carried on in the rear extension of the accessory building, as proposed; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting the erection within the intersection of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that if flood lights are constructed and maintained as proposed such lights shall have metallic shades so arranged as to reflect away from the adjoining residential occupancies; that there may be an approved ceiling type suspended heater for heating the accessory building; that the toilet rooms shall be so located as not to have doors adjoining; that there may be parking of motor vehicles awaiting service, provided same are located so as not to interfere with the servicing of the station; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

Adjourned: 1:20 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

WEDNESDAY AFTERNOON, JUNE 1, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

486-39-SM—Vol. II

APPLICANT—United States Gypsum Company, owner.
SUBJECT—Application reopened December 15, 1953, as to amendment as to similar product produced in Canadian factory—re USG Sheetrock Gypsum Wallboard Panels and Accessories; previously approved.

APPEARANCES—

For Applicant: William W. Bainbridge.

ACTION OF BOARD—Term of Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 486-39-SM Vol. II

Subject: Amendment to resolution as to similar product produced in Canadian factory.

United States Gypsum Co., requested by filing an application dated November 5, 1952 that the resolution adopted September 24, 1940 and amended at various times through January 8, 1952 under Cal. No. 486-39-SM Vol. I be amended so as to include the material known as USG Gypsum Wallboard. The application was reopened under Cal. No. 486-39-SM Vol. II December 15, 1953. The applicant subsequently requested by

MINUTES

letter dated January 7, 1955 to include the same material as manufactured in Canadian factory.

Purpose

The material is a plaster board.

Description

The requested wallboard is similar to the previously approved sheetrock, the core material and face paper or clip board back paper is the same. The panels may be up to 14'-0" in length, $\frac{3}{8}$ ", $\frac{1}{2}$ " or $\frac{5}{8}$ " in thickness and up to 4'-0" in width. The edges are either square, beveled, rounded or tapered.

Recommendation

The Committee on Test recommends that the resolution adopted September 24, 1940 and amended through January 8, 1952 under Cal. No. 486-39-SM Vol. I be amended so as to include the material known as USG Wallboard as herein described on condition that the requirements of the resolution adopted September 24, 1940 under Cal. No. 486-38-SM Vol. I be complied with.

The Committee further recommends that the resolution be amended so as to include this material and the other sheet rock material as approved under Cal. No. 486-39-SM Vol. I as manufactured by the wholly owned subsidiary of the USG Company known as the Canadian Gypsum Company on condition that the requirements of the resolution adopted September 24, 1940 under Cal. No. 486-39-SM Vol. I be complied with.

The Committee further recommends that as this is an emergency request due to the inability of the domestic plants to supply the demand at this time, that this recommendation for the inclusion of the material from the Canadian Gypsum Company be of a temporary nature but shall not exceed one year.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

..Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of September 24, 1940 through January 8, 1952 in accordance with the above report.

918-53-SM

APPLICANT—Flexible Tubing Corp., owner (ducts for air-conditioning systems).

SUBJECT—Application December 21, 1953—Thermaflex-A and Thermaflex-B, Models FT-712 and FT-713, approval of.

APPEARANCES—

For Applicant: Joseph Platzker.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

Re: Cal. 918-53-SM

Subject: Ducts for Air Conditioning System, Thermaflex-A Model FT-712, Thermaflex-B Model FT-713, approval of.

Flexible Tubing Corp. of Guilford, Connecticut filed an application December 21, 1953 with the Board of Standards and Appeals for approval of material known as Thermaflex-A Model FT-712 and Thermaflex-B Model FT-713 for use in New York City under the provisions of C26-178.0.6 and C26-711.0.1 Administrative Building Code.

Purpose

A flexible duct to be used for conveying both warm and cold air in an air conditioning system.

Description

Thermaflex-A Model FT-712 is constructed with a basic supporting galvanized continuous spring steel wire helix. Over this is a covering material of three ply laminate of woven fiber glass impregnated with permanent type resinous elastomeric compound bonded between two thin metallic sheets. It is permanently bonded to form a continuous uninterrupted cover.

Thermaflex-B Model FT-713 is constructed of continuous galvanized soft iron wire supporting helix. Over this is a cover of two ply materials. The outer ply is long life permanent type elastomeric film, the inner ply is long strand fiberglass matting. The soft iron helix eliminates any tendency of the ducting to resonate or regenerate noise due to air flow within the duct. The fiberglass mat acts as a sound retarder.

Inspection and Test

An inspection and tests of this material was made at the plant of the Flexible Tubing Corp. at New Whitfield Street, Guilford, Connecticut. Samples of the material, the smallest section; 3 inch O.D. were tested in accordance with the requirements of C26-88.0 Administrative Building Code in the presence of Asst. Engr. J. A. Darts, Committee on Test. There was no melting of either specimens when exposed to temperature of 900°F for five minutes nor was there any ignition of either specimens when exposed to a temperature of 1200°F for five minutes. The material was also subjected to an air test of 25½ psi while the specimens were submerged in water; at which point a leak developed in the connector.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval for voluntary installation, in New York City of the material known as Thermaflex-A Model FT-712 and Thermaflex-B Model FT-713 as having met the requirements of C26-88.0 Administrative Building Code to be used as a connector between branch lines and diffusers on air conditioning systems and between branch ducts and air mixing units on condition that the connector shall not pass through partitions and further that all packages in which this material is marketed shall be marked, labeled or tagged: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 918-53-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

826-54-SM

APPLICANT—The Deutsch Company, owner (Earl Longfellow, agent).

SUBJECT—Application October 22, 1954—Deeco Flexible Gas Connector, Series CS-6200, consisting of 6210, 6220, 6230 and 6240, approval of.

APPEARANCES—

For Applicant: Earl Longfellow.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative: Commissioner Kleinert 1

MINUTES

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 826-54-SM.

Subject: Deeco Flexible Gas Connector, Series CS-6200, approval of.

The Deutsch Company of Los Angeles, California filed October 22, 1954 an application with the Board of Standards and Appeals for approval of the material known as Deeco Flexible Gas Connector, Series CS-6200 under the provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The material is to be used as a flexible connector for gas appliances.

Description

The connector is comprised of a corrugated admiralty brass tube 27/32 inches outside diameter by .016 inches wall thickness having four corrugations per inch. A section of 5/8 inch outside diameter by .049 inch wall copper tubing is brazed onto both ends of the brass tube. The copper tube ends are in turn flared into a #CGS 111-5/8 nut.

Inspection and Test

Samples of the connector were inspected by Asst. Engr. J. A. Darts, Committee on Test, and were found to comply with the details of construction. A sample connector was also subjected to a hydrostatic test and was tested up to 650 psi at which load a leak developed in a ply at the end of the connector, there was no indication of failure in the connector itself.

The appliance has been approved by the American Gas Association under P-L-42A.001.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Deeco Flexible Gas Connector, Series CS-6200, when manufactured as herein described, for use in New York City under the provisions of Article 12, Chapter 26 Administrative Building Code on condition that the connector be tagged or stamped: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 826-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

Re: Cal. 119-55-SA.

Subject: Hydro-therm Gas Fired Hot Water Heating Boilers, Models M45, M72, M85, R100, R120, R150, R170, L200 and L250. approval of

Hydro-therm Inc., of Northvale, New Jersey filed February 9, 1955 an application with the Board of Standards and Appeals for approval of the Hydro-therm Gas Fired Hot Water Heating Boilers, Models M45, M72, M85, R100, R120, R150, R170, L200 and L250, under the provisions of C26, Article 12 Administrative Building Code.

Purpose

Gas fired cast iron water heating boilers.

Description

These hot water boilers are of cast iron manufactured in nine models varying from 13 to 21 inches in width, 26 inches to 35 inches in length and 17 inches to 36 inches in height all flue connected. Also varying as to BTU input per house, Model M45 has a BTU input of 4500 BTU's per hour, M72—72000, M85—85000, R100—100000, R120—120000, R150—150000, R170—170000, L200—200000, L250—250000.

The heater has a draft hood with a dome which collects flue gases in a cast iron chamber for safe exhaust through the flue. An absorption unit which absorbs all usable heat and transfers it to the boiler water which travels a zig-zag path through cast iron sections completely sealed to prevent flue gas from escaping.

A Minneapolis-Honeywell control valve regulates the flow of gas at command of iron thermostat. The boiler base enclose cast iron burners with raised drilled ports for clean and efficient combustion. The mixer tubes have adjustable steel shutters and work on the venturi mixing air and gas for efficient combustion.

A Tredicator on the boiler indicates temperature pressure and altitude of boiler water. A control-panel creates ventilation control vestibule which effectively insulates all controls from boiler heat. A Minneapolis-Honeywell former 110/24 volts supplies low voltage to boiler controls. A Minneapolis-Honeywell temperature limit directly immersed in boiler water interrupts gas flow if maximum temperature setting is exceeded. A gas safety pilot in connection with a electric safety pilot, stops gas flow if pilot flame is extinguished a Pressure regulator automatically maintains constant gas pressure irrespective of supply line variation. These gas fired hot water boilers have been approved by the American Gas Association Model M45, Certificate No. 4-1241:101-5, for natural manufactured and mixed gases.

Inspection and Test

These gas fired cast iron hot water heaters were inspected and tested at the plant of the applicant at Northvale, New Jersey and found to operate as designed. Present at the inspection and test were Chief Engr. L. V. Huber of the Committee on Test and W. Hosmer, G. Day, J. Lake and J. Baires representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Hydrotherm Gas Fired Hot Water Heating Boiler, Models M45, M72, M85, R100, R150, R170, L200 and L250 for use in New York City with natural or manufactured gases when installed and operated in accordance with this report and the provisions of C26, Article 12 Administrative Building Code provided each heater bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 119-55-SA," and all ports and orifices shall be of

MINUTES

a type approved by the AGA for the type of gas used and further that this equipment shall not be installed in garages of places of explosive atmospheres.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

205-55-SA

APPLICANT—S. J. Dowling, for Eureka-Williams Co., Div. of Henney Motor Co., Inc., owner.

SUBJECT—Application March 1, 1955—Williams Oil-O-Matic Conversion Oil Burner, Model R-160, approval of.

APPEARANCES—

For Applicant: Stephen J. Dowling.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Not Voting: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 205-55-SA

Subject: Williams Oil-O-Matic Conversion Oil Burner, Model R160, approval of.

The Eureka-Williams Co. Division of Henney Motor Company, Inc., owner-manufacturer filed March 1, 1955 an application with the Board of Standards and Appeals for approval of the Williams Oil-O-Matic Conversion Oil Burner, Model R160 under the provisions of C19-57 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A domestic and commercial oil burner for use with fuel oil not heavier than No. 2 Department of Commerce Standards.

Description

This is a mechanical draft conversion oil burner and consists of a fan assembly, a switch thermal manual reset, air intake muffler, pressure regulator, a port pressure gauge pressure regulator assembly, aspirator assembly, float housing assembly, tube oil to bearings, tube oil to nozzle, oil valve, to discharge port, oil valve assembly, nozzle, draft pipe assembly, air pump, burner case, nozzle and electrode assembly. The controls are an aquastat, Penn No. 443 or equal, Penn Stack Relay control, Thermostat Penn or equal. With a stack temperature of 500°F the CO₂ content of the flue gas was 11%.

The burner is an assembly of approved parts suitable for use with each other for the service intended as approved, and the burner is provided with suitable safeguards to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range and was found to function properly as designed with no flarebacks or unusual carbon deposits with the oil cut off the controls functioned in 90 seconds. The burner has been tested by the Underwriters Laboratories Inc., Misc. Pet. 102, Application No. 53C2114 and Application No. 53C3093.

Inspection and Test

The burner was inspected and tested at 739 Logan avenue, Bronx. Present at the inspection and test were Chief Engr. L. V. Huber of the Committee on Test and Stephen Dowling representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Williams Oil-O-Matic Conversion Oil Burner, Model R160 for use in New York City in domestic and commercial installation with fuel oil not heavier than No. 2 Department of Commerce Standards when installed and operated in accordance with this report and the requirements of the Oil Burner Rules of the Board provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 205-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, Order #47240 LC issued by the Fire Commissioner February 6, 1953, and referred to in his decision of August 27, 1953, reads:

"Technical Establishment

Sirs:

Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this department when such order has been complied with.

MINUTES

1. Discontinue the storage and use of toluol, xylol and any other materials which are not in conformance with Resolution 148-42-A. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states the building is 3 stories, 36 feet in height, 25 ft. by 100 ft. in area at street level, 25 ft. front by 85 ft. in area at typical floor level, of Class 1 construction, erected in 1905 on a lot 25 feet by 100 feet in area, in an unrestricted use, A area, Class 2 height district; used and occupied since 1941 as follows: 1st, 2nd and 3d floors—manufacturing printing ink, 5, 3 and 1 person respectively; and

WHEREAS, Certificate of Occupancy #20476 issued July 22, 1941, on Misc. App. 5219/41 describes the building as a factory building, 3 stories in height, of fireproof construction and permits the following use and occupancy: 1st floor, factory—5 persons; 2nd floor—factory, 10 persons, 225 lbs. liveload; 3d floor—10 persons, 225 lbs. liveload; and

WHEREAS, the applicant states it is now proposed to use and occupy the building as follows—1st floor—factory, storage and office, 35 persons; 2nd floor—factory and storage, 15 persons; 3d floor—factory and storage, 10 persons; that the building is provided with a one-source sprinkler system throughout and an interior 2 ft. 4 in. wide steel stairs, enclosed with 6 in. terra cotta tile, equipped with metal, self-closing doors and leading to roof bulkhead but not to street and one fire escape extending to roof by stair and by ladder with egress from its lower termination over roof of building; window and door openings on course of fire escape are fireproof, self-closing; and

WHEREAS, the applicant states that since the action by the Board under Cal. No. 148-42-A, Vol. I the requirements of the owner have changed so that in order to maintain efficient operation, they will have to store the following amounts of materials on the premises:

Materials to be stored in the approved underground tank storage system.

WHEREAS, the applicant contends that the owner has been able to demolish the building on the plot adjoining to the east and to proceed with the erection of a one-story extension to building in question; that to partially comply with the Fire Commissioner's order it is proposed to install a system of underground tanks for the storage of most of the inflammable materials in question; that, however, all the materials required on premises cannot be stored in the underground system and the owner therefore proposes to store some of these materials in the original steel drums; that the building is owner-occupied and under the supervision of the owner at all times and every possible precaution is taken in the storage and handling of these materials; that the 2nd floor of the building has a small office with one person in constant attendance during working hours; and

WHEREAS, on October 19, 1943, under Vol. I of this calendar number, the Board modified Order #90108 LC issued by the Fire Commissioner January 23, 1942, under certain conditions, including a requirement that the sprinkler system be put in working order and maintained as a dry automatic system with street siamese and that the alarm system comply with the requirements therefor for a dry system and on the further condition that inflammable oil taken from the drums be carried in approved safety cans and that such portable fire-fighting appliances be maintained as the fire commissioner shall direct.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on October 19, 1943 by adding thereto: that in the event the owner desires to increase the storage of certain materials as passed on by the Fire Commissioner in his decision of August 27, 1953, Objection 1, such materials as are proposed to be buried in approved buried tanks, as passed on by the Borough Superintendent under Misc. App. 1449/54, may be permitted; and that no additional chemicals shall be stored within the existing building or proposed building other than as permitted by the resolution adopted by the Board on October 1943 until the underground storage system has been duly approved for the purpose intended by both the Building Department and the Fire Commissioner and upon further request for consideration to the Board.

(Alt. 1490/43)

346-49-BZ

APPLICANT—Murry Kalik, for Jessie Ridley, owner (Van Eyck Studios, lessee).

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under sections 21 and 7e of the zoning resolution, permitting in a business use district, the change in occu-

pancy from stockroom on second floor to a carpentry shop with a power saw and paint shop.

PREMISES AFFECTED—179 East 119th street, north side, 100 ft. west of 3rd avenue, and 2190 3rd avenue, Block 1768, Lots 32, 34 and 37, Borough of Manhattan.

APPEARANCES—

For Applicant: Murry Kalik.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 20, 1950, on certain conditions; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 20, 1950, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision e for a term of five years from the date of this *amended* resolution, to permit * * *; that other than as herein *amended* the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within three (3) months from the date of this *amended* resolution." (Alt. App. 1532/48)

194-50-BZ

APPLICANT—Maxson, Sells and Ficke, for Gustav M. Berne, owner. (Rockaway Crest Sec. 1, Inc., Rockaway Crest Sec. 2, Inc. and Rockaway Crest Sec. 3, Lessee).

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7h and 21 of the zoning resolution, permitting on a plot, located in a residence and business use, D area district, the erection of more than one building on a lot and the parking and storage of motor vehicles on the unbuilt upon portion of the plot.

PREMISES AFFECTED—20-02 to 20-50 and 20-21 to 20-57 Seagirt avenue, northwest corner of Beach 20th street and south side of Seagirt avenue, 157.99 ft. and 586.14 ft. west of Beach 20th Street (Block 250, part of Lot 6; Blocks 262 and 263, Lots 1; Block 266, Lots 20 and Block 290, Lot 150; Blocks 292 and 293, Lots 1 and 70 and Block 294, Lot 1 and part of Lot 70), Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Lester H. Maxson.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on May 2, 1950, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on April 29, 1952; and

WHEREAS, the resolution was amended on May 25, 1954; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 2, 1950, as thereafter *amended* by resolutions adopted through May 25, 1954, only so far as it has reference to the time within which to

MINUTES

obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that permits have been obtained and contracts are being let, that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. Applications 1073 to 1093/50 and Alt. 508/54)

295-53-BZ

APPLICANT—James J. Lyons, Jr., for Emil Guterman, owner.

SUBJECT—Application for consideration—reopening as to amendment of resolution adopted March 2, 1954—reopening as to rescindment of resolution adopted on May 24, 1955—re Application (decision of the borough superintendent), previously granted on condition under sections 7f and 21 of the zoning resolution, permitting in a business use district (now a residence use district) the erection and maintenance of a gasoline service station, lubricatorium, car wash (non-automatic) and office.

PREMISES AFFECTED—2630-2634 Bailey avenue, east side, 150 ft. south of West 193rd street, Block 3239, Lots 14, 16 and 17, Borough of the Bronx.

APPEARANCES—On May 24, 1955—

For Applicant: Harry Stern.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended as to completion, on May 24, 1955.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

ACTION OF BOARD—Application reopened and resolution of May 24, 1955 rescinded, on June 1, 1955.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on May 24, 1955, this application was reopened and time to complete was extended, provided work was completed within one year of the date of the resolution granting the variance, namely March 2, 1954; and

WHEREAS, it appears that the zoning of these premises was changed from business to residence, effective April 29, 1954, after the resolution was adopted by the Board on March 2, 1954; and

WHEREAS, the Board has found it necessary to make further study of this matter, in view of the change of zone which became effective on April 29, 1954; and

WHEREAS, on May 4, 1954, time to submit working plans was extended at the request of the applicant for two months and no statement was made that the zoning had been changed effective April 29, 1954; and

WHEREAS, on July 27, 1954 the Board, as an administrative act, approved the working drawings as in substantial compliance with the resolution granting the variance adopted March 2, 1954; and

WHEREAS, it appears that a permit to construct was issued by the Borough Superintendent on October 21, 1954; and

WHEREAS, the Borough Superintendent reports that the work is completed and that an application for a certificate of occupancy has been filed, as of April 26, 1955, but no action has been taken because of the discovery that the zoning was changed from business to residence effective April 29, 1954; and

WHEREAS, on May 24, 1955, the resolution was amended by vote of the Board, as to completion; and

WHEREAS, on June 1, 1955, the resolution adopted May 24, 1955 was rescinded, by vote of the Board.

Resolved, that the resolution adopted by the Board on May 24, 1955, be and it hereby is *rescinded*.

836-53-BZ

APPLICANT—Seymour R. Candee, for Danrob Corporation, owner.

SUBJECT—Application for consideration—reopening as to increase in term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7e of the zoning resolution, permitting in a residence and retail use district, the maintenance of manufacturing in existing retail stores.

PREMISES AFFECTED—3387-3399 White Plains road, southwest corner of Magenta street, Block 4624, Lot 33, Borough of the Bronx.

APPEARANCES—

For Applicant: Morton Candee.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on April 20, 1954, on certain conditions; and

WHEREAS, the term of variance was extended on May 25, 1954; and

WHEREAS, time to obtain permits and complete the work extended on October 9, 1954; and

WHEREAS, the applicant requested a further extension of the term of variance; and

WHEREAS, the applicant stated that there is a street widening proposed on Magenta street of approximately 3 feet; that the buildings on this lot No. 33 have been built only on the portion of the property not involved in such widening.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 20, 1954, as thereafter *amended* by resolutions adopted through October 9, 1954, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision e for a term of twenty (20) years from the date of this amended resolution, to permit * * *; that other than as herein *amended* the resolutions above cited shall be complied with in all respects." (Alt. 1004/53)

51-54-BZ

APPLICANT—Henry C. Brueker, for Ph. Dietz Coal Co., Inc., owner, and Eton Silver, Inc., tenant.

SUBJECT—Application for consideration—reopening as to amendment as to proposed occupancy—re Application (decision of the borough superintendent), previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the change in occupancy from storage garage and motor vehicle repair shop to factory (light manufacturing).

PREMISES AFFECTED—70-01 to 70-09 65th street, southeast corner of Otto road, Block 3644, Lot 1, Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Saul Godwin and Melvin Handler.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 8, 1955, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 8, 1955, by adding thereto:

MINUTES

"that in the event the owner desires to sell this building to Jacob Oxenhandler for occupancy by the Eton Silver, Inc., now at 283 Greene avenue, Brooklyn, N. Y. for the manufacture of silver plate and flat hollowware by the electrolytic process, including stampings and patterns therefor, such use may be permitted in place of the newspaper printing plant previously proposed, *on condition* that the requirements of the resolution adopted by the Board on March 8, 1955, shall be complied with in all other respects; that a new permit and new certificate of occupancy shall be obtained and all work completed within six months from the date of this *amended* resolution." (Alt. 1418/53)

657-54-BZ

APPLICANT—Robert Gottheb, for Webster Auto Parts, Inc., owner.

SUBJECT—Application for consideration—reopening as to approval of working plans—re Application (decision of the borough superintendent), previously granted on condition, under sections 7e, 7f and 7i of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubricatorium, car wash, storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—1363-1383 Webster avenue, west side, 647.4 ft. north of East 169th street, Block 2887, Lot 157, Borough of the Bronx.

APPEARANCES—

For Applicant: Gerald Levy.

ACTION OF BOARD—Application reopened, resolution amended and working drawings approved.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 22, 1955, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and submitted working drawings, for approval by the Board, as being in substantial compliance with the requirements of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *approve* working drawings marked "Received April 6, 1955", (3 sheets), as in substantial compliance with the resolution adopted by the Board on March 22, 1955; that such working drawings shall be filed with the Borough Superintendent and shall be followed as to arrangement and design of the premises. (N.B. 869 and 870/54)

496-32-BZ—Vol. II

APPLICANT—David Kraus, for Nathan Temares, owner.

SUBJECT—Application for consideration—reopening as Vol. II as to extension of building, subject to regular procedure—re Application (decision of the borough superintendent), previously withdrawn—under section 21 of the zoning resolution, permit in a residence use and "B" area district, the use of a portion of the rear yard required by the zoning resolution.

PREMISES AFFECTED—283 East Broadway, south side, 45.6 ft. west of Gouverneur street, Block 287, Lot 13, Borough of Manhattan.

APPEARANCES—

For Applicant: Nathaniel Litt.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider extension of building.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

85-36-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Socony-Vacuum Oil Company, Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. III as to regular procedure to consider a new proposal under a new basis of Appeal—re Application (decision of the borough superintendent), previously denied, under section 21 of the building zone resolution, permitting in a business use district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—2235-2247 Flatbush avenue and 1832-1850 East 48th street, northeast corner, Block 8487, Lots 1, 3 and 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Milton Bromberg.

ACTION OF BOARD—Application reopened as Vol. III, subject to the regular procedure, to consider new proposal under a new basis of appeal.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

172-36-BZ—Vol. II

APPLICANT—Samuel Rosenblum, for Coronet Piece Dye Works, Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider extension of term for existing use, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use district, the change of occupancy of an existing building to a factory, power wet wash laundry, dry cleaning, dyeing and finishing uses for a term of five years.

PREMISES AFFECTED—80-19 to 80-25 Cornish avenue, north side, 135.66 ft. east of Queens boulevard, Block 1538, Lot 87, Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Samuel Rosenblum and Curt Otto.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider extension of term of existing use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

529-47-BZ—Vol. II

APPLICANT—Knickerbocker Federal Savings and Loan Association, for Ralph DeMayo, owner (Knickerbocker Federal Savings and Loan Association, lessee).

SUBJECT—Application for consideration—reopening as Vol. II as to additional use, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c and 7e of the zoning resolution, permitting in a residence and business use district, the erection of a building to be used as a store, with exits in residence portion, and the parking of more than five motor vehicles on unbuilt upon portion for patron's of store; no fee to be charged.

PREMISES AFFECTED—3476 Boston road, southwest corner of Corsa avenue, Block 4738, Lot 5, Borough of the Bronx.

MINUTES

APPEARANCES—

For Applicant: Burton C. Meighan.

ACTION OF BOARD—Application reopened as Vol. II, to consider additional use, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

6-53-BZ

APPLICANT—Hyman Wiener, for Greater New York Corp. of Seventh Day Adventists, owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use B area district, the erection and maintenance of a structure (church building) using more than the area permitted.

PREMISES AFFECTED—109-111 East 87th street, north side, 80 ft. east of Park avenue, Block 1516, Lots 5 and 6, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Wiener.

ACTION OF BOARD—Application reopened and set for hearing June 28, 1955, at 10 A. M., waiving all requirements except new decision of the borough superintendent and two publications in the Bulletin.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

463-50-BZ—Vol. II

APPLICANT—Patrick D. Concagh, for Patrick Filomio, owner.

SUBJECT—Application for consideration—reopening as Vol. II as to a new proposed use, subject to regular procedure—re Application (decision of the borough superintendent), previously denied, under section 7f of the zoning resolution, permit in a business use district, the erection and maintenance of a gasoline service station, auto washing, lubritorium, sale of auto accessories and office, for a term of fifteen years.

PREMISES AFFECTED—3221-25 Boston Road, 3250-54 Laconia avenue, northeast corner, Block 4614, Lot 22, Borough of the Bronx.

APPEARANCES—

For Applicant: Patrick D. Concagh.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider new proposal.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

592-54-BZ

APPLICANT—Lloyd Morgan and Eugene V. Meroni, for Equitable Life Assurance Society of the United States, owner.

SUBJECT—Application for consideration—reopening and restore to docket—re Application (decision of the borough superintendent), previously withdrawn, under sections 7c and 7e of the zoning resolution, to permit in a residence and unrestricted use district, the erection and maintenance

of a gasoline service station, lubritorium, car-wash, storage and sale of accessories, with illuminated signs, and to permit the parking of motor vehicles.

PREMISES AFFECTED—205 West Fordham road, west side, 391-18 ft. east of Landing road and Major Deegan boulevard, Block 3236, Lot 220, Borough of the Bronx.

APPEARANCES—

For Applicant: Angelo S. Mongiello.

ACTION OF BOARD—Application reopened and restored to the calendar, to be set for hearing in due course, waiving all requirements; withdrawn on May 3, 1955.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

677-54-BZ

APPLICANT—Angelo S. Mongiello, for Hyman and Morris Glassgall, owners.

SUBJECT—Application for consideration—reopening and restore to docket—re Application (decision of the borough superintendent), previously withdrawn, under section 21 of the zoning resolution, to permit in a residence use district, the change in occupancy from dead storage for autos, garage and one apartment to roofing and sheet metal factory and apartment (one family).

PREMISES AFFECTED—413-415 West 150th street, north side, 112 ft. 11½ in. west of St. Nicholas avenue, Block 2065, Lot 22, Borough of Manhattan.

APPEARANCES—

For Applicant: Angelo S. Mongiello.

ACTION OF BOARD—Application reopened and restored to the docket, subject to the regular procedure; previously withdrawn on February 23, 1953.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

175-55-BZ

APPLICANT—John F. Fitzsimons, for 66-52 Grand Avenue Corporation, owner. (The Great Atlantic and Pacific Tea Co., and Ben Franklin Stores, lessees).

SUBJECT—Application March 8, 1955—(decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence and retail use D area district the maintenance of existing retail store, extending from retail into residence use district, using more than area permitted in retail D area district portion, and to permit parking in the residential portion of the plot.

PREMISES AFFECTED—66-48 to 66-56 Grand avenue, south side, 66.32 ft. west of Queens Midtown Expressway and 66-43 58th street, Block 2774, Lot 35, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

ACTION OF BOARD—Application withdrawn due to change in zone, permitting the desired use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

Adjourned: 3:50 P. M.

JOSEPH J. DOYLE, Chief Clerk.

RULES

RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

Adopted by The Board of Standards and Appeals,
March 11, 1955, Effective April 4, 1955.
Cal. No. 64-55-SR

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
- 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
- 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
- 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The following statement is explanatory only of the reasons presented to the Board for adopting the rules, but in no way is any part of this statement to be considered as contravening any part of the rules adopted.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

PUBLIC HEARING

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, June 24, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954 and further hearing on March 25, 1955.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those excepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors,

toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

PUBLIC HEARING

- 1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.
- 1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.
- 1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.
- 1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.
- 1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.
- 1.4. The term "hereafter established" shall mean those dry cleaning establishments established after January 1, 1953.
- 1.5. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.
- 1.6. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.7. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings and obtain its approval. Any prior approval shall be a compliance with this rule.
- 2.2. The requirements of Rule 2.1. shall not apply to existing dry cleaning establishments.
- 2.3. No dry cleaning unit shall be installed unless such unit is approved by the Board of Standards and Appeals.
- 2.4. The use of any existing commercial premises, as defined in Article 4, Administrative Code, for any dry cleaning establishment shall not be deemed to be a Change of Occupancy within the meaning of Section C26-185.0 of the Administrative Code.
- 2.5. The dry load capacity of all dry cleaning units shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.6. No dry cleaning solvent shall be used unless such solvent has been tested and rated by the Fire Commissioner.

- 2.7. It shall be unlawful in any dry cleaning unit approved by the Board to use any solvent having a flashpoint other than that for which the dry cleaning unit has been approved by the Board.
- 2.8. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles, but such area may include, in conjunction with the dry cleaning establishment, unless otherwise prohibited by law, ordinary storage, boilers, washing equipment, compressors, pumps and filtration equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by lawful non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, and fur storage.
- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building, except that this Rule 3.2 shall not apply to those establishments created prior to the effective date of these Rules:
 - 3.2.1. which is of wood frame construction;
 - 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
 - 3.2.3. any part of which establishment is within 20 feet of any public building, as defined in Section C26-235.0 of the Administrative Code.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.
 - 4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following, except that this Rule 5 shall not apply to those establishments created prior to the effective date of these Rules:

PUBLIC HEARING

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings within six feet of any dry cleaning unit shall be fire-retarded with one-hour fire resistive materials and doors and with two approved automatic wet pipe sprinkler heads located over the cleaning unit which may have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following, except that this Rule 6 shall not apply to those establishments created prior to the effective date of these Rules:

6.1. Unless otherwise specifically exempted by law, no power or heating boiler shall be permitted in the same area or space where dry cleaning units are located unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.3. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.4. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

7.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide at least four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units, and such ventilation as is otherwise required by law.

8.2. All Class A dry cleaning establishments shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of all dry cleaning establishments whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof, street, yard or court grade on which it opens of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan, and

(3) The terminal of the exhaust, shall be at least five feet from any window or ventilating opening if said ventilating window or ventilating opening lies on the same plane as the exhaust terminal and when the ventilating windows, or other ventilating openings lie on a plane which faces in the direction of the exhaust terminal such terminal shall be at least 10 feet away from the same, and

(4) All direct equipment exhausts or vents shall be provided with mesh lint arrestors which shall be kept clean unless lint traps are provided on the units, and

(5) The requirements of subdivisions (1) and (3) of this Rule 8.3 shall not apply to those establishments created prior to the effective date of these Rules.

Periodical Division
University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments.
- 9.2. The proprietor of any Class A establishment shall furnish to any person cleaning out a dry cleaning unit an approved type respirator for his use during the process of cleaning out any such unit.
- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

Rule 12.

If any term, part or provision of any of the aforesaid Rules shall be held unconstitutional or ineffective in whole or in part, such determination shall not be deemed to invalidate the remaining terms, parts or provisions of these Rules.

NOTICE

Copies of the Official Directory of the City of New York for the year 1955 (The Little Green Book), containing the latest authentic information in relation to City, State and Federal Departments, Bureaus, Offices and

Courts, are now on sale at the office of the Supervisor of the City Record, Room 2213, Municipal Building, Manhattan, New York 7, N. Y. Price One Dollar. Make check or money order payable to "Supervisor of City Record".

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

PETITIONS AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On June 3, 1955, copy of Petition and Order of Certiorari was served on the Board by Paul Kahn, attorney for Grokahn Realty Corp. and Park Bayard Realty Corp., objecting property owners, seeking a review of the Board's determination on April 26, 1955, granting a variance under Section 7i for a term of fifteen years, to permit the premises located in a business use district to be occupied as a gasoline station and accessory uses; Cal. No. 815-53-BZ, Vol. II; Premises 2153-2159—8th Avenue, Borough of Manhattan.

* * * * *

On June 2, 1955, Copy of Petition and Order of Certiorari was served on the Board by Max M. Lome, attorney for Central Queens Allied Council, Inc., the Laurelton Civic Assn., Inc., objectors, et al, seeking a review of the Board's determination on April 26, 1955, granting change of occupancy to a salesroom under name "Merrick Mart" from a roller skating rink, office and parking of motor vehicles (previously granted by the Board); Cal. No. 144-50-BZ, Vol. III; premises 130-35 Merrick Boulevard, north side, 100 ft. west of Farmers Boulevard, 127-06 to 127-32 Farmers Boulevard, and 178-22 to 178-30 Eveleth Road, Springfield Gardens, Borough of Queens.

* * * * *

On June 7, 1955, Copy of Petition and Order of Certiorari was served on the Board by Leon Seinfeld, attorney for Celia Seinfeld, owner, seeking a review of the Board's denial of their appeal on May 24, 1955, from Borough Superintendent's decision on N.B. Application 1875-50, re proposed alteration of changing occupancy and also as to providing a legal yard; Cal. No. 66-55-A; Premises 224 Avenue N and 1494-1496 East 3rd Street, southwest corner (front and rear buildings), Borough of Brooklyn.

APPLICANT—Lama, Proskauer and Prober, for 899 Kent Corp., owner.

SUBJECT—Application April 15, 1955—(decision of the borough superintendent) under section 9A of the zoning resolution, to permit in the manufacturing and unrestricted use district portion of plot located in a residence retail, manufacturing and unrestricted use, 1/2 times height district, the erection and maintenance of a structure in excess of height permitted within two miles of an airport.

PREMISES AFFECTED—134-01 to 136-09 (135-01 official) Belknap street, southeast corner of 134th avenue; 132-16 to 132-30 Merrick boulevard and 179-79 to 180-05 137th avenue, Block 12999, Lot 44, Springfield, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama, Charles Henry Mann and Clayton Wilkie.

For Opposition: Dorothy Chervin, Dorothy L. Durham, Mary McMahon, Hazel McLarney, Agnes Wilson, Sophie Harrens, Sylvia Levy and Claud H. Durham.

MINUTES

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to June 21, 1955, at 10 A. M. for inspection if necessary and decision; hearing closed.

295-55-A

APPLICANT—Lama, Proskauer and Prober, for 899 Kent Corporation, owner.

SUBJECT—Application April 15, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—134-01 to 136-09 Belknap street (135-01 official) southeast corner of 134th avenue; 132-16 to 132-30 Merrick boulevard and 179-79 to 180-05 137th avenue, Block 12999, Lot 44, Springfield, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama, Charles Henry Mann and Clayton Wilkes.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 21, 1955, at 10 A. M. for inspection if necessary and decision; hearing closed.

305-55-BZ

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—(decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail business and unrestricted use district, the installation of eight, 550 gallon gasoline storage tanks under sub-cellar floor, and two dispensing pumps on cellar floor level, for sale of gasoline to patrons of the proposed parking garage.

PREMISES AFFECTED—10 Columbus Circle, west side, from West 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: William Lebwohl, Lionel K. Levy, William Wilson, J. Vermaelen, W. F. Kennedy and F. Kennedy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over from June 7, 1955, to June 14, 1955, at 10 A. M. for applicant to file additional objection, as to storage garage within twenty-five feet of a place of public assembly.

306-55-A

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—10 Columbus Circle, west side, from West 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: William Lebwohl, Lionel K. Levy, William Wilson, J. Vermaelen, W. F. Kennedy and F. Kennedy.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 14, 1955, at 10 A. M. for further consideration in connection with Cal. No. 305-55-BZ.

718-54-A

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application September 21, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—10 Columbus circle, 20 West 60th street, southwest corner and 325-335 West 58th street, northwest corner of Columbus Circle, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: William Lebwohl, Lionel K. Levy, William Wilson, J. Vermaelen, W. F. Kennedy and F. Kennedy.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn.

ert and Keating and Deputy Chief Connolly 4

Negative 0

816-54-BZ

APPLICANT—Burke, Green and Groh, for Eli Brody and Murry B. Brody, owners.

SUBJECT—Application October 29, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, F area district, the erection and maintenance of a one story and cellar structure, to be used for doctors' offices, using more than the area permitted, and without the required rear yard.

PREMISES AFFECTED—21-35 Bell boulevard, east side, 241.21 ft. north of 24th avenue, Block 5958, Lot 57, Bay-side, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn, without prejudice.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the premises and area were inspected by a Committee of the Board and the Committee recommended that the application be denied or withdrawn as there appeared to be no justifiable basis for a variance in view of the recent amendment permitting greater coverage for a building for this occupancy; and

WHEREAS, the applicant requests that the application be withdrawn in order to submit a new proposal.

Resolved, that the application be and it hereby is *with-
drawn*.

431-31-BZ—Vol. III

APPLICANT—Siegel and Green, for Land Properties, Inc., owner.

SUBJECT—Application March 17, 1955 (decision of the borough superintendent), under sections 21 and 19A(j) of the zoning resolution, to permit in a retail use, D area district, the erection and maintenance of a business building (supermarket), using more than the area permitted and with an entrance to required loading berth nearer the intersection than is permitted.

PREMISES AFFECTED—2902-2912 Avenue U and 2101-2113 East 29th street, southeast corner and 2901-2911 Gravesend Neck road, Block 7362, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Max Siegel.

For Opposition: Pearl Kleinberg, Ethel Ludmer, Gussie Roth and Freda Davidson.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on March 29, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Avenue U are in a retail use, D area, class 1 height district; East 29th street is in residence and retail use, D area, class 1 height districts; Gravesend Neck road is in residence, local retail and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 11, 1955 acting on N.B. Applic. 449-55, reads:

"1. Area of new Bldg. will exceed permissible area under sect. 14, Art. II of Zone Resolution.

2. Location of entrance to a req'd loading berth is less than 50'-0" from a street intersection and is contrary to sect. 19-A par. h-3 of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 110 ft. frontage by 71.52 ft. and 114.57 ft. in depth, irregular, presently used for patron parking for adjoining lot No. 6; that the site was changed from business to retail use on April 8, 1954; that it is proposed to erect a one story and cellar building of class 3 construction occupying the full area of the lot and to be used in its entirety as a supermarket; that it is also proposed to provide an interior loading berth on the street floor opening on East 29th Street; and

WHEREAS, the applicant further states that the subject premises is the greater part of a comparatively small irregular-shaped block formed by Avenue U, East 29th street, Gravesend Neck road and Nostrand avenue; that the remainder of this block, lot No. 6, is used for a diner with outdoor service on the open area of its lot; that modern supermarkets require large store areas for successful merchandising and the full area of the subject premises barely meets the recognized minimum area requirements, and in order to make this project practical and economically feasible, it is imperative that the full area of this lot be developed as proposed; that otherwise, no careful investor would undertake such a development, as a reasonable return on the investment could not be obtained; that the use of the subject premises for a supermarket exists as a matter of right under the zoning resolution; that the area district zoning limits the building area; that such area limitation as applied to this particular premises would tend to prohibit a reasonable and beneficial use of this property; that the general purpose and intent of the area district requirements for open spaces is to provide more light and ventilation for adjoining properties, and as applied to this particular lot it would not serve any such intended purpose; that the subject lot is bounded by three streets and its one interior lot line abuts the only remaining lot on this entire block; that this adjacent lot No. 6 is used for commercial purposes and likewise faces on three streets and no practical benefit could result to this adjacent property by strict compliance with the area district requirements for open spaces; that the proposed low height of the building being limited to one story would unquestionably provide better light and ventilation than any possible required open spaces on the lot itself; that in view of the aforesaid conditions the area zoning for this particular plot is unreasonable and oppressive and tends to destroy its real estate value, thereby causing unnecessary hardships and practical difficulties within the meaning of section 21 of the zoning resolution; and

WHEREAS, the applicant contends that Avenue U is the main shopping thoroughfare for this neighborhood and con-

sequently the building has been designed to have its main frontage on that street; that East 29th street and Gravesend Neck road are secondary streets and have little or no traffic and therefore the service facilities for this supermarket have been located on those streets; that due to the irregular shape of the subject lot and the necessity for having the supermarket shopping facilities face Avenue U, the only available lot area for the location of the required loading berth was here indicated on the plans facing East 29th street at a distance of 22 ft. from the corner intersection of East 29th street and Gravesend Neck road; that to locate this access at the required 50 ft. from the corner intersection would tend to destroy the usability of this lot for a supermarket; and

WHEREAS, the applicant states that the present owner has held title to the property since February 8, 1951 and that the assessed valuation of land is \$28,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and careful consideration has been given to the use and area proposed, particularly the location of the unloading space, which appears to be proposed in the best location for the purposes and the committee recommended that the application be granted under certain conditions as there would be no benefit to anyone in reducing the coverage; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to area and under Section 19A, subdivision j as to unloading space, to permit the coverage of the plot for the use as proposed and as indicated on plans filed with this application, marked "Received March 17, 1955", 5 sheets, and "April 27, 1955", 1 sheet, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

115-33-BZ—Vol. II

APPLICANT—Paul Friedman, for Julia McCarthy, owner, Esso Standard Oil Company, lessee.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under sections 7e, 7f and 7i of the zoning resolution, to permit in a residence and retail use district for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non-automatic), motor vehicle repairs and office, and the parking of cars awaiting service (previously denied by the Board under Section 21).

PREMISES AFFECTED—222-15 Merrick boulevard, northwest corner of 223rd street, Block 12961, Lot 10 (tentative), Laurelton, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman and Joseph B. Lynch.

For Opposition: Edward Sharf.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, for reconsideration under a different section of the zoning resolution; and

MINUTES

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, at request of attorney for objectors; applicant concurring; no further requests for adjournments; then to June 1, 1955, for inspection and decision; hearing closed; then to June 7, 1955, for consideration and decision by the Board; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 223rd street are in residence and retail use, D and D-1 area, class $\frac{1}{2}$ height districts; Merrick boulevard is in a retail use, D area, class $\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent, dated November 1, 1954 acting on N.B. Applic. 3960-54, reads:

"1. Proposed gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and parking of motor vehicles awaiting service partly in a retail use district and extending into a residence use district is contrary to Section 4-A and Section 3 of the Zoning Resolution.

Note: A portion of the premises was subject to an application before the Board of Standards & Appeals under Cal. #115-33-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 140.02 ft. frontage by 107.40 ft. in depth, irregular, presently vacant; that as of July 25, 1916 the retail portion of the premises was zoned business and the entire subject premises was in a D area, 1 times height district; that on January 21, 1947 the retail use and D-1 area designations became effective and on June 30, 1954 the height district was changed from class 1 to class $\frac{1}{2}$; that no petition is pending before the city planning commission to change the zoning designations affecting this plot; and

WHEREAS, the applicant contends that the instant application differs from the previously denied application in the following respects; that the previous application affected an interior plot located on the north side of Merrick boulevard 7.53 ft. west of 223rd street, having a frontage of 92.65 ft. on Merrick boulevard, 109.42 ft. along its westerly line and 100 ft. on its northerly line; that the instant application affects a corner plot located at the northwest corner of Merrick boulevard having a frontage of 140.02 ft. on Merrick boulevard and 107.40 ft. on 223rd street, irregular; that the previous application was brought under section 21 and the present one under sections 7f, 7i and 7e and consequently the burden of proof is different; that the prior application proposed a building 80 ft. by 25 ft., set forward 10 ft. from the rear lot line, to be used as a motor vehicle repair shop, auto laundry, office and grease pits, which would cover approximately 20% of the plot, whereas the present application proposed a 10% smaller building, 60 ft. 1 in. by 30 ft., which will cover approximately 12% of the area of the plot; that it is proposed to provide a 5 ft. 6 in. high face brick wall along the entire rear lot line, a 5 ft. 6 in. high fence wall (3 ft. 6 in. high wrought iron picket fence on a 20 in. high face brick wall) along the entire westerly lot line and a 4 ft. high fence wall (2 ft. high wrought iron picket fence on a 2 ft. high face brick wall) along the 223rd street frontage to within 25 ft. of the Merrick boulevard building line; that it is also proposed to provide a seeded and landscaped area on both sides and to the rear of the proposed building covering an area of approximately $\frac{1}{3}$ of the entire area; that the previous application proposed a flat roofed masonry building and the instant application proposes a colonial type peaked roofed building with face brick on the front and right sides; that one curb cut on 223rd street was previously proposed, located approximately 15 ft. from the rear lot line and it is now proposed to install one 20 ft. curb cut on 223rd street located 82.40 ft. from the rear lot line and within 25 ft. of the intersection of Merrick boulevard and 223rd street; that the former proposal requested a motor vehicle repair shop whereas a minor auto repair shop with hand tools only is now proposed; that 3 pumps set back 10 ft. from the Merrick boule-

vard building line and 2 additional pumps set back an additional 10 ft. were formerly whereas it is now proposed to install 2 low parkway type pumps on each of two pump islands which will be set back 15 ft. from Merrick boulevard and at least 50 ft. from 223rd street; and

WHEREAS, the applicant contends that there is no economic demand for the construction of retail stores at the subject premises as nearby stores adequately serve the needs of the neighborhood, nor is there any economic demand for development of the subject premises for residential purposes because the property is situated on a heavily trafficked street and because of the character of development of premises fronting on Merrick boulevard in the immediate neighborhood; that block 12959, lot 10 contains a gas station; block 12961, lot 18—funeral home; block 12962, lot 84—proposed gas sta.; block 12963, lot 308—automobile showroom and motor vehicle repair shop; block 13100, lots 26, 28, 31 and 34—lumber yard; lot 37—parking lot; lot 39—tavern; block 13103, lot 21—gas station, motor vehicle repair shop; block 13105, lots 33 and 41—automobile showroom, motor vehicle repair shop and gas station and parking lot for patrons' and employees' cars; that there is an economic demand for the use of the subject premises as a gas station because it is located on a heavily trafficked street; that a grant of this application would not adversely affect the neighborhood as the proposed use would be in conformity with the character of the uses established or proposed to be established within the area affected; that a grant of this application would improve the appearance of the neighborhood by the elimination of a weed covered lot which is unsightly by day and dangerously dark at night and it will benefit adjoining property owners on 223rd street by the installation of sidewalks and curbing thereby safeguarding pedestrian traffic; that the proposed structure will provide more light and ventilation to nearby property owners as it would occupy less area and bulk than conforming use structure which could theoretically be built at the subject premises; that the small portion of the premises (7.40 ft. by 100 ft. in area) which is located in the residence use district portion will be used only for grass and shrubs and for the proposed fence wall and no part thereof will be used for any other purpose whatsoever; and

WHEREAS, the applicant states that the owner has held title to lot 10 since December 29, 1949 and to lot 11 since March 14, 1950, and that the assessed valuation of land is \$16,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; this was laid over from last week; no implications can be assumed as to the reason the Board laid it over; the Board desired more time to consider the effects, if any, of the gasoline station to be constructed on the adjoining lot and to ascertain whether that is actually to be proceeded with, which it finds it is; the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e, f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e, f and i, for a term of fifteen years to permit the premises to be occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, November 16, 1954" (3 sheets) and "January 15, 1955" (one sheet) on condition that all buildings and uses shall be removed from the premises and the premises shall be levelled substantially to the grade of Merrick Boulevard and shall be constructed and arranged substantially as indicated on such plans showing proposed conditions above cited; that the accessory building shall be faced with face brick and shall be of a design and arrangement as indicated; that there shall be no cellar under such accessory building; and in all other respects the accessory building shall comply with the requirements of the Building Code; that the doors to the toilet rooms shall be arranged

MINUTES

so as not to be contiguous; that there shall be erected on the rear and side lot lines a masonry wall constructed of face brick and properly coped to a total height of not less than five feet six inches; that a similar wall shall be continued along the street building line of 223rd Street, with no openings therein; that within ten feet of the building line such wall may be reduced to a height of not less than four feet six inches; that pumps shall be erected facing Merrick Boulevard only and not nearer than fifteen feet to such building line and shall be of a low approved type; that storage tanks shall not exceed ten 550 gallon approved tanks; that planting shall be maintained with suitable planting in the areas as shown to the side and rear of the accessory building, properly protected with a concrete curbing where shown; that the planting shall also be continued along the side lot line wall to the east, where shown, with protective curbing; that where not occupied by the accessory building, walls, planting and pumps, the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to curb cuts to Merrick Boulevard only not exceeding three, each thirty feet in width, located where shown, with no part of any curb cut nearer than five feet to a lot line as prolonged; that at the intersection of Merrick Boulevard and 223rd Street there shall be erected a block of concrete extending along the side lot line and the street lot line for a distance of not less than five feet and such block of concrete shall be not less than twelve inches in height; that no portion of the premises within the residential use district shall be used as a part of the gasoline service station but may be retained as a portion of the plot provided it is planted as hereinbefore required; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the intersection of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to be erected parallel to 223rd Street and to extend beyond the street building line of Merrick Boulevard for a distance not to exceed four feet; that sidewalks and curbing abutting the premises shall be repaired or reconstructed to the satisfaction of the Borough President except that, if satisfactory to the borough superintendent, the portion as planned for sidewalks may be arranged with a pathway and with grass to the edge of the road until such time as curb and paved sidewalks are required or laid; that under Section 7i there may be minor repairing with hand tools only for adjustment, carried on within the accessory building; there may also be parking of cars awaiting service provided such cars are so parked as to not interfere with the servicing of the station; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

551-40-BZ—Vol. II

APPLICANT—Charles M. Spindler, for Howard McDonough, owner.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non-automatic), motor vehicle repairs, storage and sale of accessories and office, for a term of fifteen years (previously denied by the Board, for the parking and storage of motor vehicles).

PREMISES AFFECTED—367-377 Kings highway and 1750-1760 West 3rd street, northwest corner, Block 6653, Lots 27, 31 and 32, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: Nathan Ringel.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to May 17, 1955, at request of an objectant, applicant concurring; then to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Kings highway are in a business use, C area, class 1 height district; West 3rd street is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 18, 1954 acting on N.B. Applic. 1232-54, reads:

"1. The construction of a gasoline service station with auto washing (non-automatic), lubrication, minor repairs with hand tools only, office and sale of auto accessories in a business use district is contrary to the Zoning Res. Art. II Sect. 4(a) (29) (46)."

and

WHEREAS, the applicant states that the premises consist of a plot, 84 ft. 7 $\frac{5}{8}$ in. frontage by 101 ft. 1 $\frac{7}{8}$ in. in depth, irregular, presently vacant; that it is proposed to develop this site with a modern gasoline service station; that the proposed building will be faced with porcelain enamel of a type approved by the Board, on both street fronts; that pumps will be installed only on Kings highway and the one curb cut proposed on West 3rd street will be located near the intersection and will comply with section 7A of the zoning resolution; that the repairing herein proposed under section 7i will consist of minor repairs with hand tools only and will be confined to the interior of the building; that the plot will be fenced on all lot lines and an ornamental iron fence on a brick base will be provided along a portion of the West 3rd street building line; that a 10 ft. wide grass plot with shrubbery will be provided along the rear lot line across the entire width of the plot; and

WHEREAS, the applicant further states that the site consists of three tax lots; that lots 27 and 31, with a combined frontage on Kings highway of 84 ft. 7 $\frac{5}{8}$ in. have been owned by the present owner for more than 20 years, and lot 32 with a frontage of 21 ft. on Kings highway was taken over by the city for non-payment of taxes; that the owner has just purchased this lot from the city in order to increase the frontage of his site to provide easier ingress and egress for the service station herein proposed; that this vacant lot sandwiched in between an existing gas station and the plot under appeal, would not have been adaptable to a conforming use and the present proposal seems to be the only method whereby the city could obtain any tax revenue from this lot; that during the years since 1932, the owner has made repeated efforts to sell his property for stores or similar conforming uses, without success; that there are a number of vacant stores within the affected area and there is no demand for additional stores; that adjoining the site to the west is a gas station on lot 33 which takes up the balance of the block front on Kings highway; and

WHEREAS, the applicant further contends that the general area along Kings highway is on the down grade; that a number of buildings built with stores on the 1st floor now have factory occupancies in these stores; that two of the other corners of this intersection are vacant lots, with sheds and advertising billboards; that the 4th corner, diagonally opposite the site, contains a shop for the repair of speedometers, auto glass, etc.; that in view of the nature of the present development of Kings highway in this area, and the existing gas station abutting the subject property,

MINUTES

it is felt that the proposed development will not adversely affect the surrounding area, and it is therefore requested that this application be granted for a temporary term of 15 years; and

WHEREAS, the applicant states that the present owner has held title to the property since July 6, 1932 and that the assessed valuation of land is \$20,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7f and i for a term of ten years to permit the premises to be constructed and arranged for occupancy as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, March 16, 1955" (3 sheets) *on condition* that complete working drawings shall be submitted for further consideration by the Board; that such plans shall be filed within two months from the date of this resolution and after approval, the approved copy shall be filed with the Department of Housing and Buildings and all permits should be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution thereafter.

100-48-BZ—Vol. III

APPLICANT—Henry Nordheim, for John H. Bush, owner, Henry Bellmann, lessee.

SUBJECT—Application October 28, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business use district the maintenance of existing motor vehicle repair shop in store building (1878 Valentine avenue).

PREMISES AFFECTED—1933-1959 Webster avenue, 1876-1892 Valentine avenue and 350-360 East 178th street, south side, from Valentine to Webster avenues, Block 2815, Lot 1, Borough of The Bronx.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on November 23, 1954 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Webster avenue and East 178th street are in a business use, B area, class 1¼ height district; Valentine avenue is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 27, 1954 acting on Alt. Applic. 920-54, reads:

"1. Proposed motor vehicle repair shop in a Business Use District is contrary to Art. II, Section 4 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 297.79 ft. frontage by 132.07 ft. in depth, irregular, on which are located a gasoline service station, 33 metal garages, a lunch wagon, 7 stores, a one-story metal storage

building, a motor vehicle repair shop and the building in question; that it is proposed to permit the existing structure known as 1878 Valentine avenue to continue as a motor vehicle repair shop; and

WHEREAS, the applicant contends that the subject building is one of several located on this single lot and is known as 1878 Valentine avenue; that it was erected under N. B. Applic. 2359-24 as a store building and in certificate of occupancy No. 1375-24 it is listed as accessory building; that there is no record of how long it was so occupied but the present lessee rented it in 1935 for ignition work and motor repairs; that this type of occupancy has continued to this day and the same tenant has carried on the same business for 19 years; that on August 19, 1954 a violation was filed; that the fire department has issued a permit for such occupancy since 1935; that the building is small, being 36 ft. front, 45 ft. 6 in. on the north and 36 ft. 7 in. on the south in depth and can only accommodate at most three cars to be serviced; that the type of work done is ignition, motor adjustments and tune-up, transmissions repaired and brake relining; that there are no body or fender repairs, no painting or upholstering and no oxygen-acetylene torch used and therefore no noise is emitted from the building; that with the exception of the lunch wagon and the 7 stores fronting on Webster avenue, the rest of the 3-street block is occupied by automotive activities with gas station at its south end; that along Valentine avenue and along East 178th street, these fronts are entirely occupied by garages and gas stations; and

WHEREAS, the applicant states that the present owner has held title to the property since September 1, 1913; that the assessed valuation of land is \$115,000 and of the building \$25,000 making a total of \$140,000; that the building was erected in 1924; and

WHEREAS, the premises and area were previously inspected by a committee of the Board in connection with the repair shop on the same plot, but not in the same location, and the committee recommends that the application should be granted under certain condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7i for a term of five years to permit the use of the building as proposed and as indicated on plans filed with this application marked, "Received, October 28, 1954" (3 sheets) as a motor vehicle repair shop *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that entrance and exit for cars shall be solely from Valentine Avenue, through a curb cut opposite the entrance not exceeding fifteen feet in width; that there may be a door not over three foot six inches in width toward the rear to the yard of the plot for exit purposes only; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that there shall be no connection between this repair shop and the repair shop as permitted by the Board by resolution adopted December 11, 1951, expiring December 11, 1956, located at the northerly end of the block; and that all permits shall be obtained and all work completed within six months of the date of this resolution.

635-49-BZ

APPLICANT—Andrew DiCamillo, for Carmelo Sgarlato, owner.

SUBJECT—Application reopened May 10, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, for a term of years, the storage of fruit and two-truck garage.

THE RESOLUTION—

WHEREAS, on November 15, 1949 this application was granted by the Board on certain conditions, under section 7e of the zoning resolution, to permit in a residence use district, for a term of five years, to permit building to be occupied for the storage of bananas and the storage of trucks in connection with banana business; and

WHEREAS, on February 21, 1950, May 31, 1950 and December 12, 1950 the application was reopened and time extended to complete work; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation, on November 15, 1954; and

WHEREAS, this application was reopened on May 10, 1955 and set for hearing on June 7, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on June 7, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1955 acting on Alt. Applic. 2390-49, reads:

"1. Obtain extension of time from the Bd. of St. & Appeals."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 15, 1949, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7e for a term of five years from the date of this amended resolution to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within six months from the date of this amended resolution."

382-50-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Cono and Conetta Liguori, owners.

SUBJECT—Application reopened May 10, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the sale and display of more than five new and used cars, with signs on Atlantic avenue, Shepherd avenue and Highland place frontage and office, for a term of years.

PREMISES AFFECTED—3079-3101 Atlantic avenue and 236-246 Highland place, northwest corner and 225-237 Shepherd avenue, Block 3958, Lots 49, 51, 53 and 55, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on October 31, 1950 this application (Vol. I) was denied by the Board under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, storage, lockers and office, and to permit advertising signs affecting premises 3079-3101 Atlantic avenue and 236-246 Highland place, northwest corner, and 225-237 Shepherd avenue, Block 3958, Lots 49, 51, 53 and 55, Borough of Brooklyn; and

WHEREAS, on February 13, 1952 application was reopened as Vol. II subject to regular procedure, to consider new proposal; and

WHEREAS, on October 7, 1952 the Board granted application on condition under section 7e of the zoning resolution, for a term of one year, for the sale and display of new and used cars; and

WHEREAS, on November 13, 1952 copy of petition and order of certiorari was served on Board by attorney for objectors; and

WHEREAS, on August 2, 1953 Supreme Court, Kings County, sustained Board and certiorari was vacated; and

WHEREAS, on October 6, 1953 application was reopened and time to complete extended; and

WHEREAS, on March 4, 1954 application was reopened and term of variance extended for a term of one year; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation—expired March 4, 1955; and

WHEREAS, this application was reopened on May 10, 1955 and set for hearing on June 7, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on June 7, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated May 9, 1955 acting on Alt. Applic. 3031-51, reads:

"1. Proposed office, sales & display of more than five new and used cars in partly a retail use zone and partly a residence use zone is contrary to Art. II, Sec. 3 of the Zoning Resolution.

2. The signs now located in a retail district are contrary to Art. II Sec. 4-A of the Zoning Resolution.

3. Proposed frame structure used for business purposes is contrary to 4.2.1. of Administrative Code.

4. Proposed frame structure within the fire limits is contrary to 4.1.2 of the Administrative Code.

Note: These premises was the subject of a Board variance Cal. 139-52-A and Cal. 382-50-BZ which expired March 4, 1955."

and

WHEREAS, it appears that the zoning of the premises has been changed to retail business for a distance of one hundred feet northerly from Atlantic Avenue; that the balance of the premises is still in residential zoning.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 6, 1953, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7c for a term of five years only so far as it relates to the portion of the premises now in a residential zone, *on condition* that in all other respects the use shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within six months from the date of this resolution and a new Certificate of Occupancy shall be obtained."

APPLICANT—Andrew DiCamillo, for Joseph Coscia, owner (Nicholas Pellidaro, lessee).

SUBJECT—Application reopened May 10, 1955 for consideration as to extension of time to complete—re (decision of the borough superintendent) previously granted on condition under section 7i of the zoning resolution, permitting in a business use district (now retail use district), the change in occupancy from auto laundry, battery-testing and simonizing of cars, to auto laundry, motor vehicle repairs and paint shop.

PREMISES AFFECTED—8822 4th avenue, west side, 23 ft. 7½ in. north of 89th street and 377 89th street, Block 6062, Lot 41, Borough of Brooklyn.

APPEARANCES—

For Applicant: Andrew DiCamillo.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Time extended to complete the work and resolution of March 30, 1954 affirmed.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on March 30, 1954, this application was granted by the Board on certain conditions, under section 7i of the zoning resolution, to permit in a business use district, for a term of five years, the change in occupancy from auto laundry, battery testing and simonizing of cars, to auto laundry, motor vehicle repairs and paint shop; and

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on May 10, 1955 and set for hearing on June 7, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and to consider affirmance of the resolution adopted March 30, 1954, in view of the change in zoning; and

WHEREAS, a public hearing was held on this application on June 7, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated May 6, 1955, acting on Alt. Applic. 1775-55, reads:

"1. On a lot located in a retail district, the proposed change in occupancy from auto laundry and battery testing and simonizing of cars to auto laundry and auto body repair shop and paint shop is contrary to Article II, Section 4-A of the Zoning Resolution."

and

WHEREAS, the applicant contends that following approval by the Board, application was subsequently approved by the department of housing and buildings on June 29, 1954 and owner obtained permit to build on September 22, 1954; that due to a serious illness which required hospitalization, the owner did not proceed with the actual work until some time in October of 1954; that on October 15, 1954 the City planning commission changed the zone from business to retail; that on March 21, 1955 the department of housing and buildings revoked Alt. Applic. 2544-53 because of the change in zone and because the work had not been completed by September 30, 1954 according to the variance as granted by the Board; that the work is almost completed; that the owner has spent considerable money and now is notified that approved plans have been revoked.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on March 30, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"That all permits shall be obtained and all work completed within six months from the date of this

amended resolution and a new Certificate of Occupancy shall be obtained; and to affirm the resolution of the Board above cited in view of the change of zoning to retail use district."

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for applicant to file revised plans showing woodworking machinery on the first floor and for inspection and decision; hearing closed; then to May 24, 1955, for applicant to file revised plans showing additional means of exit and a sprinkler system throughout first floor and cellar; also to submit consent of adjoining owner for use of his premises as an exit; and for decision by the Board; then to June 7, 1955, for applicant to file revised plans as to sprinkler system; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; Rockaway avenue and Dumont avenue are in residence and local retail use, C area, class 1 height districts; and

WHEREAS, the decisions of the borough superintendent, dated March 8, 1954 acting on Alt. Applics. 4018-53, 4019-53 and 4020-53, read:

as to Alt. Applic. 4018-53 (618 Rockaway avenue):

"2. Proposed change of occupancy from store use to mfg. & storage of wood cabinets & a spraying booth, within a residential use district is contrary to Art. 2 Sect. 3 of the Zone Resolutions."

as to Alt. Applic. 4019-53 (620 Rockaway avenue):

"2. Proposed change in occupancy from store use to mfg. & storage of wood cabinets & spray booth within a residential district is contrary to Art. 2 Sect. 3 of the Zone Resolutions."

as to Alt. Applic. 4020-53 (622 Rockaway avenue):

"1. Proposed change of occupancy from store use, to mfg. & storage of wooden cabinets, within a residential district is contrary to Art. 2 Sect. 3 of the zone resolutions."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 100 ft. in depth; that the premises are now located in a residence use, C area, class 1 height district and as of July 25, 1916 the property was located in an unrestricted use district; that the present use designation became effective on July 31, 1947; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that the premises consist of a plot 60 ft. front on Rockaway avenue by 100 ft. in depth, com-

MINUTES

prised of 3 adjoining lots, each 20 ft. front by 100 ft. in depth, on which is presently located three attached 3-story buildings erected 1919 under N.B. Applic. 11759-19, of class 3 construction, each 20 ft. front (60 ft. in all) by 90 ft. in depth for the cellar and first floors and 52 ft. on the 2nd and 3rd floors; that the buildings were originally occupied independently by 3 retail stores and dwellings for one family on the 2nd and 3rd floors, in accordance with certificate of occupancy No. 8640 in June 17, 1921; and

WHEREAS, the applicant further states that the present owner has conducted his business as the Rockaway Cabinet company in the building located at 622 Rockaway avenue, block 3560, lot 38, manufacturing kitchen cabinets and wardrobe cabinets, since 1937 when the building was purchased by the company in the name of a sister; that officially, title to the three lots was taken by the present owner on February 20, 1953 (block 3670, lot 38) and February 4, 1953 (block 3670, lots 36 and 37); that however, it was the title to 618 and 620 Rockaway avenue that passed in 1953; that violation 2391-53 was issued July 16, 1953 affecting 618 Rockaway avenue, violation 2390-53 was issued July 16, 1953 affecting 620 Rockaway avenue and violation 2392-53 was issued July 16, 1953 affecting 622 Rockaway avenue; that the owner occupied part of the premises for 10 years prior to the change of zone and although no change in the certificate of occupancy was ever obtained, his occupancy at a time the zone was in an unrestricted use entitles him to continue such occupancy; that subsequent to the use district change in 1947, the owner obtained title and occupied the two adjoining parcels; that the premises are now occupied as follows: cellar—storage of wooden cabinets (wardrobe); 1st floor—manufacturing and storage of wooden cabinets and one spray booth, as per fire department rules and regulations at 618 Rockaway avenue; 2nd floor—office at 622 Rockaway avenue; dwelling, 620 Rockaway avenue; dwelling, 622 Rockaway avenue; 3rd floor—dwellings for 3 families; and

WHEREAS, the applicant contends that there is a total of only four male employees engaged in manufacturing in the three buildings, and 3 persons in the office on the 2nd floor of 622 Rockaway avenue; that it is not proposed to further alter the existing buildings or in any way change the occupancy or the number of occupants in the buildings, except that it is proposed to improve the exit and fire safety conditions; that since the adoption of the zoning resolution and until 1947, the premises and Rockaway avenue was in an unrestricted use; that the buildings on this block fronting on Rockaway avenue were erected at the same time in 1919, when in an unrestricted use district, so that the uses now existing have been permitted and in fact, since one of the subject buildings was occupied by the owner prior to the change in zone, it may now be legally continued; that also in this same block, all the uses are now non-conforming uses similarly established prior to the change of zone; that there is a stone yard occupying lots 26, 27, 28 and 29, a lumber yard on lot 42 and a junk storage yard with a parking lot, on lots 8 to 12, directly to the rear of the subject premises; that it is believed that the change in use district was occasioned by the erection of a 6-story multiple dwelling unit directly opposite the premises on block 3561; that however, the existing and proposed extension of non-conforming use in the subject premises will in no way effect the multiple dwelling unit since there will be no increase in noise or odor, and except for the use of small horsepower saws, the use consists principally of assembling wardrobe cabinets; that there can be no adverse effect on any neighbors to the rear since the entire rear lots are vacant, or on either side since the buildings are fully attached; that the owner, who has been established in the cabinet making business at 622 Rockaway avenue since 1937 and who has a legal non-conforming use, has only this means to accommodate the natural expansion of his business without moving to a different location with the resulting business hazards; and

WHEREAS, the applicant states that the present owner has held title to lots 36 and 37 since February 4, 1953 and to lot 38 since February 20, 1953; that the assessed valuation of land is \$15,000 and of the buildings \$30,000 making a

total of \$45,000; that the buildings were erected in 1919; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and it was requested that the applicant file revised plans, showing all machinery in use and a sprinkler system throughout street floor and cellar; and

WHEREAS, the Board found that this was an inappropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution to permit a wood-working establishment as proposed and office on the second floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten years, to permit the use of the first floor and cellar, of the three connected buildings, substantially as proposed and as indicated on plans filed with this application, marked "Received April 7, 1954", 9 sheets, as amended by revised plans marked "Received June 3, 1955", 2 sheets, *on condition* that no additional portion of the premises shall be used for the use herein permitted except on the first floor and in the cellar and the office on the second floor in conjunction with the street floor occupancy; that a wet sprinkler system of at least one source, complying with the requirements of the Code therefor shall be installed and maintained throughout the cellar and first floor, as indicated on such revised plans; that in all other respects the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board this day under Cal. No. 291-54-A; and that all permits required, including permit for spraying shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

291-54-A

APPLICANT—Leonard F. Rothkrug, for Joseph Cooper-smith, d/b/a Rockaway Cabinet Co., owner.

SUBJECT—Application April 7, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—618-622 Rockaway avenue, west side, 211 ft. 2 3/4 in. north of Dumont avenue, Block 3560, Lots 36, 37 and 38, Borough of Brooklyn.

APPEARANCES—

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decisions of the borough superintendent, dated March 8, 1954, on Alt. Appl. 4018 and 4019/53 reads:

"1. As 1st fl. can accommodate more than 5 persons. Sec. 270 of the Labor Law must be complied with for 1st fl. & cellar."

and

WHEREAS, the decision of the borough superintendent dated March 8, 1954, on Alt. App. 4020/53 reads:

"2. As 1st floor area can accommodate more than 5 persons Sect. 270 of the Labor Law must be complied with for all floors."

and

WHEREAS, the applicant states the premises consist of a lot 60 ft. front by 100 ft. in depth, upon which there exists three separate 3-story 35 ft. high Class 3 constructed buildings, 20 ft. front by 90 ft. in depth each on the 1st floor and 20 ft. by 52 ft. in depth on the typical floors, erected in 1917, in a residence use, C area, Class 1 height district, used and occupied since 1937: Cellar—storage of wooden cabinets; 1st floor—manufacturing wooden cabinets, 4 persons; 2nd floor—office and dwelling; 3rd floor—dwelling (2 dwelling units

MINUTES

in each of 618 and 620 Rockaway avenue and one dwelling unit in 622 Rockaway avenue); and

WHEREAS, the applicant states each building is provided with one 3 ft. wide wood stairs, enclosed in partitions of wood studs, lath and plaster, equipped with wood doors which are not self-closing; stairs lead direct to street and are provided with ladder and scuttle to roof; in addition there is a fire escape on the rear, extending to yard by ladder; and

WHEREAS, the applicant states these three attached 3-story buildings were erected under N.B. App. 11739/19, of Class 3 construction, each 20 feet front; that the buildings were originally used independently by three retail stores with dwelling for one family on each of the 2nd and 3rd floors, in accordance with Certificate of Occupancy 8640 issued June 17, 1921; and

WHEREAS, the applicant states the entire cellar area will be used for storage of wood cabinets and no manufacturing or packaging will be performed therein; that there are no employees working in the cellar area and it is not proposed to have any occupancy other than storage of cabinets that there is one interior stair from cellar to 3rd floor in each building, 3 feet wide, provided with ladder and scuttle from 3rd floor hall to the roof; that the cellar portion of each building will remain separated from the other cellars and it is not proposed to have any openings in the firewalls; and

WHEREAS, the applicant states it is proposed to fire-retard the cellar ceiling of each building with metal lath and $\frac{3}{4}$ " p.c. plaster; there is an exterior stair from rear of each cellar leading to an open 10 ft. rear yard without direct access to the street; that the lots in rear are all vacant and used as parking lot and junk yard, so that there is emergency egress to Chester avenue across these lots; that the stairs at rear of each building will have steel flush doors openable from the inside without lock and the key by a long lever with a 1.25 ratio; that it is proposed to protect the interior stair door openings in cellar with fireproof, self-closing $\frac{3}{4}$ hour firetest doors and enclose cellar stairs with 4 in. fireproof blocks; that there is one 7 ft. wide opening in each of the two firewalls separating the three buildings on the 1st floor which will be protected by a $1\frac{1}{2}$ hour automatic sliding door assembly on each side; that there is direct exit to street from the first floor of each of the buildings and in addition an exit at rear of each building to the yard; there is a multiple dwelling law type fire escape on 2nd and 3rd floors leading to roof of the first floor which will be provided with drop ladder to rear yard; that the buildings are occupied separately and apart from each other except for the first floor and on the first floor the horizontal openings will be protected as described above; that the 2nd floor of 622 Rockaway avenue is used and proposed to be used for offices in conjunction with the business conducted on the 1st floor with an occupancy of 3 persons; that all exit doors from the building will open outwardly; that although the objection raised by the Borough Superintendent refers to the number of employees it is believed that since the building will be occupied as a factory it must comply with Section 270 of the Labor Law regardless of the number of employees; and

WHEREAS, the applicant contends that in view of the foregoing, it is requested the Board grant this appeal; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decisions of the borough superintendent, acting on Alt. App. 4018, 4019 and 4020/53, Objections 1 and 2, and that the appeal be and it hereby is *granted on condition* that the first floor and cellar of the three buildings shall be maintained as indicated on revised plans cited in the resolution adopted by the Board this day under Cal. 290-54-BZ; and that all requirements of such resolution shall be complied with and the work as proposed shall be completed.

363-54-BZ

APPLICANT—Starke, Cook and Ryan, for Dahlgard
Buick Corp., owner.

SUBJECT—Application May 7, 1954 (decision of the borough superintendent), under sections 7f, 7i and 7A of the zoning resolution, to permit in a business use district the erection and maintenance of a building to be used by a franchised automobile dealer as a showroom, storage garage, lubritorium, car wash, motor vehicle repair shop, undercoating, front end alignment, new car conditioning, parts storage, sales and display of accessories and office; and to permit the storage of customers' cars awaiting service, with business entrances and a business sign nearer the residence use district than is permitted, and to permit the continuation of existing used car sales lot.

PREMISES AFFECTED—150-01 to 150-25 Northern boulevard, 35-21 to 35-31 150th street, northeast corner and 35-24 to 35-32 150th place, Block 5008, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Northern boulevard are in a business use, C area, class 1 height district; 150th street and 150th place are in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated April 12, 1954 acting on N.B. Applic. 4926-53 and superseded by N.B. Applic. 4926-53 dated March 24, 1955, reads:

"1. Proposed erection of a building and the use of the vacant portion of a lot in a Business Use District for a Showroom for Sales and Display of New & Used Cars, Motor Vehicle Repair Shop, Lube, Undercoat, Car Wash, Public Garage, Boiler, Parts Storage, Sales & Display, Lockers, Service, New Car conditioning, Offices, Used Car Lot, Parking of Customers Cars waiting to be serviced, Front end Alignment & Gas Pump for Owner's use only is contrary to Art. II Sec. 4 of the Zoning Resolution.

2. Proposed business entrances greater than 3 feet six inches, and show windows, within 75 ft. of an abutting Residence Use District is contrary to Art. II Sec. 7A of the Zoning Resolution.

3. Proposed sign within 75 ft. of an abutting Residence Use District is contrary to Art. II Sec. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 204.5 ft. frontage by 103.68 ft. in depth, irregular, on which is located a used car sales lot and office for which certificate of occupancy No. 2605-37 has been filed; that a portion of the property within 100 ft. of Northern boulevard is zoned for business and the remainder for residential purposes; that the designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to erect a one story class 3 structure, 89 ft. front by 100 ft. in depth, irregular to be used as a motor vehicle repair shop and servicing for more than five new and used cars, lubritorium, display and sale of parts, parts storage, sale and display of new and used cars, new car conditioning, offices, front end alignment, storage of customers' cars and cars awaiting service, public garage, used car lot, gasoline pump for owner's use only, undercoating, car wash and boiler room;

MINUTES

that the building, as proposed, will constitute a modern, up-to-date agency consisting of the latest equipment for repairing of cars; that there will be a carbon monoxide system for the elimination of all obnoxious gases and other facilities to make work safe and conducive to the most harmonious working conditions; and

WHEREAS, the applicant contends that the owner is now operating under great difficulties because of the necessity of having three widely scattered locations, that their showroom for new cars is at 141-50 Northern boulevard, Flushing, their service station is at 37-20 Prince street, Flushing and the used car lot is at 150th street and Northern boulevard, Flushing; that the distance between these locations has proven to be time consuming and costly in the operation of this automobile agency and it is the owner's desire to consolidate the sales and display of new and used cars, new and used car conditioning, the storage of new cars in one building and to retain the repair service station at 37-20 Prince street; that this would bring their operation to two locations and make it much more efficient and convenient for the public; that the servicing and parking of customers' cars constitutes a major part of the automobile business; that because of the handicaps under which the owner is now operating, 40% of requests for repair and service is being turned away because of lack of space to adequately handle the business and which fact is causing a practical hardship to the owner; that if this application is granted, the owner would gain 9,956 sq. ft. which, together with the 20,000 sq. ft. which he has at another location, would give him 29,956 sq. ft.; that this would barely meet the requirements of General Motors for this franchise which includes Flushing, Bayside, College Point, Malba, Whitestone, Little Neck and Douglaston; that the area of lot No. 1 is 20,793 sq. ft.; that the area of the proposed structure will be 9,956 sq. ft. with a land coverage of 48%, which is within the zoning resolution; that more than 50% of the property owners within the affected area have consented in writing, at the time of the writing of this appeal, to the erection of the proposed structure for the uses as stated; and

WHEREAS, the applicant states that the present owner has held title to the property since April 15, 1953; that the assessed valuation of land is \$47,000 and of the building \$2,500 making a total of \$49,500; that the building was erected in 1937; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition.

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of twenty years to permit a portion of the premises to be occupied as a showroom for the sale of cars substantially as proposed and as indicated on plans filed with this application marked, "Received, April 1, 1955" (2 sheets) and "April 6, 1955" (one sheet) and "May 23, 1955" (2 sheets) *on condition* that all uses on this portion of Lot 1 shall be removed and the plot shall be levelled substantially to the grade of Northern Boulevard and that the building shall be substantially as indicated on plans cited above and in all respects shall comply with all laws, rules and regulations applicable thereto; that there shall be no canopy, as proposed, beyond the building line; that the building shall not be increased in height or area beyond what is now proposed; that there shall be no windows opening on the rear lot line; that the boilerroom shall be separated from the balance of the building and enterable from the exterior only; that gasoline for the servicing of cars dealt in by the agency may be maintained within the building, with not over two 550 gallon approved storage tanks which may be installed on the easterly portion of lot 1 where the used car lot, as previously permitted by the Department of Housing and Buildings is

proposed to be continued, to be used in conjunction with the proposed building on the southerly portion of Lot 1; that signs shall be restricted to a permanent sign attached to the facade of the building, excluding all roof signs and temporary signs on the exterior of the building advertising the availability and sale of gasoline; that under Section 7A there may be a curb cut for entrance and exit from 150th Street and Northern Boulevard, as shown; that such curb cut shall not exceed 20 feet in width; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairs for cars dealt in by the agency for adjustments only; that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

275-55-A

APPLICANT—Starke, Cook and Ryan, for Dahlgard Buick Corp., owner.

SUBJECT—Application April 6, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—150-01 to 150-25 Northern boulevard and 35-21 to 35-31 150th street, northeast corner and 35-24 to 35-32 150th place, Block 5008, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Joseph W. Ryan, Carl H. Salminen and Thomas Dahlgard.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the applicant requested that the appeal be withdrawn in view of the conditions of the resolution adopted this date under Calendar No. 363-54-BZ, under which no canopy beyond the building line is permitted.

Resolved, that the appeal be and it hereby is *withdrawn*.

709-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Socony-Vacuum Oil Co., owner.

SUBJECT—Application September 13, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business use district the reconstruction of existing gasoline service station (previously granted by the Board under Cal. No. 510-27-BZ) and accessory building, to include lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and the addition of four 550 gallon gasoline storage tanks, and to permit the parking and storage of motor vehicles on unbuilt upon portion of lot.

PREMISES AFFECTED—65-14 to 65-28 (65-20 official) Cooper avenue and 77-02 to 77-14 Cypress Hills street, southwest corner, Block 3722, Lot 9, Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site and Cooper avenue are in a business use, C area, class 1 height district; Cypress Hills street is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated September 3, 1954 acting on N.B. Applic. 2934-54, reads:

"1. The reconstruction of an existing gasoline service station in a business use district and extension of use to include gasoline service station, lubritorium, minor auto repairs, ear washing, store utility room, parking of motor vehicles awaiting service is contrary to Art. II Sec. 4(a) of the Zoning Resolution and contrary to B.S.A. Cal. 510-27-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot having a frontage of 140 ft. on Cooper avenue, 100.26 ft. on Cypress Hills street, 135.02 ft. on the southerly lot line and 100 ft. on the westerly lot line; that the premises are presently developed with a gasoline service station consisting of four 550 gallon gas tanks, six dispensing pumps, a one story building of class 3 construction having a frontage of 24 ft. and a depth of 16 ft. used as a store, and one open lubrication lift; that this gas station was erected under N.B. No. 2162 of 1927 and a variance of the Board granted under Cal. No. 510-27-BZ; that certificate of occupancy No. 55858 was issued on June 16, 1937; that it is proposed to rehabilitate the existing gas station by removing the existing outmoded office building and erecting a new modern one story accessory building of class 3 construction having a frontage of 52 ft. 2 in., a depth of 27 ft. 8 in. and containing the conjunctive uses of lubritorium, minor auto repairs, car wash, store and utility room; that it is further proposed to remove that part of the 9 ft. masonry wall on the easterly side of the site and erect in its place a 6 in. high concrete curb with a 5 ft. high woven wire fence, relocate the gas pumps to 10 ft. in back of the building lines on Cooper avenue and 20 ft. in back of the building line on Cypress Hills street; that it is also proposed to reduce the size of curb cuts on both streets to the legal size and add four new 550 gallon gas tanks; that the open area will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the rehabilitation of the gas station and the removal of the present open lubrication lift will improve the appearance of the community and the reduction in size of the curb cuts will assure greater pedestrian safety; that the inclusion of a space on the site for parking and storage of motor vehicles will help alleviate the traffic problem in the area; and

WHEREAS, the applicant states that the present owner has held title to the property since April 1, 1938; that the assessed valuation of land is \$15,000 and of the building \$4,000 making a total of \$19,000; that the building was erected in 1928; and

WHEREAS, the premises and surrounding area have previously been inspected by a committee of the Board; and

WHEREAS, the Board granted the existing gasoline service station on this site under Cal. 510-27-BZ; and

WHEREAS, this application is accepted for consideration under Section 7c inasmuch as the variance was under Sections 7g and 21 without a stated term on July 17, 1928 as amended March 24, 1936; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c, h and i and Section 7A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the reconstruction and rearrangement of the existing gasoline service station, substantially as proposed and as indicated on plans filed with this application, marked "Received September 13, 1954", 6 sheets, *on condition* that all existing buildings

and uses shall be removed from the site and the premises shall be constructed and arranged as indicated on plans above cited; that the accessory building shall be of the design and arrangement indicated thereon and shall be faced with face brick on the street side; that the pumps shall be of a low approved type, erected not nearer than 15 feet to either street building line; that curb cuts permitted March 24, 1936 may be continued, under Section 7A, restricted to two existing cuts 40 feet in width to Cypress hills street and two to Cooper avenue, 40 ft. in width; that except where existing walls exist to the south, there shall be erected along the rear lot line a masonry wall not less than 5 ft. 6 ins. in height constructed of brick similar to that of the accessory building; that the balance of the premises where not occupied by accessory buildings and pumps shall be paved with concrete or asphaltic paving; that no portion of the premises shall remain unpaved; that under section 7i there may be minor repairing with hand tools only for minor adjustment, maintained solely within the accessory building; that under section 7h for a term of ten years, there may be the parking of motor vehicles awaiting service, provided same are parked so as not to interfere with the servicing of the station; that such portable fire-fighting appliances shall be maintained as the fire commissioner may direct; that there shall be no cellar under the accessory building and in all other respects the accessory building shall comply with the requirements of the Building Code; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof and temporary signs, but permitting the erection with'n the intersection of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that the sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; and that all permits required shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

710-54-A

APPLICANT—Lama, Proskauer and Prober, for Socony-Vacuum Oil Co., Inc., owner.

SUBJECT—Application September 13, 1954—filed pursuant to section 35, General City Law re erection of building in bed of mapped street—proposed widening of Cooper avenue and Cypress Hills street.

PREMISES AFFECTED—65-14 to 65-28 (65-20 official), Cooper avenue and 77-02 to 77-14 Cypress Hills street, southwest corner, Block 3722, Lot 9, Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated September 3, 1954, on 2934/54 reads:

"2. No construction permitted in the bed of mapped street without approval of the Bd. of Standards and Appeals. Chap. 35, Gen'l City Law."

and

WHEREAS, the applicant states the premises consist of a lot 140 ft. front by 100.26 feet in depth in a business use, C area, Class 1 height district, upon which there exists a one story 14 ft. high, Class 3 constructed building, 52 ft. front by 27 ft. 8 in. deep, erected in 1928 and used and occupied since as a gasoline service station, lubritorium, ear washing, minor auto repairs, store, parking and storage of

MINUTES

motor vehicles with an occupancy of 5 persons; and upon which it is proposed to erect a one-story building 14 ft. in height, 52 ft. front by 27 ft. 8 in. in area, of Class 3 construction, for use and occupancy as follows: gasoline service station, lubritorium, car washing, minor auto repairs, store, utility room, parking and storage of motor vehicles, 5 persons; and

WHEREAS, Certificate of Occupancy #55858 was issued June 16, 1937, on NB App. 2162/27 permits the use of the premises as office and gasoline selling station, pursuant to a decision of the Board under Cal. 510-27-BZ; and

WHEREAS, the applicant also states the building is one story, Class 3 construction, 24 ft. front by 16 ft. in depth and that there are installed on the premises four 550 gallon gasoline tanks, six approved type gasoline pumps and one open lubrication lift; and

WHEREAS, the applicant states the city proposes to widen the intersection of Cooper avenue and Cypress Hills street by creating a radius at the intersection; that this widening was adopted on January 17, 1946; that there are no proceedings pending to acquire title to the land required for this widening; that the strip of land will only be used to drive over and no improvements are contemplated thereon; and

WHEREAS, the applicant states no condemnation awards will be claimed for any new improvements that may take place within the proposed area of the widening.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 2934/54, Objection 2, be and it hereby is *modified* under the powers vested in the Board under Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the continuation of use of the portion of the premises at the intersection proposed for widening, *on condition* that no building shall be erected on such portion of the premises and that the requirements of the resolution adopted this day under Cal. 709-54-BZ shall be complied with; that in the event the portion of the premises shown is acquired by the City for street widening, no claim shall be made except for the value of the land itself as determined by the court.

817-54-BZ

APPLICANT—Burke, Green and Groh, for Carl Papa, owner.

SUBJECT—Application October 29, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a local retail use district the erection and maintenance of a gasoline service station, auto washing, lubritorium, motor vehicle repairs, storage and sales of accessories and office.

PREMISES AFFECTED—65-10 Maurice avenue, south-east corner of 51st road, Block 2375, Lot 144, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: Mrs. Matilda Boyle, Mrs. Margaret Reichel and Philip N. Weinberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Not Voting: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; then to June 7, 1955, for further consideration by the Board; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a local retail use, C and D area, class 1 and class 1½ height district; Maurice avenue is in residence and manufacturing use, C and D area, class 1 and class 1½ height districts; 51st road is in residence

and local retail use, C and D area, class 1 and class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 8, 1954 acting on N.B. Applic. 3377-54, reads:

"1. Proposed gasoline service station, auto washing, lubrication, office & accessory sales & minor repairs with hand tools only located in a local retail use district is contrary to Art. II Sec. 4C of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 138.07 ft. frontage by 100 ft. in depth, irregular, presently vacant; that the property referred to is presently zoned as a local retail district; that the portion of the property within 100 ft. of Maurice avenue is in a class 1 and ½ and C districts and the remainder is zoned as a class 1 and D districts; that as of July 25, 1916 the portion of the property in question within 100 ft. of Maurice avenue was in a business district and the remainder was zoned residence; that on October 28, 1926 all of the property was placed in a business district and on March 25, 1954 the present local retail district became effective; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to develop the site with a parkway type of gasoline service station; that the proposed building will have a peaked roof and a face brick faeade; that pumps will be located only along the Maurice avenue frontage and will be set 15 ft. back of the building line; that fencing will be provided along both of the interior lot lines; and

WHEREAS, the applicant contends that the site is located on the side of a hill; that because of the grade condition large sloping areas are proposed on both sides of the building as well as behind the building; that this slope will be a grass plot with large areas of shrubbery and planting, protected by concrete curbing; that the grade condition is such that the building will be entirely below the level of the land to the east, concealed by a sloping hillside; that the balance of the block front along 51st road and extending along the entire east lot line of the site is under the same ownership as the site; that the repairing herein proposed will consist of minor repairs and adjustments, using hand tools only, and will be confined to the interior of the building; that in view of the heavily trafficked road and the immediate surrounding area, this site appears to be conducive to a gas station and it is urgently requested that the Board look favorably upon this application; and

WHEREAS, the applicant states that the present owner has held title to the property since September 16, 1954 and that the assessed valuation of land is \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted the grading of this property and that of adjoining lot on 62nd street, the cemetery opposite and gave consideration to the fact that up to the subject lot along Maurice avenue, the area is zoned for manufacturing use and that there is little likelihood of the subject site being used for local retail use, and the committee recommended therefore that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten (10) years, to permit the premises to be occupied as a gasoline service station, substantially as proposed and as indicated on plans filed with this application marked "Received October 29, 1954", 3 sheets, *on condition* that complete working drawings shall be submitted to the Board showing grades and retaining walls, where necessary; that such working drawings shall be submitted to the Board for consideration within two months from the date of this resolution and after approval thereof, such plans shall be filed with the borough superintendent; and that all permits re-

MINUTES

quired shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

871-54-BZ

APPLICANT—Carl H. Salminen, for Lawrence Lundgren and Richard Russon, owners.

SUBJECT—Application November 18, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a retail use district the erection and maintenance of a structure on existing service station and motor vehicle repair shop, to be used as an automobile inspection agency.

PREMISES AFFECTED—150-47 14th avenue, north side, 100 ft. west of Clintonville street, Block 4518, Lots 41 and 43, Whitestone, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen and Lawrence Lundgren.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 14th avenue are in a retail use, D area, class 1 height district; Clintonville street is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 15, 1954 acting on N.B. Applic. 3956-54, reads:

"1. The erection of a building to be used for Automobile Inspection and Minor Automobile Repairs (Hand Tools Only) in a Retail Use District is contrary to Art. II Sec. 4-A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 81 ft. frontage by 150 ft. in depth, on which is located a one story masonry and frame structure used as a gas station, office and store room and another structure which is a one story frame with metal siding used as a motor vehicle repair shop, both constructed in 1929 under N.B. Applic. No. 3309-29 and covered by certificate of occupancy No. 44943; that the present owners applied for a new certificate of occupancy under Alt. No. 669-54 to cover the present uses, No. Q-89216; that it is proposed to erect a one story masonry class 3 structure to be used for motor vehicle inspections and minor automobile repairing such as brake work, lights, steering, wheel alignment, glass work, windshield wiper and horn inspections which will be required under a new State law to become effective September 1, 1955; and

WHEREAS, the applicant states that the premises is zoned as retail D use district and class 1 height district; that this area was changed from unrestricted to business on April 16, 1938 and changed from business to retail on March 30, 1940; that no changes are pending in the City planning commission at present; that the total area of the lot is 12,150 sq. ft.; that the two existing buildings cover an area of 1,712.5 sq. ft. and the new proposed building will cover 2,604 sq. ft.; that the total area of the buildings will be 4,316.5 sq. ft. or 35½% of the total area of the lot, which is within the area coverage permitted by the zoning resolution; and

WHEREAS, the applicant contends that this variance is requested because the property in question has been continuously used as a gas station and repair shop since 1929 and the owners have the available area to erect the proposed structure for automobile inspections; that the existing grease

pits will be filled in; that traffic would enter the new structure at the east side of the property, egress from the building at the northeast corner, then flow west along the north property line, making an ideal set-up for the new inspection service; and

WHEREAS, the applicant states that the present owner has held title to the property since June 29, 1953; that the assessed valuation of land is \$6,000 and of the building \$4,300 making a total of \$10,300; that the building was erected in 1929; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition to permit the additional building on the plot; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit the additional building on the plot substantially as proposed and as indicated on plans filed with this application marked, "Received, November 18, 1954" (7 sheets) on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building, as proposed, may be for minor repairs with hand tools; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

933-54-BZ

APPLICANT—James E. Casale, for Harry Schwimmer, owner.

SUBJECT—Application November 29, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use, B area district, the conversion of use of first and second floors in existing five story structure to business use, and to permit openings between the two structures on first and second floors to gain access from one building to the other; and to permit a two-story extension at rear of five story structure, using more than the area permitted and without the required rear yard at curb level; all to be used by the engineering firm presently located in three story structure.

PREMISES AFFECTED—146 East 39th street, south side, 175 ft. west of 3rd avenue, Block 894, Lot 55, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; East 39th street is in residence, retail and business use, B area, class 1½ height districts; 3rd avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1954 acting on Alt. Applic. 1781-54, reads:

MINUTES

"A1. The conversion of present apts. on the 1st and 2nd stories to business use (offices) is prohibited in a Residence district by Article II, Section 3 of Zoning Resolution.

A2. The area of proposed new extension on the 1st and 2nd stories exceeds area permitted by Art. IV, Sections 12-(b) and 19-(e) of Zoning Resolution.

A3. Required yard for a multiple dwelling in a Residence district must start at or below curb level. (Sec. 17 Zone Resol.)."

and

WHEREAS, the decision of the borough superintendent, dated April 8, 1955 acting on Alt. Applic. 512-55, reads:

"1. Proposal to create openings between subject structure and adjacent structure (146 E. 39 St.) constitutes extension of a non-conforming use and is contrary to Art. II Sect. 6(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 90 ft. in depth, irregular, on which are located two buildings, a three story building 25 ft. front by 98 ft. 9 in. in depth, used as office and residence, and a five story building 25 ft. front by 53 ft. in depth, used as a class B multiple dwelling; that it is proposed to convert the 1st and 2nd stories of class B multiple dwelling (5 stories) to business use for engineering firm in adjoining three story building; that it is further proposed to erect a two story extension at rear of 5 story structure and to permit openings on 1st and 2nd floors as means of access from one building to the other; and

WHEREAS, the applicant further states that at present the 5 story building is under a conditional sales contract depending upon the decision rendered by the Board; that the prospective buyer is an engineering firm presently located in the building adjoining the subject premises on the west, 144 East 39th street, of which they are the owners; that the engineering firm propose to use the 1st and 2nd floors of the subject premises as additional quarters for their clerical and reference facilities and they propose to add a 30 ft. extension at the rear of the building, to be two stories in height; that to gain access from one building to the other, two openings will be installed in the party wall, one at the front and the other in the rear; that these openings will be protected with 3 hour sliding fireproof doors; and

WHEREAS, the applicant contends that the six apartments on the upper three floors will remain and their present means of egress will not be disturbed with exception of the rear fire escape landing, which now terminates at the yard by means of a drop ladder from the 2nd story balcony; that from thence egress is afforded through an existing gate in the fence at the rear lot line to the yard of the adjoining premises, at the rear, extending to 38th street; that the alteration as proposed will make it necessary to walk across the roof of the new extension at the 3rd floor level; that this roof will be of fireproof construction; that at the rear of this roof a legal fire escape balcony will be installed and also at the 2nd floor level from this balcony, a drop ladder will terminate at the yard level; that no changes are to be made to the front of the building, thereby maintaining the residential character of the premises; that the entire building will be made to conform in all respects with the rules and regulations of the administrative code and the multiple dwelling law; that upon completion of the alterations, a new certificate of occupancy will be obtained; that the premises at 144 East 39th street has been occupied as drafting rooms, offices and residence since September 12, 1940 as indicated on certificate of occupancy No. 26592, but the existence of such use is not apparent from the street; that the engineering firm has increased its staff but up to this time has not been able to increase its facilities, thereby creating crowded conditions which greatly lowers the efficiency and production of their operations; and

WHEREAS, the applicant states that the present owner has held title to 144 East 39th street since May 22, 1938 and to 146 East 39th street since March 1944; that the assessed valuation of land is \$70,000 and of the buildings \$20,000

making a total of \$90,000; that the buildings were erected in 1870 and 1885; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten years, to permit the extension of use of the building on lot 55 from adjoining building now occupied by the applicant, and under Section 21, to permit the extension of the building at the rear and the reduction of the rear yard, substantially as proposed and as indicated on plans filed with this application, marked "Received November 29, 1954", 9 sheets, and "May 2, 1955", 1 sheet, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 2A of the Zoning Resolution.

934-54-A

APPLICANT—James E. Casale, for Harry Schwimmer, owner.

SUBJECT—Application November 29, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 212(lc) of the Multiple Dwelling re required yard level.

PREMISES AFFECTED—146 East 39th street, south side, 175 ft. west of 3rd avenue, Block 894, Lot 55, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated November 5, 1954, on amendment to Alt. App. 1781/54, reads:

"A-4. Reconsideration denied—objection repeated. Required yard for a multiple dwelling must start at level of 2d tier of beams or at the level of 14 ft. above the curb level, whichever is lower. (Sec. 212, subd. 1-c. M. D. Law.)"

and

WHEREAS, the applicant states that the building is 5 stories, 49 ft. 8 in. in height, 25 ft. front by 53 ft. in area at street level and same at typical floor level, erected in 1870 on a lot 25 ft. front by 90 ft. in depth, in a residence use, B area, Class 1½ height district; used and occupied since 1909: cellar-boilerroom and storage; 1st to 5th floors, 2 families each floor; that the building is proposed to be increased in area to 25 ft. front by 80 ft. in depth at street level in Class 3 construction, used and occupied upon completion as follows: cellar-boilerroom and storage; 1st floor—offices; 2nd floor offices; 3d, 4th and 5th floors—two families each floor; that the building is provided with one 2 ft. 8 in. wide interior wood stairs, enclosed in partitions of wood studs, fire-retarded both sides, equipped with fireproof, self-closing doors and leading from roof bulkhead direct to street and two fire escapes, one front and one rear;

MINUTES

fire escapes extend to roof by stair and to street and yard by ladder; egress from rear fire escape is through existing gate at rear to adjoining court; window and door openings on course of fire escapes will be made fireproof, self-closing; and

WHEREAS, the applicant states it is proposed to use the 1st and 2nd floors as additional quarters for an engineering firm for their clerical and reference facilities and to add a 30 ft. extension at rear, two stories in height; that the proposed occupant is located in the adjoining building at 144 East 39th street, of which the proposed occupant is the owner; that to gain access from building in question to 144 East 39th street it is proposed to install two openings in the party wall, one at front and one at rear, both to be protected with 3-hour sliding fire proof doors; and

WHEREAS, the applicant contends that the six apartments on the upper three floors will remain and their present means of egress not disturbed except for the rear fire escape landing which now terminates at the yard by means of a drop ladder from 2d story balcony from whence egress is had through an existing gate in fence at rear lot line to yard of adjoining premises at rear and thence to 38th street; and

WHEREAS, the applicant states it is proposed to provide egress to cross the roof of new extension at 3d floor level; that this roof will be fireproof and from the rear a legal fire escape balcony will be installed and also at 2d floor level with egress therefrom by drop ladder terminating at yard level; and

WHEREAS, the premises were inspected by a committee of the Board; and the committee recommended that the appeal be granted as the increase in height of the rear extension and the rear yard conditions will affect no one adversely.

Resolved, that the decision of the borough superintendent, acting on amendment to Alt. App. 1781/54, Objection A-4, be and it hereby is *modified*, under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted* to permit the rear yard to start above the level of the second floor tier of beams, as proposed and as indicated on plans filed with Cal. 933-54-BZ, resolution as to which was adopted by the Board this day, *on condition* that in all other respects the requirements of the Multiple Dwelling Law and all other laws applicable to the residential occupancy shall be complied with, other than as modified by the Board this day under Cal. 933-54-BZ.

996-54-BZ

APPLICANT—Albert E. Deer, for Esso Standard Oil Co., owner.

SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7A of the zoning resolution, to permit in a retail use district the reconstruction of existing gasoline service station to include lubritorium, auto laundry, motor vehicle repairs and office, and the parking of motor vehicles waiting to be serviced, with a curb cut nearer the residence use district than is permitted.

PREMISES AFFECTED—6737-6745 4th avenue, southeast corner of Senator street, Block 5855, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 4th avenue are in a retail use, C area, class 1¼ height district; Senator street is in residence and retail use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 29, 1954 acting on N.B. Applic. 1611-54, reads:

"1. The proposed reconstruction of an existing gasoline service station, lubritorium and auto laundry and the additional uses of minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service in a retail use district is contrary to Art. II Section 4A of the Zoning Resolution.

2. The location of part of a curb cut within a distance of 75 feet from a residence use district wherein a use district other than residence use extends along a street or part of a street and the abutting property is in a residence use district is contrary to Section 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 82 ft. 4 in. frontage by 100 ft. in depth, irregular, on which is located a gasoline service station on which are located two structures 80 ft. 6¾ in. by 20 ft. and 60 ft. by 26 ft., one story, each of class 3 construction, which are to be demolished; that certificate of occupancy No. 110974-44 has been filed for gasoline service station, lubritorium, auto laundry, 5-car garage, auto showroom and store; that it is proposed to demolish the existing buildings and permit the erection and maintenance of new accessory building at existing gasoline service station and to include the additional uses of minor auto repairing with hand tools only, the parking of motor vehicles awaiting service and the location of part of a curb cut on Senator street within 75 ft. from a residence use district; and

WHEREAS, the applicant further states that the owner purchased this "going gasoline station" on May 10, 1945; that certificate of occupancy No. 110974 shows that the gas station was established prior to effective zoning on June 15, 1925 for this use in a business district; that the zoning maps adopted July 25, 1916 show that the plot is in a business use district, class 1¼ height and C area, the business use extending for a depth of 100 ft. along Senator street and being parallel with 4th avenue; that on October 15, 1954 the planning commission changed the business zone to retail use for a depth of 100 ft. and parallel with 4th avenue; and that present zoning shows the plot within a retail use district abutting residence use; that there have been no changes in class height or area; and

WHEREAS, the applicant contends that the gas station use was established in 1924 under N.B. Applic. 7115-24 and N.B. permit No. 3272-24; that certificate of occupancy No. 27040 was issued for this use and the metes and bounds indicated were 82.4 ft. on 4th avenue and 100 ft. on Senator street and therefore there will be no increase in the square area or metes and bounds in the present application; that Alt. Applic. No. 1679-44 was approved on August 24, 1944 for a new certificate of occupancy and certificate of occupancy No. 110974 was issued; that this certificate permits a gas station, lubritorium, auto laundry, office, five car garage, auto showroom and store; that curb cut permit No. 6870 was issued for two cuts on 4th avenue of 10 ft. 6 in. and 39 ft. 6 in; that Permit No. A-22709 was issued by the office of the borough president on October 2, 1919 to cut 30 ft. of curb at 6735 4th avenue and Permit No. A-14230 was issued on June 29, 1931 to lower one 12 ft. and one 27 ft. curb at the southeast corner of 4th avenue and Senator street; that in the present application it is proposed to rearrange the permitted curb cuts so that there will be two 30 ft. cuts on 4th avenue and one 30 ft. cut on Senator street and on portions of the present cuts the curb will be restored; that there will be no contravention of section 21-A inasmuch as the entrances to, or exits from Bay Ridge high school are not on the same streets between the same intersecting streets and in no case within 200 ft. of the entrance to or exit from the gas station; that under section 7A, wherein part of the curb cut as proposed on Senator street

MINUTES

is within 75 ft. from the residence use district, a variance is requested inasmuch as the presently permitted curb cut on this street of 57 ft. 6 in. was issued prior to the effective date of this section and same will be reduced to a cut of 30 ft. so located that no portion of same will be within 5 ft. of the 4th avenue lot line as extended; that under section 7c of the zoning resolution, it is submitted that the legal non-conforming use was established prior to June 15, 1925 and the proposed application is for a rebuild or reconstruction; that section 7i is requested for required minor repairs and adjustments which are necessary and essential to a modern servicenter; that fire department records indicate plan No. 247-18 was approved July 25, 1919 for one 550 gallon gasoline tanks and that plan under folder No. 44585 was approved for six 550 gallon gasoline tanks, metes and bounds given being 62 ft. on 4th avenue and 80 ft. on Senator street; that the gas station has been in continuous operation since 1924; that existing conditions show the station and auto showroom as hereinbefore permitted; that proposed conditions provide for the demolition of all of the present buildings, the removal of the present gas pumps and pump islands located within 10 ft. of the lot lines, the rearranging of the curb cuts, the relocation of the present brand sign and the levelling of the plot substantially to the grade of the two streets; that it is also proposed to install four additional 550 gallon gas tanks for a total of 10, one 550 gallon fuel oil tank together with an approved type ceiling suspended furnace for heating purposes and one 550 gallon waste oil tank; that it is also proposed to install four low type gas pumps set back 12 ft. from the lot line of 4th avenue, to erect a masonry wall 5 ft. 6 in. high along the interior lot lines, also a fence wall with masonry 2 ft. high and wrought iron pickets 2 ft. high for a total height of 4 ft. for a distance of 20 ft. along Senator street with a return of about 16 ft. along the easterly lot line between the proposed building and the street line; that it is also proposed to repair the sidewalks, to erect a new one story accessory building 61 ft. by 30 ft. to be used for lubrication, car washing, minor repairs and adjustments, rest rooms, combination heater and storage room and sales and display office; that the building will be finished with porcelain enamel on the two street fronts; that under Cal. No. 7-51-BZ the Board granted a variance in block 5851, lot 1 for stores and patron parking extending into the residence use district and under Cal. No. 766-48-BZ a variance was granted under section 7c to the Cities Service oil company for reconstruction of the gas station located at the northeast corner of 4th avenue and 68th street, lot 1 in block 5855; that this station is within the same block as the subject site and the new building is finished with porcelain enamel on the two street fronts; that competitive demands require the rebuilding and modernization of this outlet and it is requested that the Board grant a favorable decision; and

WHEREAS, the applicant states that the present owner has held title to the property since May 10, 1945; that the assessed valuation of land is \$45,000 and of the building \$6,000 making a total of \$51,000; that the building was erected in 1924; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition; it is noted that particularly along Senator Street there is, at the present time, an existing curb cut of sixty feet which is proposed to be reduced to thirty feet, and together with wall which the resolution will require along the building line for a certain distance, protection to the owners on Senator street should be materially improved; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit the lawfully existing gasoline service station to be reconstructed and rearranged substantially as proposed and as indicated on

plans filed with this application marked, "Received, December 30, 1954" (one sheet) and "May 10, 1955" (3 sheets) and "June 3, 1955" (2 sheets) on condition that all buildings and uses now on the premises shall be removed and the premises shall be reconstructed and rearranged as indicated on such plans above cited; that the accessory building shall be arranged and of a design as indicated, without cellar underneath and complying in all other respects with the requirements of the Building Code; that the accessory building shall be faced with face brick on all sides; that any openings in the wall facing adjoining premises shall be filled with glass blocks as approved for exterior walls; that the toilet rooms shall be arranged as indicated on such plans marked, "Received, June 3, 1955"; that there shall be on the southerly lot line from Fourth Avenue to the rear lot line, and from the rear lot line to the accessory building, from the accessory building to the building line of Senator Street and running on Senator Street for a distance of approximately forty feet a masonry brick wall to a total height of not less than five feet six inches, except that such wall may be reduced to a height of not less than four feet six inches within five feet of the street building line of Fourth Avenue and along the building line of Senator Street; that suitable terminating posts shall be maintained at the termination of such wall; that pumps shall be erected not nearer than fifteen feet to the street building line of Fourth Avenue and shall be of a low approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to two curb cuts to Fourth Avenue each not over thirty feet in width and one curb cut to Senator Street not over thirty feet in width; that such curb cuts as herein permitted are permitted under Section 7A; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that at the intersection there shall be erected a block of concrete not less than twelve inches in height and extending for a distance of not less than five feet along either building line; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of one post standard at the intersection for supporting the sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that under Section 7i there may also be within the accessory building minor repairs with hand tools only for adjustment; that such portable firefighting appliances shall be maintained as the Fire Commissioner shall direct; that parking of motor vehicles awaiting service may be permitted provided that such motor vehicles are parked so as not to interfere with the servicing of the station; that heating may be by means of an approved ceiling type heating unit; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall require; that all permits shall be obtained and all work completed with the requirements of Section 22A of the Zoning Resolution and that a new certificate of occupancy shall be obtained.

997-54-BZ

APPLICANT—Irving H. Passel, for Thomas Nolan, owner, Esso Standard Oil Company, Owner under Contract.

SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non-automatic), motor vehicle repairs, and to permit the parking of motor vehicles awaiting service, for a term of fifteen years.

PREMISES AFFECTED—24 Nelson avenue, southwest corner of Giffords Glen, Block 5429, Lot 31, Great Kills. Borough of Richmond.

ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Giffords Glen are in a retail use, D area, class 1 height district; Nelson avenue is in retail and business-1 use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 28, 1954 acting on N.B. Applic. 1019-54, reads:

"1. Proposed erection of a gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service in a retail use district is contrary to Art. II Section 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 104.55 ft. frontage by 115.09 ft. in depth, irregular presently vacant; that it is proposed to erect a gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service; and

WHEREAS, the applicant contends that the site is located on an important transverse traffic artery running southerly from the Great Kills station of the Staten Island Rapid Transit to a point easterly of Hylan boulevard; that the neighborhood is substantially built up with stores and small factories and there is considerable vehicular traffic including parking in connection with the railroad station for commutation to Manhattan, etc.; that with the exception of one small gas station location at 3948 Amboy road, southwest corner of Brown avenue and which station will be greatly reduced in area in the proposed street widening of Amboy road, the particular neighborhood is barren of modern servicenters; that there is a definite need for a modern "one-stop" servicenter in this part of Great Kills; that the effect on adjoining owners is minimized in view of the fact that to the north there exists the embankment of the Staten Island Railway and to the south, the parking areas for the loan association and the food market, both located on Amboy road with block 5429; and

WHEREAS, the applicant states that the present owner has held title to the property since December 15, 1928 and that the assessed valuation of land is \$4,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition;

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, December 30, 1954" (4 sheets) *on condition* that all buildings and uses on the premises shall be removed and the premises shall be constructed and arranged as indicated on such plans; that the accessory building shall be of a

design and arrangement as indicated except that the toilets shall be arranged so as not to have the doors contiguous; that there shall be no cellar under the accessory building; that the accessory building shall be of face brick on the sides facing the street, that the rear and side wall may be of common brick, painted; that pumps shall be erected not nearer than fifteen feet to the street building line and shall be of a low approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cut shall be restricted to two curb cuts to Nelson Avenue each thirty feet in width, located where shown, and two of similar width to Giffords Glen; that the balance of the premises where not otherwise occupied shall be paved with concrete or asphaltic pavement; that there shall be no openings in the accessory building facing the adjoining premises on lot 27; that on the interior lot line to the south there shall be a retaining wall and a fence of the woven wire chain link type to a total height of not less than five feet six inches above the finished grade of the gasoline service station; that such fence shall have suitable terminating posts; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting the erection within the intersection of a post standard for the supporting of a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that at the intersection there shall be erected a block of concrete not less than twelve inches in height and extending for a distance of not less than five feet along either street building line; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be repairing of motor vehicles for adjustment only with hand tools maintained solely within the accessory building; that under 7h for a similar term there may be parking of motor vehicles awaiting service provided that such cars are parked so as not to interfere with the servicing of the station; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

998-54-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7A of the zoning resolution, to permit in a business use district the reconstruction of existing gasoline service station to include lubritorium, car washing (non-automatic), motor vehicle repairs and office and to permit the parking of motor vehicles awaiting service, with a curb cut nearer the residence use district than is permitted.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to June 7, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Broadway are in a business

MINUTES

use, B area, class 1½ height district; West 218th street is in residence and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 29, 1954 acting on Alt. Applic. 10-54, reads:

"1. Proposed change in present gasoline station, lubricatorium and display of not more than five (5) motor vehicles to create "Gasoline service station, lubricatorium, car washing (non-automatic), minor auto repair shop with hand tools only and parking of motor vehicles awaiting service" in a business use district constitutes an extension of present non-conforming use and is contrary to Article II section 4a of the Zoning Resolution.

2. The location of part of a curb cut within a distance of 75 ft. from a residence use district wherein a use district other than residence use extends along a street or part of a street and the abutting property is in a residence use district is contrary to Section 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 103 ft. 7½ in. frontage by 65 ft. 10½ in. in depth, irregular, on which is located a 14 ft. by 14 ft. masonry building erected in 1924 and which is being used as office and rest rooms; that there are six 550 gallon gas tanks together with two dual, low type dispensing pumps, two "Gulf" brand signs and two 30 ft. curb cuts on Broadway and one 50 ft. cut on West 218th street, and also a one story, two bay lubricatorium, 25 ft. by 26 ft., erected in 1937; that it is proposed to alter and extend this building; that it is also proposed to reconstruct the existing gasoline service station, lubricatorium and non-automatic auto laundry and to include the additional uses of minor auto repairing with hand tools only and the parking of motor vehicles awaiting service; that it is also proposed to demolish the office building as approved under N.B. Applic. 363-24, to remove the outside hydraulic lift and to replace sections of the stone wall along the rear and erect a 3 ft. high pipe rail on top of same; that it is also proposed to erect an addition to the present two service bay building which was erected during the early part of 1937 under Alt. Applic. 1931-36 and for which certificate of occupancy No. 23171 was issued December 16, 1937; that the addition to the present lubricatorium will be used as an office and sales room, rest rooms and a combination heater and storage room; that a new 550 gallon fuel oil tank will be installed in connection with an approved type ceiling suspended furnace for heating the building and also a new 550 gallon waste oil tank will be installed; that there will be no change in the gas tanks or the gasoline pumps; that the two 30 ft. curb cuts now legally permitted on Broadway will remain unchanged, while the legally permitted curb cut on West 218th street with a frontage of 50 ft. will be reduced to 40 ft.; that the two present signs on poles will remain and the present sidewalk will remain unchanged; and

WHEREAS, the applicant contends that the owner purchased the property on May 14, 1924 and that this parcel had a frontage of 77 ft. 8¾ in. on Broadway; that an additional parcel with a frontage of 25 ft. on Broadway, immediately adjoining the first parcel, on the southerly side, was acquired on August 27, 1935; that certificate of occupancy No. 33065 issued July 30, 1947 on Alt. Applic. 953-47 superseded certificate No. 23171 which was issued December 16, 1937 on Alt. Applic. 1931-36; that this certificate permitted a lubricatorium, office for gas station and display of not more than five motor vehicles; that the metes and bounds in the present application are similar to the permitted area approved on Alt. Applics. 1931-36 and 953-47; that the original application on which certificate No. 9010 was issued in 1924 legalizes the gas station use prior to effective zoning of June 15, 1925 in business use districts; that there has been no change in zoning since July 25, 1916 for this plot; that this existing gas station has been in continuous operation for more than 30 years under the same ownership and competitive demands require that a modern "one-stop" station be erected; that the area along Broadway at this location is devoted chiefly to gas

stations, garages, new and used car sales lot and showrooms for automobiles; and

WHEREAS, the applicant states that the present owner has held title to the property since May 14, 1924; that the assessed valuation of land is \$31,000 and of the building \$5,000 making a total of \$36,000; that the building was erected in 1924; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the reconstruction and re-arrangement of the lawfully existing gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, December 30, 1954" (5 sheets) *on condition* that all buildings and uses not proposed to be maintained shall be removed and the premises shall be reconstructed and re-arranged as indicated on such plans; that the accessory building shall comply with the requirements of the Building Code therefor; that there shall be no cellar under the accessory building; that the accessory building shall be faced with face brick on the two sides facing the street; that there shall be a wall erected from the accessory building to the wall of the multiple dwelling on lot 27; that such wall shall be brick masonry not less than five feet six inches in height; that a similar wall shall be erected from the accessory building to the street building line of Broadway and of similar height except that such wall may be reduced within five feet from the building line to four feet six inches in height; that pumps shall be erected not nearer than fifteen feet to the street building line and shall be of a low approved type; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that at the intersection there shall be erected and maintained a block of concrete not less than twelve inches in height and extending for a distance of not less than five feet along either building line; that curb cuts shall be restricted to two curb cuts, as now existing, thirty feet in width to Broadway and one existing curb cut forty feet in width to 218th street; that signs shall be restricted to the permanent signs attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the intersection of a post standard for the support of a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that sidewalks and curbing abutting the premises shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairs maintained within the accessory building with hand tools only for adjustments; that there may also be parking of motor vehicles awaiting service provided that such parking does not interfere with the servicing of the station; that curb cuts herein permitted are permitted under Section 7A; that the heater shall be of an approved ceiling type; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 1:15 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, JUNE 7, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

MINUTES

638-41-SM

APPLICANT—United States Gypsum Company, owner.
SUBJECT—Application reopened April 26, 1955, as to amendment to resolution—re United States Gypsum Pyrobar Gypsum Partition Tile, previously approved.

APPEARANCES—

For Applicant: William W. Bainbridge.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 638-41-SM

Subject: Amendment to resolution as to Pyrobar made of Fort Dodge Iowa Rock and the stamping of tile.

United States Gypsum Company, New York requested by letter dated March 21, 1955 that the resolution adopted July 22, 1941 and amended through September 12, 1950 under Cal. No. 638-41-SM be amended so as to include USG Pyrobar Gypsum Partition Tile as made from Fort Dodge Iowa Rock and to permit the marking of each tile by die. The application was reopened by a vote of the Board April 26, 1955.

Purpose

The material is to be used as for non-load bearing fire proof partition, exterior wall back-up fire protective covering of steel beams, columns and ducts in the interior of buildings protected from moisture and the element.

Description

The tile as manufactured from Fort Dodge Rock complies with the requirements of C26-310.0 which requires compliance with ASTM C52-33 and the slurry from which the tile is manufactured complied with ASTM C22-41.

Inspection and Test

Specimens of 3" and 4" Pyrobar were tested in accordance with the requirements of ASTM C52-33 and the results were as follows:

	Minimum Required		Results	
	Dry	Wet	Dry	Wet
4"	75 psi	25 psi	82.3 psi	30.8 psi
3"	75 psi	25 psi	107.0 psi	35.6 psi
Shell thickness 3" equaled $\frac{1}{2}$ "; 4" equaled $\frac{3}{4}$ ".				

Recommendation

On the basis of the test, the Committee on Test recommends that the resolution adopted July 22, 1941 and amended through September 12, 1950 under Cal. No. 638-41-SM be amended so as to include USG Pyrobar Gypsum Partition Tile as made from Fort Dodge Iowa Rock and to permit the marking of each tile, by die, with the wording as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 638-41-SM," or in lieu thereof the bill of material, bill of lading or shipping ticket may be similarly marked, on condition that the requirements of the resolution adopted July 22, 1941 and as amended through September 12, 1950 under Cal. No. 638-41-SM are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of July 22, 1941 through September 12, 1950 in accordance with the above report.

521-45-SM—Vol. II

APPLICANT—Robert P. LeVine, for National Brick Company, owner.

SUBJECT—Application reopened March 29, 1955 as Vol. II for test and report as to additional sizes—Nabcor High Pressure Steam Cured Burned-Clay Concrete Masonry Units; previously approved re Nabcor Sand-Crit High Pressure Steam Cured Units.

APPEARANCES—

For Applicant: Robert P. LeVine.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 521-45-SM Vol. II

Subject: Amendment to resolution as to additional masonry units.

National Brick Co., Long Island City, New York, requested by filing an application dated March 3, 1955 that the resolution adopted June 24, 1952 under Cal. No. 521-45-SM Vol. I, be amended so as to include masonry units of a burnt clay aggregate. The application was reopened by a vote of the Board on March 29, 1955 under Cal. No. 521-45-SM Vol. II.

Purpose

The material is to be used in masonry construction.

Description

The units are made of a mix of one part of approved portland cement to eight parts of ground burnt clay by weight.

The aggregate and cement are automatically weighed and deposited in the mixer. After mixing the blocks are formed in a Besser machine. The formed blocks are cured by hi pressure steam and then air cured.

Inspection and Test

The plant of the applicant located in Long Island City was inspected by asst. Engr. J. A. Darts Committee on Test and the process of manufacture was investigated.

Sample blocks were identified and marked. The identified blocks were tested in accordance with the requirements of the Masonry Rules of the Board at Manhattan College.

Results were as follows:

1. 3" x 8" x 18" Hollow Partition Block
Compressive Strength—1367 psi
2. 4" x 8" x 18" Hollow Partition Block
Compressive Strength—1364 psi
3. 6" x 8" x 18" Hollow Partition Block
Compressive Strength—1173 psi
4. 8" x 8" x 18" Hollow
Compressive Strength—2151 psi
Absorption (lbs. per cu. ft.)—8.7
5. 12" x 8" x 16" Hollow
Compressive Strength—1236 psi
Absorption (lbs. per cu. ft.)—7.9

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted June 24, 1952 under Cal. No. 521-45-SM Vol. I be amended so as to include the masonry units manufactured of a mix and of sizes herein described so that the units recommended for approval under this resolution, including those previously approved under Cal. No. 521-45-SM Vol. I are as follows:

1. Sand Grit—Hollow 4" x 8" x 18", 8" x 8" x 16" and 12" x 8" x 16"
2. Burnt Clay—Hollow 3" x 8" x 18"; 4" x 8" x 16", 6" x 8" x 16", 8" x 8" x 18" and 12" x 8" x 16".

MINUTES

on condition that the requirements of the resolution adopted June 24, 1952 under Cal. 521-45-SM Vol. I be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 24, 1952 in accordance with the above report.

783-49-SM—Vol. II

APPLICANT—New England Lime Company, owner (C. C. Loomis, agent).

SUBJECT—Application reopened December 7, 1954 as Vol. II for test and report to consider change of name of owner and changes in construction—NELCO Kilnoise Acoustical Tile; previously approved re Kilnoise Acoustic Tile, Series 100.

APPEARANCES—

For Applicant: Donald Ingram.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 783-49-SM- Vol. II

Subject: Nelco Kilnoise Acoustical Tile, approval of.

Kelley Island Lime and Transport Company, Cleveland, Ohio filed October 31, 1949 an application with the Board of Standards and Appeals for approval of the material known as Kilnoise Acoustical Tile under the provisions of C26-88.0 and C26-191. Administrative Building Code. The material was approved, under conditions April 25, 1950 under Cal. No. 783-49-SM Vol. I.

An application was filed September 23, 1954 by New England Lime Company, Adams, Mass. for approval of the Nelco Kilnoise Acoustical Tile and subsequently on November 29, 1954 from the Kelley Island Lime and Transport Company states that the New England Lime Co. has the exclusive rights to manufacture Kilnoise Acoustical Tile. The application was reopened December 7, 1954 under Cal. No. 783-49-SM Vol. II.

Purpose

The material is an incombustible acoustical tile.

Description

The tile is manufactured from a magnesium oxychloride cement base reinforced with glass fibres. Through the use of a foaming agent, the material is rendered into a light weight cellular structure with many interconnecting pores. The blocks cast of this material are finished to a size of 12" x 12" x 13/16" with beveled or square edges. The tile is kerfed for mechanical suspension.

Inspection and Test

The plant of the applicant at Adams, Massachusetts was inspected by Asst. Engr. J. A. Darts Committee on Test and the process of manufacture observed. Sample tiles were identified. The identified tiles were load tested when installed on various types of approved suspension systems. The average failure load was 65 lbs. per sq. ft. on the tile. The tiles are also rated as incombustible as having met the requirements of Federal Specification SS-A-118a.

Recommendation

On the basis of the inspection and test and the Committee on Test recommends the approval of the Nelco Kilnoise Acoustical Tile as manufactured by the New England Lime Co. as described herein for use in New York City as an incombustible acoustical tile when used with an approved mechanical suspension system on condition that each carton in which the tile is marketed shall be stamped, marked or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 783-49-SM Vol. II."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

88-54-SA

APPLICANT—Drying Systems, Inc., owner.

SUBJECT—Application January 28, 1954—Dry-Sys Insulated Oven Enclosure, approval of.

APPEARANCES—

For Applicant: Samuel R. Porwancher.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 88-54-SA

Subject: Dry-Sys Insulated Oven Enclosure, approval of.

Drying Systems Inc., Chicago, Illinois filed January 28, 1954 an application with the Board of Standards and Appeals for approval of the appliance known as the Dry-Sys Insulated Oven Enclosure under the provisions of the Paint Spraying Rules of the Board.

Purpose

The appliance is used to form an oven housing, to be used in conjunction with either an indirect or direct fired heater (Cal. Nos. 89-54-SA and 90-54-SA).

Description

In general, Drying Systems ovens for commonly encountered operating temperatures are built of sectional metal panels, of thicknesses suitable for the temperature involved. Panels are double walled, and filled with mineral wool or glass wool insulation. The panels are fastened to a structural steel framework which determines the shape of the oven.

The steel framework, besides forming a support for the panel enclosure, is designed to support the weight of the oven plus the load carried in the oven, whether it be on an overhead conveyor, floor type conveyor or trucks. This is primarily simply structural design. Because of its functions, the steel framing is usually inside the enclosure and adequate provision is made for expansion and contraction. The housing panels form a tight, outer enclosure over the steel framing.

Dry Sys oven panels are made with a minimum of through metal. The inner and outer sheet metal faces are made pan shaped, and are held together all around by narrow metal strips spaced about 2 inches apart, which are welded across the gap to the edges of the pans. The pans do not contact each other, the air gap between them being about 2 inches less than the full thickness of the panel.

MINUTES

Standard panels are 24" x 96". The long edges (96") are so constructed that the panels fit together tongue and groove, the interlock being about 2" deep. When so assembled, the insulation in each panel contacts that in the adjacent panel, so that insulation is virtually continuous, and the only through metal is in the occasional narrow strips that tie the surfaces together.

The panels are not required to support any load other than their own weight. They are fastened securely with sheet metal screws to the steel framing. The small gap between end joints is packed with insulation and covered with a steel finishing strip, which further acts as a retainer. The thickness of insulation in the panels is decided by the operating temperature.

The oven is heated by a hot air circulating system the heated air being distributed within the oven by a system of sheet metal ducts. Heating equipment is located outside of, and adjacent to the oven.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts Committee on Test at the Fedders-Quigan Corp., Long Island, New York.

The oven was inspected in conjunction with the application filed under Cal. No. 89-54-SA; the heating system for the oven.

Recommendation

On the basis of the foregoing inspection and the data filed with the application, the Committee on Test recommends the approval under C26-191.0 of the Dry-Sys Insulated Oven Enclosure, provided the ovens and appurtenances are installed in accordance with the requirements of Article 12 of the Administrative Code and the Rules of the Board covering the Use of Equipment for Spraying of Paint, Varnishes, Lacquers and other such flammable Surface Coatings and the Storage of such materials and provided further that the oven shall be properly located and supported in accordance with the Administrative Building Code; that there shall be installed between the surface combustion heaters and the oven distributing duct a stainless steel screen of 40-40 mesh far enough away so that the flame will not impinge on it and all conveyors shall comply with the requirements of the Code and with the Labor Law and each oven shall bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 88-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standard and Appeals does hereby *approve* this appliance with the above report, and on condition that the heating element shall be of a type as approved by the Board for the work proposed.

89-54-SA

APPLICANT—Drying Systems, Inc., owner.
SUBJECT—Application January 28, 1954—Dry-Sys Type I.D. Direct Fired Gas Heater, approval of.
APPEARANCES—

For Applicant: Samuel R. Porwancher.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 89-54-SA

subject: **Dry Sys Type I.D. Direct Gas Fired Heater** Models 700 and 3000 (paint baking oven), approval of.

Drying Systems Inc., Chicago, Illinois, filed January 28, 1954 an application with the Board of Standards and Appeals for approval of the appliance known as Dry Sys Type I.D. Direct Gas Fired Heater Models 700 and 3000 under the provisions of the Paint Spraying Rules of the Board.

Purpose

The appliance is used for heating air for paint baking application, in which the heated air is recirculated back through the heater.

Description

The Dry Sys Type I.D. Air Heater is an air heater used for industrial purposes, the heater is a unit which is located outside of the oven or processing enclosure, the heated air being ducted to the operating area by means of a power driven fan. This heater is made by Drying Systems Inc. in five sizes, all essentially of the same type of construction, differing in size and heating capacity.

Several heaters can be used in one group, ducted together, to obtain the required total BTU capacity.

The air heater is built as a unit, shipped assembled. It consists of an outer steel casing, in which are a combustion chamber (the lower portion) and mixing chamber (the upper portion) in which the air is heated by mixing with the products of combustion. The entire interior is of refractory material construction.

The lower (combustion) chamber is of fire brick, backed up by insulating brick. The upper (mixing) chamber is of insulating refractory brick. Bricks are laid in a certain pattern, designed to provide for expansion and contraction, and set in high temperature cement. A brick arch separates the combustion chamber from the mixing chamber; the end of the arch farthest from the burners stops short of the back wall, providing an opening through which the products of combustion pass from the lower to the upper chamber.

This heater is of the induced draft type. The air enters the upper chamber at the rear (where the products of combustion also enter the mixing chamber) and passes through the upper chamber (mixing with the products of combustion) to the front of the heater, where the air is drawn off through an opening in the top, by a suitable high temperature type fan since the air is pulled through the heater, this induces a draft on the combustion chamber.

The draft is adjusted to the desired condition by sliding refractory slabs, which vary the size of the opening through which the products pass from the combustion chamber into the mixing chamber. The adjusting slabs are attached to steel shafts which project through the front of the heater, and are adjusted from this location. Lock nuts on the shafts hold the adjustment position.

The dual chamber design permit maintaining high temperature in the combustion chamber, thus assuring complete combustion of the fuel. The insulating material adjacent to the steel outer jacket reduces the heat transmission to a relatively low degree and the 4" I beam runners which are a part of the casing raise the heater off the floor, permitting air circulation underneath.

The appliance is also equipped with the following safety features:

1. Purging cycle at start. Fans must be started first, and run long enough to provide four changes of fresh air in the oven before the pilot lights on the burners can be ignited.
2. Complete ignition of all pilot lights. All pilots must be ignited before the safety shut-off valve can be opened to supply fuel to the burners. Each pilot has a bulls-eye light on the control cabinet, indicating when the pilot is lit. Premature opening of the shut-off valve is not possible. Valve must be manually opened. It closes automatically.

MINUTES

3. Electronic flame detection is provided for each burner through our Flame Detector Units. These devices operate through a flame rod extending into the burner flame. Grounding, shorting or breaking of the flame rod, or absence of flame, automatically closes the safety valve on the burner line.
4. A pressure switch on the fuel line shuts off the burners if the fuel pressure drops too low for satisfactory flame conditions at the burners.
5. An air flow switch at each fan shuts off the burners should any fans stop for any reason.
6. A signal horn sounds an alarm in case of shut down, notifying the operator.
(This can also include a signal light in the office of the supervisor).

Inspection and Test

The appliance was inspected and tested at the Fedders Quigan Corp., Maspeth, Long Island, by Asst. Engr. J. A. Darts, Committee on Test. The appliance was tested throughout its operating range and functioned as designed and all controls operated as required.

Recommendation

On the basis of the foregoing inspection and test and the data filed with the application, the Committee on Test recommends the approval under C26-191.0 of the Dry Sys Type I.D. Direct Gas Fired Heater Models 700 and 3000, for use in New York City provided that this system shall be installed in accordance with the requirements of Article 12 Administrative Building Code and that any ovens or appurtenances used with the systems comply with Article 12, Administrative Building Code and the Rules of the Board covering the Use of Equipment for Spraying of Paint, Varnishes, Lacquers and other such Flammable Surface Coating and the Storage of Such Materials and that there shall be installed between the surface combustion heaters and the oven distributing ducts stainless steel screens of 40—40 mesh, with interlocks, so arranged, that neither the oven nor the burner can operate or be started up unless screens are in proper position—proper position being between the combustion chamber and drying oven; and provided further, that each structure containing the air heating system shall be properly located and supported in accordance with the Administrative Building Code and shall bear a label permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 89-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report, and *on condition* that an oven approved by the Board under Cal. No. 88-54-SA is used and only where the paint is noninflammable.

90-54-SA

APPLICANT—Drying Systems, Inc. owner.

SUBJECT—Application January 28, 1954—Dry-Sys Indirect Gas Heater, Type L, approval of.

APPEARANCES—

For Applicant: Samuel R. Porwancher.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 90-54-SA

Subject: Dry Sys Indirect Gas Fired Heater, Type L, approval of.

Drying Systems Inc., Chicago, Illinois filed January 28, 1954 an application with the Board of Standards and Appeals for approval of the appliance known as Dry Sys Indirect Gas Fired Heater Type L under the provisions of the Paint Spraying Rules of the Board.

Purpose

The appliance is used for heating air for paint baking application, in which the heater air is not recirculated back through the heater.

Description

This is an industrial air heater, used in connection with ovens, dryers and the like for heating processing air. The heater is indirect, in that the air heated does not mix with the products of combustion from the fuel. It works on the "interchanger" principle, in which the hot products of combustion pass through one channel, and the air to be heated passes through an adjacent channel, becoming heated by being in contact with the hot outer surface of the heated channel. The two channels are separate from each other and there is no intermixing.

The Dry Sys Type L heater is sectional; i.e., as many sections as are required to obtain the heating capacity are combined (by bolting sections together), into a compact unit. The air heater can be located close to or at some distance away from the dryer enclosure which it serves, the heated air being ducted to the operating area by means of power driven blower. The products of combustion are exhausted to the atmosphere by means of a suitable power driven high temperature type fan, which also serves to establish a positive draft at the burners for satisfactory burner operation regardless of weather conditions.

In this heater, the interchanger consists of tubular cast iron sections arranged to conduct the products of combustion in a back and forth travel through 5 passes, starting at the bottom tube and emerging at the top. These tubular sections are smooth on the inside (in the combustion passes), and radially finned on the outside, for efficient transfer of heat to the air.

The air enters at the top, and flows downward between the fins, being held close to the fins by a sheet metal jacket which forms the air passage. Air can be forced through the heater by blowing through, with the fan located on the inlet side, or by pulling through, with the fan located on the exit side of the heater. The latter arrangement has been found in practice to result in more even air distribution, and is the preferred method of installation.

The combustion tubes are made in five separate units, which are assembled into a continuous passage by being tightly bolted together at the joints. The firing end of the lower tube, and the smoke outlet of the upper tube, are tightly sealed where they pass through the heater casing, by bolted flange connections.

Inspection and Test

The appliance was inspected and tested at the Fedders Quigan Corp., Long Island, New York by Asst. Engr. J. A. Darts, Committee on Test and the equipment operated as designed.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as Dry Sys Indirect Gas Fired Heater Type L when installed in accordance with the requirements of Article 12, Chapter 26 Administrative Building Code and the provisions of the Paint Spraying Rules of the Board on condition that each appliance bears a label

REPORT OF COMMITTEE ON TEST

Re: Cal. 499-54-SA

Subject: Fulton Oil-fired Boiler Unit, approval of.

The Fulton Boiler Works Inc., owner-manufacturer filed June 10, 1954 an application with the Board of Standards and Appeals for approval of the Fulton Oil-fired Boiler Unit under the provisions of C19-57.0 Administrative Code, the Oil Burner Rules of the Board of Standards and Appeals and the provisions of C26, Article 12 Administrative Building Code.

Purpose

This is a package type burner unit with the burner an integral part of the boiler.

Description

The boiler is a vertical tubeless boiler and is manufactured in accordance with the ASME Codes for power boilers. All manufacturing of the pressure vessel is done in the shop of the Fulton Boiler Works.

The boiler itself is a cornish type consisting of an outer shell with a furnace in the center having a water wall around the furnace. The burner is placed on top of the furnace and the combustion takes place in the furnace with the flow of gases downward towards the bottom of the furnace. The boiler is supported by angle iron legs which are protected against the heat of the gases by forms of fire brick. Below these legs is a steel base which holds the insulation and refractory base which forms the bottom of the combustion chamber. On the outside shell of the boiler there are welded fins to form a passage for the secondary gas. On the outside of these fins there is a cast refractory form which serves as the insulation of the boiler. On the outside of this there is a steel jacket to hold this form and to serve as a jacket for the boiler proper. All piping on the boiler is extra heavy. All boiler trim meets the ASTM requirements. The oil burner is a pressure atomizing type. Air is delivered into the furnace by a blower driven by an electric motor. The oil pump is coupled to the motor. The oil pump delivers oil through a solenoid to the oil nozzle at a pressure of about 100 psi. The oil is delivered into the furnace in a fine spray. The oil is ignited by a two ignition

electrodes which are fed through an ignition transformer. A stack safety switch joined into the oil burner circuit provides a safety shut off on the burner in the event of flame failure. A steam pressure control cuts off the burner when the steam pressure in the boiler reaches a predetermined pressure. A steam safety valve provides protection in the event of excessive pressure in the boiler. A low water safety switch wired into the burner circuit provided protection if the water in the boiler receded to an unsafe level shutting down the boiler.

Inspection and Test

This device was inspected and tested at 861 Longwood Avenue, Bronx and found to operate as designed. Present at the inspection and test were Chief Engr. L. V. Huber and Lewis J. Palm representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Fulton Oil Fired Boiler Unit for use in New York City when installed and operated in accordance with this report and the Oil Burner Rules of the Board of Standards and Appeals and C26, Article 12 Administrative Building Code. Provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 499-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 67-55-SM

Subject: Picone Cinder Brick, approval of.

Wm. F. Fagan for Picone Brothers Builders Supplies, Inc., filed January 26, 1955 an application with the Board of Standards and Appeals for approval of the material known as Picone Cinder Brick under the provisions of the Masonry Rules of the Board.

Purpose

The material is a cinder brick to be used in masonry construction.

Description

The brick is manufactured of approved hi-early cement, cinders, sand-grit aggregate and water. The mix is twenty-seven cu. ft. of cinders, twenty-seven cu. ft. of sand-grit, five hundred lbs. of approved hi-early cement and seven gal-

MINUTES

lons of water per sack of cement. After mixing, the bricks are formed on a Besser machine, steam cured and then air dried.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts, Committee on Test, process of manufacture was investigated and sample units were identified and marked.

The identified units were tested in accordance with the Masonry Rules of the Board and the results were as follows:

1. $2\frac{1}{4}" \times 3\frac{3}{4}" \times 8"$
Compressive Strength—4209 psi
Modulus of Rupture — 838 psi
Absorption — 3.62 lbs. per cu. ft.
2. $2\frac{3}{4}" \times 3\frac{3}{4}" \times 8"$
Compressive Strength—4196 psi
Modulus of Rupture — 935 psi
Absorption — 3.09 lbs. per cu. ft.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Picone Cinder Brick in sizes of $2\frac{1}{4}" \times 3\frac{3}{4}" \times 8"$ and $2\frac{3}{4}" \times 3\frac{3}{4}" \times 8"$ when manufactured at the applicant's plant of a mix as herein described, for use in New York City under the requirements of the Masonry Rules of the Board.

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

197-55-SA

APPLICANT—Ingersoll Conditioned Air Division of Borg-Warner Corp., owner.

SUBJECT—Application March 7, 1955—Ingersoll Highboy Oil-fired Warm Air Furnaces, approval of.

APPEARANCES—

For Applicant: Stephen J. Dowling.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Cal. No. 197-55-SA

Subject: Ingersoll Highboy Oil Fired Warm Air Furnaces, approval of.

The Ingersoll Conditioned Air Division of Borg-Warner Corp., owner manufacturer filed Mar. 7, 1955 an application with the Board of Standards and Appeals for approval of the Ingersoll Highboy Oil Fired Warm Air Furnaces under the provisions of C19-57.0 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A Highboy Oil fired furnace for domestic and commercial heating.

Description

These furnaces are built with a 22 gauge casing and a 14 gauge heat exchanger having a 12 gauge head. The combus-

tion chamber is precast refractory shipped in position in the furnace. The fan and limit control is either a Crise FAL-10A or FAL-40. The primary oil burner controls are Mercoid or Minneapolis-Honeywell controls. All models are fired with approved burners. The burner is an assembly of approved parts suitable for use with each other for the services intended as approved and the burner is provided with suitable safeguards to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range, and was found to function properly as designed with no flarebacks or undue carbon deposit. With the oil cut off the controls functioned in 50 seconds, with a stack temperature of 485°. The CO² content of the flue gases was 10%.

Inspection and Test

The furnace was inspected and tested at 6908 38th Avenue, Woodside and found to operate as designed. Present at the test were Chief Engineer Leslie V. Huber of the Committee on Test and Stephen Dowling representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Ingersoll Highboy Oil Fired Warm Air Furnace for use in New York City in domestic and commercial installation with fuel oil not heavier than #3 U. S. Dept. of Commerce standards when installed and operated in accordance with this report and the Oil Burner Rules of the Board of Standards and Appeals provided the furnace bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 197-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

288-55-SA

APPLICANT—Tokheim Corp., owner.

SUBJECT—Application April 6, 1955—Tokheim Gasoline Dispensing Pumps, Models 300 and 305 and National Gasoline Dispensing Pumps, Models 360 and 365, approval of.

APPEARANCES—

For Applicant: A. P. Lapsansky and John F. Dixon.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Cal. No. 288-55-SA

Subject: Tokheim Gasoline Dispensing Pumps—Models 300 and 305, also to be marketed as the National Gasoline Dispensing Pumps, Models 360 and 365, approval of.

The Tokheim Corp., owner-manufacturer, filed April 6, 1955 an application with the Board of Standards and Appeals for approval of the Tokheim Gasoline Dispensing Pump, Models 300 and 305 also marketed as the National Gasoline Dispensing Pumps, Models 360 and 365. The corporation's

MINUTES

name has been changed from Tokheim Oil Tank and Pump Co. to Tokheim Corporation.

Purpose

Pumps for dispensing of gasoline to automobiles etc. with and without computing attachments.

Description

The above Models are similar in design and operation to previous Models heretofore approved by the Board under Cal. 68-49-SA, by resolution dated November 22, 1949, and under Cal. 557-50-SA, by resolution dated October 31, 1950. Tokheim Models 300 and 305 computer pumps are the same as the Tokheim Models 39-L-RA and 39-L-EZ computer pumps, which were approved by the Board under Cal. No. 652-49-SA, under date of November 22, 1949, printed in Bulletin No. 48, Volume 34, except for minor changes such as in the ornamentation on the pump housing, and size and shape of the register dial face and dial glass, etc. National Models 360 and 365 computer pumps are the same as the National Models 62 and 64 computer pumps, respectively, which were approved by the Board under Cal. No. 557-50-SA, under date of October 31, 1950, printed in Bulletin No. 45, Volume 35, except for minor changes such as in the ornamentation on the pump housing, and size and shape of the register dial face and dial glass, etc. These models, which are marketed under the trade name "National", are exactly the same as the Tokheim Models referred to above, except that the dome of the National pump is of different design in that it provides for advertising panels in same and the register dial faces will have the name "National" on same, rather than Tokheim. These pumps have been approved by the Underwriters Laboratories, Certificate Crude 60-034 File MH 1895.

Inspection and Test

Models of these pumps were inspected and tested at 155 E. 44th Street, NYC and found to operate as designed. Present at the test were Chief Engineer Leslie V. Huber of the Committee on Test and A. Lapsansky and John Dixon representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Tokheim Gasoline Dispensing Pump, Models 300 and 305, also to be marketed as National Gasoline Dispensing pumps, Models 360 and 365 for use in New York City when installed and operated in accordance with this report and the requirements of C19-69.0 Administrative Code provided each pump bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 288-55-SA."

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated July 2, 1952 on Alt. Applic. 990/52, reads:

"1. Proposed extension of a business use in a frame structure is contrary to 4.1.3 of the B.C.

2. Proposed live load of 75 lbs. per sq. ft. on 2nd floor to be used for storage and a live load of 100 lbs. per sq. ft. on 1st floor to be used for manufacturing is contrary to 7.3.2.3 of the B. C."

and
WHEREAS, the applicant states that the building is 2 stories, 22 ft. in height, 25 ft. by 56 ft. 3 in. in area, of class 4 construction, erected prior to 1901, located on a lot 54.69 ft. front by 107.9 ft. in depth, in an unrestricted use, B and D area, class 1 and class 1½ height districts and used and occupied since 1951; cellar—storage of lumber and machine parts; 1st floor—machine shop, 4 persons; 2nd floor—storage of light machine parts; that no change in use or occupancy is now proposed; that the building is provided with one interior 3 ft. 6 in. wide wood stairs, enclosed in 4 in. studs, metal lath and plaster both sides, equipped with fireproof, self-closing doors; that a ladder and scuttle to roof will be provided; and

WHEREAS, violation No. 4339 was issued by the Borough Superintendent November 16, 1951 for altering the building without securing plans and permit and occupying the building as a machine shop without approval of the department; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrate's Court May 13, 1952 on a charge of violation of the Administrative Code; and

WHEREAS, the applicant states that the premises are zoned for unrestricted use within 100 ft. of 59th street and the balance of the plot is in a residence use district; that the premises are developed with a cellar and two story building, of class 4 construction, altered under Alt. App. 578 of 1916 as a two family dwelling and no certificate of occupancy issued for this use; that inspection records of the department of housing and buildings reveal the use of the building as a one family dwelling with two stores on the 1st floor and two families on the 2nd floor and the building was classified as an old law tenement; that the building was again altered under Alt. App. 7899 of 1937 where the occupancy is stated as 3 families and two stories; that no certificate of occupancy was issued for this alteration; that the present 4 car garage was erected under Applic. 18717 of 1922 and Certificate of Occupancy #7029B was issued for a two car garage, and N.B. Applic. 3775 of 1924 was filed for a two car garage for which no certificate of occupancy was issued; that it is proposed to remove this garage; and

WHEREAS, the applicant states that the building is used for the storage of lumber and machine parts in the cellar, as a machine shop on the 1st floor and for storage of light machine parts on the 2nd floor; and

WHEREAS the applicant states that it is now proposed to enclose the present wood stairs leading from the 2nd to the 1st floor with fire retarded partitions consisting of wood studs, metal lath and ¾ in. portland cement plaster on both sides; that the stairs from the cellar to the 1st floor are to be enclosed with 4 in. cinder block equipped with fireproof, self-closing doors on top and bottom; that in addition the cellar ceiling will be covered with metal lath and cement plaster; and

WHEREAS, the applicant contends as to objection 1 issued by the Borough Superintendent that as the building has a legal use for business on the 1st floor and as the cellar and 2nd floor will be used only for storage, no new hazards will be created in the building; and

WHEREAS, the applicant contends as to objection 2 issued by the Borough Superintendent that the proposed live load of 75 lbs. per sq. ft. on the 2nd floor will never be exceeded as the floor is being used only for the storage of light machine parts and the present designed live load on the 1st floor of

100 lbs. per sq. ft. will never be exceeded as this floor is being used for machining of light parts; that in addition the 1st and 2nd floors will have a posted live load capacity for the existing designed loads; that such portable fire extinguishing apparatus as directed by the Fire Commissioner will be installed; and

WHEREAS, the applicant states that the building will be made to comply with the labor law as to exits; and

WHEREAS, this appeal was laid over January 18, 1955, date to be set when applicant completed plan and obtained a complete examination and obtained a decision from the Borough Superintendent; and

WHEREAS, the applicant has filed the following decision of the Borough Superintendent dated March 1, 1955, on Alt. App. 990/52:

"1. The proposed extension of a business in a frame structure is contrary to 4.1.3 B.C.

2. The proposed liveload of 75 lbs. per sq. ft. on second floor to be used for storage and a liveload of 100 lbs. per sq. ft. on 1st floor to be used for manufacturing is contrary to 7.3.2.3 of B.C.

3. Provide exits as per Sect. 270 Labor Law."

and

WHEREAS, the permits were inspected by a committee of the Board which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 990/52, Objections 1 and 2, be and it hereby is *modified*, and that the appeal be and it hereby is *granted* to permit the existing use of the premises as described and as indicated on superseding revised plans marked, "Received, June 3, 1955" (5 sheets) *on condition* that such openings in the floor as may be necessary for the temporary hoisting of machinery shall be fitted with trap doors and guard railing; that such trap doors shall be equivalent to the flooring in the building; that the exits as shown shall be maintained, leading direct to street, and from the cellar as shown on such plans; that this variance shall continue only so long as the use now existing and not more than two occupants in the building are continued for the present machinery use, and for no other use; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and *make a variation* in the requirements of the Labor Law, as to Objection 3, and that the appeal be and it hereby is *granted on condition* that the exits as shown on the plans cited above shall be maintained and the conditions of this resolution shall be met in all respects.

420-53-A—Vol. II

APPLICANT—Prowler and Sushan, for Pierre Allen, owner.

SUBJECT—Application for consideration—reopening as to substitute sprinklers in stair hall for fire escapes—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—387-389 Bedford Park boulevard, east side, 80 ft. south of Decatur avenue, 1st floor and cellar; Block 3280, Lot 5, Borough of The Bronx.

APPEARANCES—

For Applicant: H. M. Sushan.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on July 27, 1954, on certain conditions; and

WHEREAS, the resolution was amended on March 29, 1955; and

WHEREAS, the applicant requested a further amendment of the resolution.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 27, 1954, by adding thereto:

"that in view of the impracticability of installing a fire-escape on the front of the building because of frame construction there may be substituted a sprinkler system throughout the hall of the building and extended to include a sprinkler head over the dry cleaning equipment and storage tanks (perchloroethylene), provided the primary means of exit and the existing fire escape on the rear of the building—from which free escape can be had to the street—shall be maintained; that the doors from the hallway to the apartments shall be changed so as to be approved for at least one hour or that all such existing doors shall be covered with metal; that such sprinkler system may be fed from the house supply of the building provided such supply is at least two inches in diameter; that the hose inlet may be omitted; that in all other respects the balance of the resolution shall be complied with, as passed on by the Borough Superintendent, under Alt. App. 233/53, objection dated February 21, 1955."

506-54-A

APPLICANT—William H. Fuhrer, for 32 White Street Corp., owner.

SUBJECT—Application June 17, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—225 Varet street, north side, 96 ft. west of White street, Block 3109, Lots 47 and 36, Borough of Brooklyn.

APPEARANCES—

For Applicant: William H. Fuhrer.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated May 21, 1954, on Alt. App. 2862 of 1953 reads:

"1. The opening in the floors for the conveyor form a shaft and should be enclosed in one-hour partitions or assemblies as required by Sect. 10.5.1 of the Bldg. Code."

and

WHEREAS, the applicant states the building is 3 stories and basement 44 ft. 10 ins. in height, 27 ft. by 111 ft. in area at street level, 27 ft. by 100 ft. in area at typical floor level, of class 3 construction, erected 1954, located on a lot 27 ft. front by 111 ft. in depth, in an unrestricted use, A area, class 1½ height district, used and occupied since 1954: basement: ice cream hardening room, one person; 1st floor: milk and paper storage, 2 persons; 2nd floor: paper storage, one person; 3rd floor: paper storage, one person; no change in use or occupancy is proposed; the building is provided with one three foot wide interior steel stair with cement treads enclosed in six inch concrete block equipped with one-half hour fireproof self-closing steel doors, stairhall leads to roof bulkhead and direct street; and

WHEREAS, the applicant states that the basement story is used as an ice-cream hardening room at a temperature of minus 35°; that the first floor is fireproof; second and third floors and roof are class 3 frame construction with brick exterior walls; that Alt. App. 2862 of 1953 was approved including a conveyor installation and no enclosure for the conveyor was indicated nor was an enclosure requested when the plans were approved; that the conveyor used to convey packages of ice-cream cartons travels at a rate of 40 feet per minute, was installed and a violation placed against the job by the elevator inspector and subsequently an amendment filed for such conveyor which established the objection which is the subject of this appeal; and

WHEREAS, the applicant states that the packages of empty cartons are a maximum of three feet by three feet and are placed on the conveyor at the exterior of the building at Varet Street and removed at the desired floor and this operation is reversed when packages are required for the filling with ice-cream at the plant at which time the packages are lowered on the conveyor and placed on dollies and rolled through Varet and White Street and brought into the plant at the White Street truck entrance; and

WHEREAS, the applicant contends that to enclose the conveyor and provide the required doors would cause a hardship in the removal and deposit of the packages on the conveyor as the packages would be constantly passing the door openings and it would handicap the operator in the removal or replacement of the packages; that only one man is engaged in removing or sending out the packages in the affected area on the entire three floors and then only when such packages are received or required for use for a maximum of two hours daily; that only one man is engaged on the first floor to control the valves of the milk tank; that the man in the basement floor remains at work for 20 minutes and then must defrost for thirty minutes as the temperature of the hardening room is 35° below zero F.; and

WHEREAS, the applicant proposes to enclose the conveyor openings at the second and third floors with one-half inch thick 2 ft. deep transite baffle to act as a fire stop secured to the framing and well braced by angle iron at the corners and to install sprinkler heads with 160° blow-off over the floor openings at the first, second and third floors, such heads to be fed by a connection to the city water supply system; and

WHEREAS, the applicant further contends that as the plan was originally approved and the building erected and the conveyor installed in accordance with such approval, it would create an undue hardship if it were now necessary to enclose the conveyor in one and one-half hour material which would create a shaft and require structural changes as the shaft would have to be carried above the roof to conform with Sect. 10.5.1 of the Building Code; and

WHEREAS, the applicant states that the proposed sprinkler heads to be placed around the perimeter of the conveyor openings will be fed from a two-inch line connected to a two-inch city main located in White Street in the White Street Building which has a pressure of 65 lbs. per sq. in.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 2862/53, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the conveyor openings on the several floors shall be protected as proposed and shown on plans filed with this appeal, marked "Received May 19, 1955" (4 sheets), *on condition* that the sprinkler system for such conveyor as proposed fed from a 2-inch line directly from the city main shall be maintained; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

600-54-A

APPLICANT—Henry Nordheim, for O. W. Wuertz Realty Corp., owner (Royal Furniture Co., lessee).

SUBJECT—Application July 23, 1954—re Appeal from decisions re an order of the fire commissioner.

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, order No. 1269-4 issued by the Fire Commissioner February 26, 1954 and repeated in a decision of the Fire Commissioner dated June 22, 1954, and referred to in

MINUTES

a decision of the Fire Commissioner dated July 16, 1954, reads:

"1. Install an approved, wet automatic sprinkler system throughout the building having at least one source of water supply, arranged and equipped as per Ch. 26, Art. 16, Adm. Code (C19-161.0 Adm. Code)."

and

WHEREAS, the applicant states the building is 5 stories, 63 ft. in height, 25 ft. by 100 ft. in area, of class 3 construction, erected 1931, located on a lot 25 ft. by 100 ft. in area, in a business use, B area, class 1½ height district and used and occupied since 1931 as a furniture showroom; that the building is provided with one 3 ft. 9 in. wide iron and concrete stairs, brick enclosed, equipped with fireproof, self-closing doors and leading to roof bulkhead, but not to street, and one fire escape on the 152nd street front leading to street by ladder; and

WHEREAS, certificate of occupancy No. 757 was issued September 16, 1931 upon completion of work under N.B. Applic. 447-31 permitting the use of the building as a store and showroom; and

WHEREAS, the applicant contends that the Royal Furniture Company is the lessee and sole occupant of the building which is used from cellar to top floor as retail sales and showroom with an office on the mezzanine; that there is no manufacturing or repairing within the building; and

WHEREAS, the applicant contends that the 2nd, 3rd, 4th and 5th floors are only occupied by a human being when a salesman takes a customer in the elevator to either floor to show stock other than is carried on the 1st floor or in the cellar; that the elevator shaft is of masonry construction equipped with fireproof doors and extends from cellar to 5th floor; that the stairway is entirely enclosed in masonry walls with self-closing doors at each floor; that on each floor there is a fire extinguisher; that there are no openings on any floor except the show windows on the street floor; that the boiler room is enclosed in masonry walls equipped with self-closing fireproof door; that there is a fire escape on the 152nd street wall affording a second means of exit for the office employees on the mezzanine floor; that this fire escape is equipped with a counterbalanced stairway to street; that while the upper floors have no windows there is a system of ventilation serving each floor and an air conditioning system for the cellar and 1st floor; that the building is well posted with "no smoking" signs; that it would be a hardship to require a sprinkler system in this building as there is so little use made of the upper floors; and

WHEREAS, an examination of fire department folder No. 3A2936-01 indicates the following:

As a result of special order No. 67 issued by the Fire Commissioner April 15, 1947 relating to the inspection of basements of department stores, 5 and 10 cents stores, etc., the company commander of engine company No. 73 on May 12, 1947 recommended that an automatic sprinkler system be installed in the basement due to hazardous occupancy and the fact that the public was admitted thereto, and called special attention to the fact that there were no windows or other openings in the exterior walls above the 1st floor of this building; as a result of this report order No. 42630LF was issued June 2, 1947 requiring a one-source wet automatic sprinkler system in the basement; this order was rescinded on recommendation of the Board of Fire Extinguishing Appliances made October 14, 1947;

On January 8, 1954 the lieutenant of engine company 73 acting under special order No. 67 dated April 15, 1947 recommended the installation of an automatic sprinkler system throughout the building because of hazardous occupancy and the fact that the public is admitted, and contained a special note that there were no windows or other openings in the exterior walls above the 1st story of this building; this recommendation was the subject of a special report written February 8, 1954 by George F. Sklenarik, Assistant Chemical Engineer, recommending that an automatic wet sprinkler system be installed on all floors above the first and in the basement, and as a result order No. 1269-4 was issued February 26, 1954; this is the order which is the subject

of this appeal; by letter dated March 17, 1954 the lessee of the building made application to the fire department for rescindment of the order and called attention to the rescindment of the prior order in 1947. In reply to this request the fire department under date of March 25, 1954 issued the following decision, which has not been made the subject of this appeal by the applicant:

"This will acknowledge receipt of your communication under date of March 17, 1954. We also wish to inform you that you are in error in stating that a similar order issued on June 2, 1947 was considered by the Board of Fire Extinguishing Appliances and was rescinded. That order concerned a sprinkler system in the cellar only.

The present order to install an approved wet automatic sprinkler system throughout the building, etc. was predicated principally upon the fact that there are no windows or other openings in the exterior walls, which would make it very difficult for this department to extinguish a fire if one occurred on any of the upper floors. The matter was very thoroughly considered before the issuance of the order; hence your request for its rescindment is hereby denied.

Should you see fit to do so, an appeal from the decision herein expressed and from the order may be made to the Board of Standards and Appeals, H. H. Murdock, Chairman, Room 1000, Municipal Building, within thirty (30) days from date, on forms obtainable from the said board by personal application."

Under date of May 15, 1954 the applicant in this appeal addressed the following communication to the fire department:

"The Royal Furniture Company have retained me to look into the matter of your order to install a sprinkler system in their building at 2396—3rd Ave., Bronx.

From the following facts I believe that the order should be cancelled.

This building was erected under a Department of Housing & Buildings permit and a certificate issued which states that the premises conforms to all laws and orders.

This certificate also states that the Fire Commissioner has certified the building as conforming to Section 646F of the New York Charter to the Borough Superintendent.

On June 2nd, 1947 your Department issued a like order and on review such order was rescinded.

So it appears from the above, the Fire Commissioner's approval on the certificate of occupancy and the cancellation of a like order being cancelled in October 1947 with the same occupancy now as then there is no valid reason for imposing the order now for a sprinkler system. I respectfully request that it be cancelled."

Under date of May 25, 1954 the following decision was issued by the fire department:

"This will reply to your letter of May 15th concerning Order #1269-4.

Your request for rescindment of this order is denied.

The requirement for the sprinkler system was set forth in our letter of March 25, 1954 to the Royal Furniture Company. This letter also advises the occupant of its right to appeal before the Board of Standards and Appeals."

This decision has not been made subject to this appeal by the applicant; and

WHEREAS, the premises was inspected by a committee of the Board, which noted the occupancy and type of merchandise dealt in, and the committee found that one of the things that make it undesirable to grant this appeal is the fact the building is on a corner and the front wall for several stories is blocked up on both street fronts so as to make fire-fighting through windows impossible; and the committee recommended that the appeal should not be granted.

Resolved, that the decision of the Fire Commissioner, acting on Order #1269-4, Objection 1, be and it hereby is affirmed and that the appeal be and it hereby is denied.

658-54-A

APPLICANT—William A. Lacerenza, for 212 25th Street Corp., owner (Joseph H. Meyer Brothers, lessee).

SUBJECT—Application September 1, 1954—re Appeal from an order of the fire commissioner.

PREMISES AFFECTED—204-208 25th street, south side, 75 ft. east of 4th avenue, Block 655, Lot 10, Borough of Brooklyn.

APPEARANCES—

For Applicant: William A. Lacerenza and Edward Kampa.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, Order #6563-4 issued by the Fire Commissioner August 6, 1954, reads:

"2. Provide that all dip tanks shall be equipped with hinged metal covers held open by a fusible link. Such covers shall be equipped with an opening to permit the automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct. Rule 4.1.1 Spray Rules."

and

WHEREAS, the applicant states the building is one story and cellar, 19 ft. 4½ in. in height, 40 ft. front by 154 ft. 10½ in. in area, of Class 1 construction, erected in 1954 on a lot 64 ft. and 69 ft. front by 154 ft. 10½ in. and 151 ft. in depth in a business use, B area, Class 1½ height district; proposed to be used and occupied: Cellar—storage, 2 persons; 1st floor—manufacturing of simulated pearls, 52 persons. The building is provided with a two-source sprinkler system throughout, two interior 3 ft. 8 in. wide steel stairs, enclosed in masonry partitions, equipped with fireproof, self-closing doors; stairhall leads direct to street and is provided with a ladder and scuttle to roof; and

WHEREAS, the applicant states the use of proposed building will be as follows: Cellar—storage and storage of 300 gallons of nitrocellulose lacquer, 2 persons; 1st floor—manufacturing simulated pearls and storage of 30 gallons of nitro cellulose lacquer, 52 persons; that the building is fully sprinklered by a two-source system; and

WHEREAS, the applicant contends that it is proposed to omit the hinged metal covers over the dip tanks and to provide tight-fitting metal covers without hinges and fusible links and install any type of automatic fire extinguishing system for these tanks as the Fire Commissioner may require; and

WHEREAS, the applicant contends that all tanks will be fitted with tight fitting metal covers when not in use and that not all tanks are in use at the same time; that the cementing, dipping and drying will be done in a space separated from the balance of the building, provided with mechanical exhaust to remove all vapors; that the storage of lacquers is in a fireproof extension separated from the dipping room by a 3-hour construction; that for the dipping, cementing and drying of the pearls on the first floor the equipment will consist of two small tanks 24 in. by 24 in. by one inch deep, containing two gallons each of cellulose acetate cement for cementing; three tables each with three tanks 21 in. x 24" x 4" deep containing 3½ gallons each for the dipping of pearls; these tanks contain nitro cellulose pearl lacquer solution; the dip tanks will not be in operation all at one time and when not in operation, will be fitted with tight metal covers; that the pearls will be dipped into the tanks on a horizontal rack which is raised and lowered by gears and chains, operated by explosion proof motors and if hinged metal covers held open by fusible links are to be installed, it will be impossible to operate these racks properly; that the building is under lease to Meyer Bros. who now operate a similar use in a fireproof 4-story building adjoining at 220—25th street; where they have been in operation for the past 33 years without any fire or explosion; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Fire Commissioner, acting on Order #6563-4, Objection 2, be and it hereby is modified and that the appeal be and it hereby is granted on condition that in lieu of the hinged metal covers on the tanks there shall be a ventilating system installed and maintained throughout the building, as indicated on plans filed with this appeal, marked "Received September 1, 1954", (3 sheets), as amended by revised plan marked "Received June 6, 1955", (1 sheet), on condition that in all other respects the storage of liquids and the operation shall be maintained to the satisfaction of the Fire Commissioner; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable to the building and its occupancy.

798-54-A

APPLICANT—Kitzler and Nurick, for Cohn Brothers Furniture Corp., owner.

SUBJECT—Application October 20, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—4701 5th avenue and 506-512 47th street, southeast corner, Block 766, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: S. H. Kitzler.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated September 22, 1954 on Alt. App. 2288/54 reads:

"1. Provide the enclosed stairways from cellar leading direct to street as per sect. 6.1.2.2.3 B.C.

2. Liveload for 2nd fl. to be 75 lbs. per sq. ft. as per Sect. 7.3.2.3 B.C."

and

WHEREAS, the applicant states the building is 2 stories, 24 ft. 10 in. in height, 25 ft. 2 in. front by 80 ft. in depth, of Class 3 construction, erected in 1915 in a business use, C area, Class 1¼ height district, on a lot 25 ft. 2 in. front by 100 ft. in depth, used and occupied since 1946: Cellar—furniture store, 0 persons; 1st and 2nd floors, furniture store, 3 persons on the 1st floor; for which no certificate of occupancy has been issued. The building is provided with one interior 3 ft. 2 in. wide wood stairs, unenclosed and one fire escape extending to street by ladder; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, the applicant states the building was erected in 1915 for store on the 1st floor and offices on 2nd floor; that in 1921 the store was approved for use for the sale of household furniture; that in 1946 the present owner purchased the building and at that time the cellar, store and 2nd floor were used for the display and sale of household furniture; that the present owner made no alterations to any part of the building except installation of a new store front on 5th avenue and the covering on both street facades of the building with new "Brickface" veneer; that the contractor filed required applications for approval and a permit and was advised the applications were disapproved as the occupancy did not agree with department records; and

WHEREAS, the applicant states it is now proposed to make alterations to legalize the use and occupancy of the building; that it is proposed to use the cellar and both floors for display and sale of household furniture with not more than three employees occupying the premises; that the customers are not included in the number of occupants proposed; and

MINUTES

WHEREAS, the applicant contends as to Objection 1, that existing exit facilities from the cellar be accepted as adequate; that the number of persons that could be accommodated in the event of emergency figured in accordance with Sec. 6.4.1.1 para. 2 is 28, on the basis of one person for each 20 in. of stair width and $1\frac{1}{2}$ risers and one person for each $2\frac{3}{4}$ sq. ft. of floor on landings and platforms; that the Building Code permits such computation if the stair is 44" wide; that the stair in question is actually 40 in. wide; that the business is not large and there are seldom more than a few customers in the premises at one time; that the existing open wood stair from cellar to 1st floor and from 1st floor to 2nd will be completely enclosed with 1-hour fire-retarded stud partitions and all doors to same will be made one-hour fireproof, self-closing; that it is also proposed to install a new 3 ft. wide stair and bulkhead to roof to supplement the existing iron ladder and scuttle; it is proposed to replace the existing wood stair from 1st to 2nd floor with new iron stair with cement treads; that the existing cellar stair is 3'4" wide and the 1st floor stair is 3'2" wide; that the new wood stair to roof will be 3' wide; that from the cellar there are two sidewalk areas with concrete steps 3 ft. wide; that the iron sidewalk doors will not be locked during business hours; that on the 2nd floor is a 3 ft. exit door leading to a regulation fire escape balcony provided with sliding drop ladder; that all exits on each floor and in cellar will be provided with proper exit lights and signs; and

WHEREAS, the applicant contends as to Objection 2, that the existing liveload capacity be accepted; that the existing 2nd floor beams are 3" x 9" long leaf yellow pine, 12" on centers which could sustain 60 lbs. per sq. ft. liveload under the old Building Code; that under the existing Code the allowable liveload is 51 lbs. per sq. ft.; that the floor is not loaded to a greater extent than a floor in a residence building because the same articles found in a home are on this floor and consist of living room, dining room and bedroom sets and the usual accessories such as lamps, tables, radios, etc.; that all articles on display are arranged so that most is stocked against the two long outer walls of the building with aisle space in between; that no articles are placed one over the other or in tiers and only one of each article rests directly on the floor and it is therefore requested that the existing liveload capacity of the 2nd floor be approved as satisfactory; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted on condition.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 2288/44, Objections 1 and 2 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exits from the cellar shall be as proposed and as indicated on plans filed with this appeal marked "Received October 20, 1954", (4 sheets); that the door covers at sidewalk openings shall be equipped with easy opening devices; that the main stair shall be enclosed as proposed on such plans; that the loading of 50 lbs. per superficial foot may be permitted for the second floor, *on condition* that such loading shall be posted and the second floor shall be used only for light furniture display, at no time exceeding such loading; that such loading shall be posted; that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that such fire-fighting equipment shall be maintained as the Fire Commissioner shall direct.

986-54-A

APPLICANT—Robert Gottlieb, for E. Devlin, Inc., owner.
SUBJECT—Application December 22, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—454-484 East 148th street and 505-511 Brook avenue, southwest corner, Block 2292, Lot 37, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 6, 1954, on Alt. App. 1038/54, reads:

"1. The 6-story bldg. erected before Oct. 1, 1913 and used as a factory should be provided with an additional interior enclosed stairway from every floor to conform with Sect. 271 of the Labor Law."

and

WHEREAS, the applicant states the building is 7 stories in height, 100 ft. front by 48 ft. in depth, of Class 3 construction, erected prior to 1900 on a lot 215 ft. front by 100 ft. in depth, in an unrestricted use, B area, Class $1\frac{1}{2}$ height district; used and occupied since 1900: Cellar—manufacturing and storage of coffins, 8 persons; 1st floor—manufacturing, cutting and shipping, 15 persons; 2nd, 3rd and 4th floors—manufacturing (sewing) 52 persons on the 2nd, 65 on the 3rd and 37 on the 4th floor; 5th floor—machine shop and assembly, 70 persons; 6th floor—printing, 15 persons. No change in use or occupancy is now proposed. The building is equipped with a two-source sprinkler system throughout and an approved interior fire alarm system and regular monthly fire drills are maintained. There is one interior 3 ft. wide wood stairs, enclosed in partitions of metal lath and plaster, equipped with fireproof, self-closing doors, and extending from roof bulkhead direct to street, and one fire escape on the front, extending to street by 45 deg. ladder, window and door openings on course of fire escape are fireproof, self-closing; and

WHEREAS, the applicant states the premises are now improved on the corner portion with a five-story masonry factory about 60 by 115 ft. in area and on the west portion by a 6-story masonry factory, 100 ft. front by 48 feet deep; that the buildings are independent except for the cellar and are adequately separated by double 3-hour, Class A fire doors at cellar and all floors and at elevator openings; that each wing has its own separate means of egress and a common labor law fire escape; that the buildings are protected by a 100% sprinkler system connected to a central station and have required fire alarm systems and drills; that they both have been legally occupied as factories since their erection prior to 1900; that the posted liveload is 150 lbs. and the floor construction is modified mill type, consisting of iron cross girders and timber purlins; and

WHEREAS, the applicant contends that as the west wing is 6 stories in height a violation was placed for failing to provide an enclosed interior stairs as the secondary means of egress in compliance with Section 271 of the Labor Law; that this wing now contains one stairhall with 3 ft. wide wood stairs leading to street and roof, completely enclosed with stud partitions fire-retarded on both sides with portland cement mortar on metal lath and equipped with fireproof, self-closing doors; that the sprinkler system also protects the stairhall; that the second means of egress is a 4 ft. wide Labor Law fire escape erected in 1947 at great expense in compliance with the law then in force; that all window and roof openings on course of fire escape are fireproof, glazed with wire glass; that none of the floors are occupied by more persons than the capacity of the legal stairs; and

WHEREAS, the applicant further contends that in view of the fact the entire building is occupied by non-hazardous uses, is equipped with a 100% sprinkler system and the 45 degree modern fire escape and is only one story in excess of the five now permitted to be served by a fire escape, a variance is requested to accept the present means of egress; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1038/54, Objection No. 1, and that the appeal be and it hereby is *granted, on condition* that the section of the 6 story building affected by this decision may be continued for factory work, complying with the requirements of the Labor Law in all other respects, as shown on plans filed with this appeal, marked "Received December 22, 1954 (5 sheets) and "April 11, 1955", (6 sheets), *on condition* that the existing means of exit consisting of an enclosed stairway leading direct to the street and a fire escape used in conjunction with the adjoining section of the building shall be maintained in good condition; that the sprinkler system and the fire alarm system and fire drills shall be maintained to the satisfaction of the Fire Commissioner and in all other respects the requirements of the Labor Law and all other laws, rules and regulations applicable to the building and its occupancy shall be complied with.

107-55-A

APPLICANT—James E. Casale, for Arnold Bernhard Co., Inc., owner.

SUBJECT—Application February 11, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—5 East 44th street, north side, 167 ft. east of 5th avenue, 6th floor, Block 1279, Lot 7, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated February 4, 1955, on Alt. App. 40 of 55 reads:

"1. Proposal to build up the 6th floor, of subject non fireproof bldg. and to extend the office into the entire 6th floor is contrary to 4.2.1. B.C.

"Note: Bldg. now exceeds the tabular height limits."

and

WHEREAS, the applicant states the building is 5 stories, and penthouse 59 ft. 8 in. in height, 27 ft. by 96 ft. 9 in. in area at street level, 27 ft. by 85 ft. 5 in. in area at typical floor level, of class 3 construction erected prior to 1917, located on a lot 27 ft. front by 100 ft. 5 in. in depth, in a restricted retail use, B area, Class 1½ height district, used and occupied since 1922, cellar—mailroom and storage, six persons; 1st floor—stores, 3 persons; 2nd to 5th floors—offices; 6th floor—superintendent's apartment, for which Certificate of Occupancy # 4351 was issued February 6, 1922 upon completion of work under Alt. App. 682 of 1921; the building is now proposed to be altered to six stories, 69 ft. 8 in. in height, and used and occupied as follows: Cellar—mailroom, storage, six persons; 1st floor—retail store, 3 persons; 2nd to 5th floors—offices, 18 persons on the second, 18 persons on the third, 12 persons on the 4th and 12 persons on the fifth; sixth floor—superintendent's apartment and board room, 12 persons; the building is provided with one 3 ft. 8 in. wide interior stairs constructed of steel risers and cement treads enclosed in 8 in. brick equipped with ¾-hour fireproof self-closing doors and leading from roof bulkhead direct to street; and

WHEREAS, the applicant states the building was erected prior to 1917 as a private residence, and so occupied until altered in 1921 at which time the building was extended to the front building line and a new steel stairway and brick enclosure was erected from street floor to roof and new toilets installed and the penthouse was added on the roof; the building is now used by the owners, a firm of investment

advisers, except for the first floor, which is used by a retail haberdashery store; the penthouse contains the owner's apartment; that the use of the building will remain the same except that the new extension on the sixth floor will be occupied by ten persons on occasions when Board meetings are held; that the building will be heated by steam from an adjacent building; that the roof of the new brick extension will be constructed of concrete planks on steel framing and all new interior partitions within the sixth floor extension will be constructed of metal studs, wire lath and plaster; that it is proposed to extend the stairway to the new proposed extension roof through a new bulkhead constructed of six inch load bearing cinder blocks plastered on the inside and stuccoed on the exterior; that the roof of the bulkhead will be constructed of concrete planks; and

WHEREAS, the applicant contends that inasmuch as the materials to be used for the proposed new construction will be incombustible it is felt that the new extension will be beneficial rather than detrimental; that the present un-occupied roof area is constructed of wood joists and built up roofing surface so that whatever hazards are inherent in a five story and penthouse office building with a frame roof will be decreased by the proposed addition.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 40/55, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, as to Objection 1, to permit the extension of the existing 6th story, as proposed and shown on plans filed with this appeal, marked "Received February 11, 1955", (6 sheets) showing existing conditions and (7 sheets) showing proposed conditions, and "May 2, 1955" (1 sheet), *on condition* that the building shall not be further increased in height or area and shall be maintained as proposed for such use as stated and for none other; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

149-55-A

APPLICANT—Robert Gottlieb, for New Side Realty Corp., owner.

SUBJECT—Application February 23, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1347-1349 Boston road, north side, 288.06 ft. west of Jefferson place, Block 2934, Lot 52, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 21, 1955, on Alt. App. 84/55, reads:

"1. Provide 2 enclosed exits from cellar to street and from 2nd floor to street as per Sect. 270 of the Labor Law.

2. The cellar stair enclosure (vertical opening) must be constructed of fireproof materials and properly ventilated as per Sect. 270 of the Labor Law.

3. All required stairways must be at least 44" wide and be constructed of incombustible materials as per Sect. 270 of the Labor Law.

4. Exits from 1st floor must be remote from each other as per Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 2 stories, 24 feet in height, 50.43 ft. by 68 ft. in area, of Class 3 construction, erected in 1925 on a lot 50.43 ft. by 70 ft. in area in a business use, B area, Class 1½ height district; used and occupied since January 1955 as follows: Cellar—storage, 0 per-

MINUTES

sons; 1st floor—store and office, 2 persons; mezzanine, storage of plumbing supplies, 0 persons; 2nd floor—storage of plumbing supplies, 3 persons, for which certificate of occupancy was issued September 25, 1947, upon completion of work under Alt. App. 122/47. The building is now proposed to be used and occupied as follows: cellar—storage and boiler room, 0 persons; 1st floor—store and office, 2 persons; mezzanine—storage of plumbers supplies, 0 persons; 2nd floor—factory (sewing), 35 persons. The building is provided with one 4 ft. 6 in. wide interior wood stairs, enclosed with metal lath and plaster, equipped with fireproof, self-closing doors leading direct to street and provided with ladder and scuttle to roof and one fire escape on the front, extending to street by stairs; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, the applicant states the building is provided with one 4 ft. 6 in. wide wood stair with cement treads enclosed in fire-retarded partitions as a primary egress and a 45° fire escape at front of 2nd floor as a secondary means of egress; that access to fire escape is through a fireproof door; that it is now proposed to lease the entire 2nd floor for sewing of dresses with a maximum occupancy of 35; that the number of persons proposed is less than can be legally accommodated on the stair and stairhall; and

WHEREAS, the applicant contends that as the number of occupants on the 2nd floor is low and the 1st floor is occupied by a non-hazardous use, a variance is requested and the acceptance of the present two means of egress as in substantial compliance with requirements of Sec. 270 of the Labor Law.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 84/55, Objections Nos. 1, 2, 3 and 4, and that the appeal be and it hereby is granted, on condition that the building shall not be increased in height or area; that the factory work shall be limited to the second floor; that the stated load of 120 lbs. per sq. ft. shall be posted; that the exits shall consist of the 4 ft. 6 in. wide enclosed stair, as shown on plans marked "Received February 23, 1955", (4 sheets) leading directly to the street and a fire escape at the 2nd floor sill level with counterbalanced stair to the street; that the first floor shall be used only as proposed for storage of plumbing supplies and office, and the cellar used for storage only; and that the exits shall be as shown on plans above cited.

222-55-A

APPLICANT—James H. Walsh, for Fire Department, City of New York, owner.

SUBJECT—Application March 23, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—213 East 25th street, north side, 300 ft. west of 2nd avenue, Block 906, Lot 13, Borough of Manhattan.

APPEARANCES—

For Applicant: James H. Walsh.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated February 28, 1955, redented, March 16, 1955, on BN (FP) App. 472 of 1955, reads:

"1. Installation of gasoline storage tank outside of building line is contrary to C19-69.0 & C19-59.0. M3". and

WHEREAS, the applicant states the building is 3 stories, 45 ft. in height, 25 ft. by 89 ft. in area, of class 3 construction, erected 1851, located on a lot 25 ft. front by 98 ft. 9 in. in depth, in a business use, C area 1½ height dis-

trict, used and occupied since 1951, cellar: heating appliance, coal and equipment, no persons; 1st floor: apparatus and recreation room; 2nd floor: office and dormitory; 3rd floor: locker room, total occupancy: six persons throughout the building; and

WHEREAS, the applicant contends that the reason for the installation of a new 275 gallon tank in the location as shown on plans filed with this appeal is that the present tank is located under the cellar boiler room floor and was ordered tested by the Bureau of Combustibles for 30 lbs. as required for a new system and as a result of the test the existing tank and piping was caused to be ruptured and become defective; that it is proposed to seal the present tank and fill it and cap all piping connected therewith; that the new tank will be located in the area way as shown on plans and will provide a safe distance outside the boiler room to reduce the fire hazard; that the present gasoline dispensing pump will be replaced with a new type gasoline dispensing pump as approved by the Board; that all the present piping, fill suction vents and gauge lines will be replaced with new pipe properly secured and encased in concrete as required by the code and as shown on plan filed with this appeal; that the present opening in the front of the cellar wall on the west side will be bricked-up and the opening on the east side of the same wall will be used for the removal of ashes but will be provided with a six inch high concrete sill to prevent leakage of gasoline into the boiler room.

Resolved, that the decision of the Borough Superintendent, acting on B.N. (FP) App. 472/55, Objection 1, be and it hereby is modified and that the appeal be and it hereby is granted, to permit the installation of a 275 gallon specially constructed tank, located as proposed and shown on plans filed with this appeal, marked "Received March 23, 1955" (1 sheet), on condition that the openings in the wall shall be bricked up or have a 6 in. concrete curb as shown thereon; that the connections between this tank and the pump on the floor above shall be maintained with protected concrete casing to the satisfaction of the Fire Commissioner; that a new approved type gasoline dispensing pump shall be installed; that the existing tank shall be removed or sealed; and that in all other respects the gasoline installation shall comply with all requirements therefor.

APPLICANT—Larry Meltzer, for Anna Pillitteri, owner.

SUBJECT—Application for consideration—reopening as Vol. III to consider a new proposal subject to regular procedure—re Application (decision of the borough superintendent), previously denied, under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, motor vehicle repairs shop, acetylene welding and lubricatorium.

PREMISES AFFECTED—6702-6724 New Utrecht, northwest corner of 68th street, (Ovington avenue) and 6703-6725 15th avenue, northeast corner of 68th street (Ovington avenue), Block 5565, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Larry Meltzer.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. III, subject to the regular procedure, to consider new proposal.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

594-29-BZ—Vol. IV

APPLICANT—Kitzler and Nurick, for Jeanne Frischling, owner. (Morey Motors, lessee).

SUBJECT—Application for consideration—reopening as Vol. IV to consider additional uses and rearrangement, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c, 7e and 21 of the zoning resolution, permitting in a residence and business use C area district, the extension to an existing building using more than the

area permitted, to be used as a motor vehicle repair shop for more than five motor vehicles.

PREMISES AFFECTED—5810-5824 Bay Parkway, 2177-2183 59th street, northwest corner, Block 5808, Lot 44, Borough of Brooklyn.

APPEARANCES—

For Applicant: H. J. Nurick.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. IV, subject to the regular procedure, to consider additional uses, etc.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

762-41-BZ—Vol. II

APPLICANT—Fred C. Dahlem, for Alge Holding Corp., owner (Allan Charken, Pres.).

SUBJECT—Application for consideration—reopening as Vol. II to consider new use, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under section 7e of the zoning resolution, permitting the alteration and conversion of occupancy of part of an existing building, located partly in a business use and partly in a residence use district, to a public restaurant; also the proposed alteration does not comply with the building zone resolution as to the location of entrances to and show windows in the proposed business use.

PREMISES AFFECTED—82-84 Pierrepont street, south side of 178 Henry street, Block 242, Lot 37, Borough of Brooklyn.

APPEARANCES—

For Applicant: Fred C. Dahlem.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider new use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

532-46-BZ—Vol. II

APPLICANT—Herman Kron, for Milton C. Ross (trustee), owner. (Good Neighbor Parking Corp., lessee.)

SUBJECT—Application for consideration—reopening as Vol. II to consider extension of use, additional lots, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a restricted retail and retail use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—1300-1306 Avenue of the Americas, 55-67 West 52nd street and 56-64 West 53rd street, northeast corner of West 52nd street and Avenue of the Americas, Block 1268, Lots 1, 7, 8 and 9, Borough of Manhattan.

APPEARANCES—

For Applicant: George G. Kron.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider extension of use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

PUBLIC HEARING

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, June 24, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954 and further hearing on March 25, 1955.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those accepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors,

toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

PUBLIC HEARING

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "hereafter established" shall mean those dry cleaning establishments established after January 1, 1953.

1.5. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

1.6. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.

1.7. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals.

2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings and obtain its approval. Any prior approval shall be a compliance with this rule.

2.2. The requirements of Rule 2.1. shall not apply to existing dry cleaning establishments.

2.3. No dry cleaning unit shall be installed unless such unit is approved by the Board of Standards and Appeals.

2.4. The use of any existing commercial premises, as defined in Article 4, Administrative Code, for any dry cleaning establishment shall not be deemed to be a Change of Occupancy within the meaning of Section C26-185.0 of the Administrative Code.

2.5. The dry load capacity of all dry cleaning units shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.

2.6. No dry cleaning solvent shall be used unless such solvent has been tested and rated by the Fire Commissioner.

2.7. It shall be unlawful in any dry cleaning unit approved by the Board to use any solvent having a flashpoint other than that for which the dry cleaning unit has been approved by the Board.

2.8. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

3.1. No hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles, but such area may include, in conjunction with the dry cleaning establishment, unless otherwise prohibited by law, ordinary storage, boilers, washing equipment, compressors, pumps and filtration equipment.

3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by lawful non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, and fur storage.

3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building, except that this Rule 3.2 shall not apply to those establishments created prior to the effective date of these Rules:

3.2.1. which is of wood frame construction;

3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;

3.2.3. any part of which establishment is within 20 feet of any public building, as defined in Section C26-235.0 of the Administrative Code.

Rule 4. Egress.

4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:

4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following, except that this Rule 5 shall not apply to those establishments created prior to the effective date of these Rules:

PUBLIC HEARING

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings within six feet of any dry cleaning unit shall be fire-retarded with one-hour fire resistive materials and doors and with two approved automatic wet pipe sprinkler heads located over the cleaning unit which may have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following, except that this Rule 6 shall not apply to those establishments created prior to the effective date of these Rules:

6.1. Unless otherwise specifically exempted by law, no power or heating boiler shall be permitted in the same area or space where dry cleaning units are located unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.3. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.4. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

7.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide at least four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units, and such ventilation as is otherwise required by law.

8.2. All Class A dry cleaning establishments shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of all dry cleaning establishments whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof, street, yard or court grade on which it opens of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan, and

(3) The terminal of the exhaust, shall be at least five feet from any window or ventilating opening if said ventilating window or ventilating opening lies on the same plane as the exhaust terminal and when the ventilating windows, or other ventilating openings lie on a plane which faces in the direction of the exhaust terminal such terminal shall be at least 10 feet away from the same, and

(4) All direct equipment exhausts or vents shall be provided with mesh lint arrestors which shall be kept clean unless lint traps are provided on the units, and

(5) The requirements of subdivisions (1) and (3) of this Rule 8.3 shall not apply to those establishments created prior to the effective date of these Rules.

PAID

Permit No. 4875
New York, N. Y.

Periodical Division
University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments.
- 9.2. The proprietor of any Class A establishment shall furnish to any person cleaning out a dry cleaning unit an approved type respirator for his use during the process of cleaning out any such unit.
- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

Rule 12.

If any term, part or provision of any of the aforesaid Rules shall be held unconstitutional or ineffective in whole or in part, such determination shall not be deemed to invalidate the remaining terms, parts or provisions of these Rules.

NOTICE

Copies of the Official Directory of the City of New York for the year 1955 (The Little Green Book), containing the latest authentic information in relation to City, State and Federal Departments, Bureaus, Offices and

Courts, are now on sale at the office of the Supervisor of the City Record, Room 2213, Municipal Building, Manhattan, New York 7, N. Y. Price One Dollar. Make check or money order payable to "Supervisor of City Record".

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

PETITIONS AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS

On June 9, 1955, Copy of Petition and Order of Certiorari was served on the Board by Paltrow & Jensen, attorneys for Northfield Civic Association, individually and on behalf of its members owning property affected, and Hazel Brainard, Ralph J. Pecoraro and Vartkiss Tertzakian, objectors, seeking a review of the Board's determination on May 3, 1955, granting in the business use portion of a plot located in a residence and business use district, for a term of ten years, under Sections 7i, 7i, 7A and 7h of the Zoning Resolution, permission for the erection and maintenance of a gasoline service station, auto laundry, lubritorium, motor vehicle repairs, storage and sale of accessories, and an office, with an entrance (curb cut) nearer the residence use district than is permitted, and to permit the parking of cars waiting to be serviced; Cal. No. 881-54-BZ; Premises 218-10 Northern Boulevard, south side, from Springfield Boulevard to 218th Street, 45-02 to 45-12 Springfield Boulevard and 45-01 to 45-09—218th Street, Bayside, Borough of Queens.

* * * * *

On June 9, 1955, Copy of Petition and Order of Certiorari was served on the Board by Paltrow & Jensen, attorneys for Hazel Brainard, Gussie Kapcinski and Eleanor Nazurowski, objectors, seeking a review of the Board's determination on May 3, 1955, granting a variance under Sections 7i and 7i of the Zoning Resolution, to permit in the business portion of the plot located in a residence and business use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, auto showroom, and service building, lubritorium, motor vehicle repairs, car washing, brake testing, wheel alignment, painting and spraying, welding, storage and sale of accessories, and office, also permitting on the unbuilt-upon portion of plot the sale and display of new and used cars and the parking and storage of motor vehicles; Cal. No. 887-54-BZ; Premises 218-01 to 218-19 Northern Boulevard, north side, from 218th Street to 219th Street, 43-31 to 43-39—218th Street and 43-32 to 43-40—219th Street, Bayside, Borough of Queens.

DISCONTINUANCE OF PROCEEDINGS

Matter of Anna Boscovich vs. Harris H. Murdock, et al:—On March 10, 1954, a Copy of Petition and Order of Certiorari was served on the Board by attorneys for petitioner, seeking a review of the Board's determination on February 9, 1954, granting a variance under Section 9A of the Zoning Resolution, to permit in a residence use, D area and 1 times Height District, the erection and maintenance of a Class A multiple dwelling and garage for more than five cars in excess of height permitted within two miles of an airport; Cal. No. 489-53-BZ; Premises 2717-2727 East 28th Street, 2729-2741 East 28th Street; east side, 127.81 and 101 ft. north of Shore Parkway, north side, 95 ft. east of East 28th Street, Borough of Brooklyn.

At Special Term, Part II of the Supreme Court, Kings County, an Order for discontinuance of proceedings was signed on May 5, 1954, by Mr. Justice DiGiovanna.

COURT DECISION

CONGREGATION BETH ISRAEL WEST SIDE JEWISH CENTER, RESPONDENT, v. BOARD OF ESTIMATE OF THE CITY OF NEW YORK et al., DEFENDANTS, and LINCOLN PARKING CORPORATION, Appellant.
First Department, April 12, 1955.

APPEAL from an order of the Supreme Court at Special Term (SAYPOL. J.), entered November 5, 1954, in New York County, which denied a motion by defendant for summary judgment dismissing the complaint.

Simon H. Rifkind of counsel (J. Jacques Stone and Edward N. Costikyan with him on the brief; Paul, Weiss, Rifkind, Wharton & Garrison, attorneys), for appellant.

Paxton Blair of counsel (Raymond J. Horowitz with him on the brief; Paxton Blair, attorney), for respondent.

ROTEIN, J. Defendant Lincoln Parking Corporation (hereinafter called Lincoln) has for more than twenty years maintained an open parking lot, accommodating 350 cars, on the north side of 34th Street between Eighth and Ninth Avenues. The parking lot, until recently, was immediately adjacent to the structure occupied as a synagogue by

SUBJECT—Application January 11, 1955—Appeal from a decision re an order of the fire commissioner and a decision of the borough superintendent.

PREMISES AFFECTED—852-858 Monroe street, south side, 100 ft. west of Howard avenue and 853-859 Madison street, Block 1481, Lot 30, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Arthur Levy.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to July 12, 1955, at 10 A. M. for inspection and decision; hearing closed.

38-55-BZ

APPLICANT—Paul Friedman, for Stellar Fuel Sales Corp., owner.

SUBJECT—Application January 21, 1955—(decision of the borough superintendent) under sections 7f, 7e and 7i of the zoning resolution, to permit in the business use district portion of a plot located in a residence and business use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto wash (non-automatic), motor vehicle repairs, storage and sale of accessories and office, with show windows nearer the residence use district than is permitted.

PREMISES AFFECTED—534-544 Coney Island avenue, southwest corner of Hinckley place, Block 5343, Lot 13, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Nathan Cooper and Elizabeth Cipis.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Laid over to July 12, 1955, at 10 A. M. for inspection and decision; hearing closed.

168-55-BZ

APPLICANT—Noah N. Sherman, for Frederick W. I. Lundy, owner (Peter Pan Playland Corp., lessee).

SUBJECT—Application March 2, 1955—(decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit the parking of motor vehicles of patrons of existing kiddie playland located in retail use district, to be extended into residence use portion of plot, and to permit curb cuts in residence use portion of plot, for a period of ten years.

PREMISES AFFECTED—2601-2629 Emmons avenue, north side, from East 26th to East 27th streets, Block 7499, Lots 40 and 80, Borough of Brooklyn.

APPEARANCES—

For Applicant: Noah N. Sherman, Ralph Rosa and Lazar Enamuel.

For Opposition: Joseph B. Milgram, Mrs. J. Sagerstrand, Frank Falcone, L. C. Keller, Harry W. Weeks, Salvatore H. Coffaro and Thomas G. Paolillo.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to July 12, 1955, at 10 A. M. for inspection and decision; hearing closed.

305-55-BZ

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—(decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail business and unrestricted use district, the installation of eight, 550 gallon gasoline storage tanks under sub-cellar floor, and two dispensing pumps on cellar floor level, for sale of gasoline to patrons of the proposed parking garage.

PREMISES AFFECTED—10 Columbus Circle, west side, from West 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Carlo F. Marano.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 21, 1955, at 10 A. M. for applicant to file revised plans; hearing previously closed.

306-55-A

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—10 Columbus Circle, west side, from 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Carlo F. Marano.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 21, 1955, at 10 A. M. for revised plans in connection with Cal. No. 305-55-BZ.

249-29-BZ—Vol. III

APPLICANT—Henry Nordheim, for Rose L. Firestone, owner (4 Corner Service Station, Inc., lessee).

SUBJECT—Application reopened June 22, 1954 as Vol. III—re (decision of the borough superintendent) under sections 7c, 7e and 21 of the zoning resolution, to permit in a local retail use district, the change in occupancy from parking and storage of motor vehicles, to the erection and maintenance of a structure to be used as an automatic automobile laundry with an additional curb cut in conjunction with existing gasoline service station and to permit the installation of four additional gasoline storage tanks.

PREMISES AFFECTED—3094-3112 Avenue U, south side, from Brigham street to Gerritsen avenue, 2119-2131 Brigham street and 2228-2232 Gerritsen avenue, Block 7370, Lot 10, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry Nordheim.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn, after inspection and full hearing.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which was of the opinion that there was insufficient land for the proper layout and adequate reservoirs for cars of the proposed automatic automobile laundry and the committee recommended, therefore, that the application be withdrawn or denied.

Resolved, that this application be and it hereby is *withdrawn*.

487-54-BZ

APPLICANT—LeRoy Holman, for Gloria and LeRoy Holman, owners.

SUBJECT—Application June 16, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, G area district, the erection and maintenance of a one family dwelling, nearer to the street line than is permitted.

PREMISES AFFECTED—278 Lighthouse avenue, south side, 240 ft. west of Ascot avenue, Block 2272, Lot 21, New Dorp, Borough of Richmond.

APPEARANCES—

For Applicant: LeRoy Holman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn, after inspection and full hearing.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which was of the opinion that there was no basis for granting a variance to locate the proposed dwelling nearer to street line than permitted.

Resolved, that this application be and it hereby is *withdrawn*.

977-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Julia B. Jaffe, owner.

SUBJECT—Application December 29, 1954—(decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station,

MINUTES

lubratorium, car washing, motor vehicle repairs, storage and sale of accessories and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot, for a term of fifteen years.

PREMISES AFFECTED—2095-2099 Bruckner boulevard and 1001-1009 Olmstead avenue, northwest corner, Block 3797, Lot 50, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn after inspection and full hearing.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which is of the opinion that this lot is too small for the purpose herein submitted and that the application should be withdrawn or denied; and

WHEREAS, the applicant has requested withdrawal of the application.

Resolved, that this application be and it hereby is *withdrawn*.

74-33-BZ—Vol. II

APPLICANT—Joseph Schafran, for Bermont Operating Corporation, owner.

SUBJECT—Application July 22, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and business use district, the change in occupancy of 2nd floor of existing public garage to factory use (previously granted by the Board under Cal. No. 681-25-BZ for auto sales and service and later under Cal. No. 74-33-BZ converted to garage for more than five motor vehicles for a term of five years and amended to permit an additional gasoline storage tank within building and an additional pump, for a term of five years, expires December 21, 1955).

PREMISES AFFECTED—4650-4656 Broadway and 2-16 Sherman avenue, northeast corner, Block 2175, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Charles I. Goldman.

For Opposition: Myron Eisenstein.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 14, 1954 subject to regular procedure, to consider change of use; and

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 14, 1955, for applicant to file plan of second floor; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Broadway are in residence and business use, B area, class 1½ height districts; Sherman avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 6, 1954 acting on Alt. Applic. 949-54, reads:

"1. Proposal to change the use of the 2nd floor of this bldg. (located partly in a Business Use District and

partly in a Residence Use District) from garage to factory is contrary to Art. II Sect. 3 and Sect. 6a of the Zoning Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 180 ft. 5/8 in., 96 ft. 9 5/8 in. and 204 ft. 4 3/8 in. frontage by 202 ft. in depth, irregular, on which is located a building covering the entire lot, 2 stories, 27 ft. 6 in. in height, of class 1 construction, for which certificate of occupancy No. 38526-51 has been filed; that this building contains a public garage with a capacity of more than 150 motor vehicles, automobile sales rooms, shop for repair and adjustment of motor cars with hand tools, car wash racks, lubrication racks and lifts; that it is proposed to eliminate the garage use from the 2nd story of the building and convert the space to the use of manufacturing for the needle trades; that live loads and exits are satisfactory for this use; and

WHEREAS, the applicant contends that the major portion of the 2nd floor will be occupied for a conforming use and only the use of the existing rear portion of the building within a residence use district will be non-conforming; that the building was originally erected for automobile sales and service under Cal. No. 681-25-BZ and the use was converted to a garage for more than 5 motor vehicles for a term of years under Cal. No. 74-33-BZ; that in this appeal the prior applicant contended that severe financial losses to the then owner occurred during the depression of the early 1930's; that after repeated actions before the Board, a prior applicant elected to apply to the City Planning Commission for approval of the use of the premises as a garage on the basis that the garage had a capacity of over 150 cars despite the fact that he already had such an approval from this Board, the only disadvantage of said approval being that it was limited to a term of 5 years and required renewal; that it is felt that the case having been the subject of the Board at its inception properly belongs before the Board and requests favorable action; that in all respects, the conditions imposed by all previous resolutions have been complied with and as the building will still have, after this proposed change, garage capacity of more than 150 cars and as the premises are not being substantially altered nor is the site being increased, the conditions imposed by the board of estimate under cal. No. 109 dated December 21, 1950, are complied with; and

WHEREAS, the applicant states that the present owner has held title to the property since December 28, 1945; that the assessed valuation of land is \$175,000 and of the building \$285,000 making a total of \$460,000; that the building was erected in 1925; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 9, 1934, as thereafter amended by resolutions adopted through February 5, 1946, by adding thereto:

"that in the event the owner desires to occupy the second floor for light factory work, such use may be permitted under section 7e for a term of five years, substantially as proposed and as indicated on plans filed with this application, marked 'Received July 22, 1954', 6 sheets, as amended by revised plan marked 'Received May 25, 1955', 1 sheet, *on condition* that all machines used in connection with the light manufacturing of the needle-work type as proposed shall be located along the street fronts of Broadway and Sherman avenue, as indicated on revised plan; that the spaces within the residence use district toward the north and east shall be occupied as proposed and shown thereon; that such spaces shall be separated by fireproof walls of not less than 4 in. concrete block from floor to ceiling; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as previously modified by resolutions above

MINUTES

cited except that factory use as herein permitted for second floor shall be in complete substitution for garage use previously permitted on such floor and that all permits required shall be obtained and all work completed within six months from the date of this amended resolution."

751-39-BZ—Vol. II

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application March 29, 1955 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business and unrestricted use district the addition of motor vehicle repairs and the parking of motor vehicles awaiting service to existing gasoline service station, lubritorium, auto laundry and office (previously granted by the Board, extension of gasoline station into business use portion of plot).

PREMISES AFFECTED—925 Hunts Point avenue, south side, from Southern boulevard to Bruckner boulevard, Block 2735, Lot 20, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 19, 1955 subject to regular procedure, to consider additional use; and

WHEREAS, a public hearing was held on this application on June 14, 1955 after due notice of publication in the bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Hunts Point avenue are in business and unrestricted use, B area, class 1½ height districts; Southern boulevard is in a business use, B area, class 1½ height district; Bruckner boulevard is in an unrestricted use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated March 16, 1955 acting on Alt. Applic. 206-55, reads:

"1. The erection and maintenance of a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service partly in a business use district and partly in an unrestricted use district is contrary to Art. 2 Sec. 4A (15) (29) (46) of the Zoning Resolution. The additional uses of minor auto repairing with hand tools only and the parking of motor vehicles awaiting service is contrary to resolution Bd of S&A, Cal. #751-39-BZ, which only permitted a gasoline service station, lubritorium and auto laundry."

and

WHEREAS, the applicant states that the premises consist of a plot, 205.16 ft. and 62.09 ft. frontage by 106.8 ft. in depth, on which is located a gasoline service station for which certificate of occupancy No. 2182-41 has been filed; that it is proposed to add the use of motor vehicle repairs and the parking of motor vehicles awaiting service; and

WHEREAS, the applicant further states that the rear of the plot is 200 ft. wide; that on July 25, 1916 Southern boulevard was zoned business use for a depth of 100 ft. and Bruckner boulevard was zoned unrestricted use for a depth of 100 ft. and therefore the subject plot is located one-half in the business use district and one-half as a conforming use; that in 1916 the class height was 1½, B area, and there have been no zoning changes since that time; that the site does not contravene sections 21A and 7A of the zoning resolution; that proposed and existing conditions are shown on one plan filed with this application inasmuch as same has no cost and

no work is contemplated; that the present owner purchased this gas station on November 10, 1938; that the station has been in continuous operation and annual permits have been obtained from the fire department; that the present station as permitted by the Board under Cal. No. 751-39-BZ was erected under N.B. Applic. 446-39 and certificate of occupancy 2182 was issued March 31, 1941; that fire department permit No. 234696 is now in force and this permit expires in May, 1955; and

WHEREAS, the applicant states that the present owner has held title to the property since November 10, 1938; that the assessed valuation of land is \$92,000 and of the building \$13,000 making a total of \$105,000; that the building was erected in 1940; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on October 10, 1939 by adding thereto:

"that there may also be parking of motor vehicles awaiting service and minor repairing with hand tools only, within the accessory building; as proposed and as shown on revised plans filed with this application, Volume II, marked, 'Received, March 29, 1955' (3 sheets) and 'June 3, 1955' (one sheet), on condition that in all other respects the resolution above cited shall be complied with; and that all permits shall be obtained and all work completed within six months from the date of this resolution, and a revised Certificate of Occupancy shall be obtained."

165-48-BZ—Vol. III

APPLICANT—Paul Trapani, for Victor Minichiello, owner.

SUBJECT—Application December 22, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business use district the extension in use of existing gasoline service station and motor vehicle repair shop (previously granted by the Board, the reconstruction of existing gasoline service station), for a term of ten years the erection and maintenance of an automatic auto laundry (previously amended by the Board to increase area of site and permit the erection of an automatic auto laundry—not built), and to erect and maintain an additional motor vehicle repair shop, front end alignment and a store for sale of accessories.

PREMISES AFFECTED—2580 Gunther avenue and 1738 Gunhill road, southeast corner, Block 4494, Lots 44 and 46, Borough of the Bronx.

APPEARANCES—

For Applicant: Paul Trapani.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on January 18, 1955 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on June 14, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Gunhill road are in a business use, D area, class 1 height district; Gunther avenue is in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 7, 1954 acting on Alt. Applic. 972-54, reads:

"1. In a business district the extension of the existing gas station & repair shop (hand tools only) to in-

MINUTES

clude car washing (granted by Bd. of S & A Cal. No. 165-48-BZ Vol. II N. B. 696/53 but not built), repair shop and store for auto accessories is contrary to Art. II, Sec. 4 (29) (46) & (52) Zoning Resolution and to the Bd. of S & A Cal. #165-48-BZ and 165-48-BZ Vol. II."

and

WHEREAS, the applicant states that the premises consist of a plot, 122 ft. frontage by 125 ft. in depth, irregular, on which now exist three buildings, all accessory to each other; that these buildings consist of a one story brick building used as a gas station and restaurant and motor vehicle repair shop, a one story residence occupied by the owner and a two car garage; that the use zone has been unrestricted since 1938 the zone was changed to business; that in 1948 under the zoning resolution was enacted, but on November 28, Cal. No. 165-48-BZ, the Board granted permission to tear down the existing gas station and open grease pit and erect a new modern gasoline station, restaurant and lubritorium; that this has been built and certificate of occupancy No. 6461-49 obtained; and

WHEREAS, the applicant further states that in November 1953 an application was filed as Cal. No. 165-48 to erect a one story brick building 16 ft. 8 in. wide by 40 ft. in depth, to be used as an auto laundry as accessory to the present gas station, repair shop and diner, which was granted on July 13, 1954; that this building has not yet been erected as the owner finds that he needs a larger repair shop in conjunction with his work; that it is now proposed to erect the auto laundry and fill in the space between the laundry and the present building with additional space for auto repairs and front end alignment and a store for sale of accessories; and

WHEREAS, the applicant contends that this section is about 95% undeveloped; that within the 500 ft. radius there are only 10 buildings, most of them of non-conforming use, as follows: block 4806, lots 1, 6 and 7—gas stations and auto washing; lots 44 and 46—blacksmith; lot 42—gas station; lot 38—auto wrecking yard; that Gunhill road is the only street in the area which is cut through; that it is the truck and passenger road for cars going to and leaving Bruckner boulevard and Hutchinson River parkway, both to the east; that the owner's business consists mainly in servicing trucks, and while the drivers stop off at his lunch room, they want their trucks washed and repaired; that the gas station across the street has this facility and the owner needs this use to keep his customers; that he also needs more work space in repairing cars and trucks and rather than continue to do so on the vacant land, would like to cover the space between the proposed laundry and the present building; that in view of the fact that the owner has had possession of the major part of the property since 1928, ten years before the zone change, and it is now being used as a gas station and repair shop, which is a non-conforming use, the proposed additional use for car washing and motor vehicle repair shop would in no way change the character of the neighborhood; that it is proposed to modernize the front of the present building and tie it in with the proposed extension so that it will present a neat and uniform appearance; and

WHEREAS, the applicant states that the present owner has held title to lot 46 since November 1928 and to lot 44 since September 1952; that the assessed valuation of land is \$13,000 and of the building \$15,000 making a total of \$28,000; that the building was erected in 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 26, 1948, under Volume 1, and the amendment adopted on July 27, 1954 by adding thereto:

"that in the event the automatic laundry, as permitted by the Board by resolution adopted July 27, 1954, has not been constructed and the owner desires to construct such building in conjunction with an addition to the present restaurant and repair shop as now proposed and as indicated on plans filed with this application,

Volume III, marked "Received, December 22, 1954" (4 sheets) such extension may be permitted *on condition* that in all other respects the requirements of the Building Code and the Zoning Resolution shall be complied with; that repairs shall be maintained solely within the accessory building and shall be mainly with hand tools for adjustment; that in all other respects the buildings and occupancies shall comply with the requirements as cited in the resolutions above stated; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

701-52-BZ—Vol. II

APPLICANT—Samuel Carr, for Franshir Realty Co., Inc., owner.

SUBJECT—Application reopened May 24, 1955 for consideration of amendment as to reduction in height—re (decision of the borough superintendent) previously granted on condition under sections 7c and 21 of the zoning resolution, permitting in a residence and business use, B area district, the erection and maintenance of a business building using more than the area permitted.

PREMISES AFFECTED—37-11 48th avenue, northwest corner of 38th street, Block 228, Lot 1, formerly Lots 1 and 8, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Samuel Carr and Harold G. Abbey.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Kcating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, on December 16, 1952 this application (Vol. I) was withdrawn by the Board, without prejudice, under sections 7c, 7e and 21 of the zoning resolution, to permit in a residence and business use, B area district, the erection and maintenance of a business building, using more than the area permitted, affecting premises 37-11 48th avenue, northwest corner of 38th street, Block 228, Lot 1, Long Island City, Borough of Queens; and

WHEREAS, on March 3, 1953 application was reopened as Vol. II and restored to the docket, based on corrected plans, subject to regular procedure; and

WHEREAS, on July 14, 1953 application was granted on condition under section 7c to permit an extension of business use into the more restricted area, and under 21 as to extension of area; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened on May 24, 1955 and set for hearing on June 14, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated March 10, 1955 acting on N. B. Applic. 5238-52, reads:

"1. Board of Standards and Appeals approval 701-52-BZ grants approval for erection of 2nd story—proposed omission of 2nd story should be submitted to Board of Standards and Appeals for approval."

and

WHEREAS, the applicant states that due to a revision in the requirements of the lessee of the proposed building, it was found necessary to omit the construction of the second story of said structure at the present time; that the borough superintendent could not grant such permission since it would represent a deviation from the variance as originally granted; that upon investigation and discussion of this problem with a staff engineer of the Board, it was suggested that the request for approval by the Board for the deletion

MINUTES

of the 2nd story of the proposed building be put in the form of a standard application; that deviations from the requirements of the variation as granted under Cal. No. 701-52-BZ, Vol. II are that the 1st story of the proposed structure be erected at the present time, and that it be of class 1 fireproof construction; that aside from these deviations, the proposed building will remain essentially the same as originally proposed; that all requirements as stipulated within the body of the variance shall be otherwise strictly adhered to; that all requested deviations to the structure will not alter nor in any way affect the intent of the proposed building as stated in the resolution; that it is also requested that the Board, in its decision to grant this deviation, do so without prejudice to the addition of the 2nd story as originally proposed at some later date; that permission is requested that the original application be reopened and the resolution amended so as to permit a one story structure as being within the limitations as set forth in the variation originally granted.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 14, 1953, only as to the height of the proposed building, so that as amended this portion of the resolution will read:

"that in the event the owner desires to erect the building one story in height instead of two stories as heretofore permitted, such change in height may be permitted provided the building complies in all other respects with all laws, rules and regulations applicable thereto and to all other requirements of the resolution adopted by the Board on July 14, 1953; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution."

879-54-BZ

APPLICANT—Lama, Proskauer and Prober, for D. Lacy Dayton, owner.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under sections 7e and 7h of the zoning resolution, to permit in a residence and business use district, for a term of ten years, the parking and storage of motor vehicles.

PREMISES AFFECTED—213-41 to 213-47 (213-45 official) 40th avenue and 39-34 to 39-44 Corporal Stone street, northwest corner, Block 6241, Lot 33, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Anna Anhof and Clara A. Watson.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 14, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 40th avenue and Corporal Stone street are in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 1, 1954 acting on Alt. Applic. 2269-54, reads:

"1. The parking & storage of motor vehicles on a plot partially in a Bus. Use Zone & partially in a Res. Use Zone is contrary to Art. 2 Sec. 3 of the Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 100 ft. in depth, presently vacant;

that part of the premises within 100 ft. of Bell boulevard is in a business use district and the balance is in a residence use district; that it is proposed to use the premises for parking and storage of motor vehicles and to erect a 7 ft. by 7 ft. frame office for the parking attendant's use; and

WHEREAS, the applicant contends that the parking situation in this area is acute and the proposal will help alleviate this condition; that the many stores, churches and theatres in this area without parking facilities have created an acute need for additional parking space; that the proposed parking lot will be graded to the street grade and paved with cinders and will be entirely enclosed with a 5 ft. woven wire fence, except for one 20 ft. opening on 40th avenue; and

WHEREAS, the applicant states that the present owner has held title to the property since January 3, 1954 and that the assessed valuation of land is \$6,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended that the application be granted under conditions that will protect the adjoining owners; and

WHEREAS, the applicant states the parking use is primarily for parking cars of his employees located adjacent to plot; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the transient parking of motor vehicles, substantially as proposed and as indicated on plans filed with this application marked "Received November 16, 1954", 3 sheets, *on condition* that all uses on the premises shall be removed and the premises leveled substantially to the grade of 40th avenue, and shall be surfaced with steam cinders or clean gravel, treated with a binder and properly rolled; that there shall be erected on lot lines where walls of adjoining buildings on the lot line do not occur a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 inches; that attached to such fence along Corporal Stone street and along the interior lot line to the north, there shall be a split sapling fence for the full height with the face of same toward the exterior; that there shall be no openings in such fence except one to 40th avenue, not more than 15 feet in width with curb cut opposite, of similar width; that during the term of this variance the premises shall be used for no other use and no buildings shall be erected thereon except there may be a building near the entrance, one story in height, of frame construction, for use as a shelter and office for the attendant which building shall meet the requirements of the Building Code therefor; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that signs shall be restricted to a sign attached to the fence at the entrance, not illuminated and not extending beyond the building line and not exceeding 25 sq. ft. in area advertising only the use and rates charged and such other information as may be required by the commissioner of licenses; and that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this resolution.

915-54-BZ

APPLICANT—Reuben A. Lazarus, for Sullivan-Richards, Inc., owner.

SUBJECT—Application December 3, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles.

PREMISES AFFECTED—235-239 West 22nd street, north side, 276 ft. 9 in. west of 7th avenue, Block 772, Lots 25, 26 and 27, Borough of Manhattan.

MINUTES

APPEARANCES—

For Applicant: Reuben A. Lazarus, J. Alan Harris and J. Sweet.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 14, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; West 22nd street is in residence and retail use, B area, class 1½ height districts; 7th avenue is in a retail use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 12, 1954, acting on Alt. Applic. 1884-54 and superseded by amendment to Alt. Applic. 1884-54 dated March 29, 1955, reads:

"1. Proposed parking lot for motor vehicles is contrary to Art. II, Sect. 3 of the zoning resolution. Reconsideration of this objection was denied on 11/12/54. It will not be further considered."

and

WHEREAS, the applicant states that the premises consist of a plot, 48 ft. 3½ in. frontage by 98 ft. 9 in. in depth, on which are located three buildings, each 4 stories in height, which originally were built for one family homes but occupied as rooming houses until recently; that their condition became so run down and undesirable, although every reasonable effort was made by the owner to maintain the same, that in the interest of safety the owner has closed two of the three buildings, keeping them vacant and unoccupied, and is in the process of having the third building, No. 235, similarly vacated; that it is proposed to demolish the three buildings and utilize the resulting space as a parking lot for motor vehicles; and

WHEREAS, the applicant contends that the previous use of the existing buildings, together with similar uses by most of the other buildings on the block in question, has resulted in a general deterioration of the neighborhood; that permitting the demolition of said buildings and an economic use of the land will be of benefit to the immediate area; that although this area is zoned for residence, it is truly a residence area in name only; that the property in question is between 7th and 8th avenues on the north side of 22nd street and is on the fringe of an area which becomes hopelessly congested during the business hours of each working day; that in addition, the West Side highway, having an entrance for north-bound traffic on 22nd street and an exit for south-bound traffic at or near the same place, causes a heavy flow of vehicles; that therefore the use of the property in question as a public parking lot will be extremely beneficial to all persons doing business in the area; and

WHEREAS, the applicant states that the present owner has held title to the property since March 21, 1952; that the assessed valuation of land is \$31,500 and of the buildings \$16,500 making a total of \$48,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant has stated that he proposes to demolish two or more adjoining houses and file a new application to add to this parking lot and that the present lot will not be used meanwhile; and

WHEREAS, the Board found that this was an appropriate case, in view of the applicant's statement, in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles, of the pleasure car type only as proposed and as indicated on plans filed with this application marked "Received December 3, 1954", 2 sheets, and "March 29, 1955", 1 sheet, on condition that the adjoining lots proposed to be occupied for the same use shall be submitted to the Board by regular application in the usual course for inclusion with this lot; that in the meantime these premises may be occupied for the parking and storage of motor vehicles, on condition that they are leveled substantially to the grade of West 22nd street, surfaced with steam gravel or clean cinders, treated with a binder and properly rolled; that on all interior lot lines where walls of adjoining buildings do not occur there shall be erected a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; that a similar fence shall be erected on the street building line with no opening therein except one, not more than 14 ft. in width, with curb cut opposite of similar width, for exit and entrance; that such opening shall be fitted with gates which shall be closed when the parking lot is not in operation; that during the term of this variance, the premises shall be occupied for no other use than as herein permitted and no building shall be erected thereon except there may be a frame building, one story in height, not exceeding 100 square feet in area, to be used solely as an office and shelter for the attendant; that such building shall be located near the entrance as shown on plans; that the sidewalk in front of the premises shall be repaired or reconstructed to the satisfaction of the borough president; that signs shall be restricted to one sign attached to the fence near the entrance not exceeding 25 square feet, not illuminated nor extending beyond the building line advertising only the parking use, the rates charged and such other information as may be required by the Commissioner of Licenses; that such portable firefighting appliances shall be installed as the fire commissioner shall direct; that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this resolution.

978-54-BZ

APPLICANT—Max G. Rome, for Board of Education of City of New York, owner.

SUBJECT—Application December 29, 1954 (decision of the borough superintendent), under sections 7f, 7i and 21 of the zoning resolution, to permit in a retail use district the use of portion of first floor for the parking and storage of city owned (Board of Education) and employees' passenger cars, with greasing and minor motor vehicle repairs to the city owned cars.

PREMISES AFFECTED—131 Livingston street, north side, 132 ft. 6 in. east of Red Hook lane (Pearl street) and 409 Red Hook lane, Block 154, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Max G. Rome.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating 3

Negative 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 14, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, B area, class 2

MINUTES

height district; Red Hook lane is in restricted retail and retail use, B area, class 2 height districts; Livingston street is in retail and business use, B area, class 2 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 3, 1954 acting on Alt. Applic. 2535-54, reads:

"1. The proposed use of portion of the 1st floor of this bldg. located in a retail use district for garage for the parking and storage of 35 occupants and employees' passenger cars with greasing and minor repairs to keep Bd. of Education cars in running condition is contrary to Art. 11 Sect. 4-A of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 65 ft. frontage by 166 ft. 8 in. in depth, irregular, on which is located a building 65 ft. frontage by 166 ft. 8 in. in depth on Livingston street and 76 ft. frontage by 140 ft. 8 in. in depth, on Red Hook lane, of class 1 construction six stories and cellar, now located in a retail use district, which prior to July 28, 1952 had been a business use district; that this building was erected in 1907 as a storage and office building for the Board of Education, with predominantly storage areas on all of the lower floors and the 6th floor arranged exclusively for offices; that it is proposed to use portion of 1st floor for parking of employees' and Board of Education motor vehicles; that it is further proposed to service (greasing) and make minor motor vehicle repairs on city owned cars; and

WHEREAS, the applicant further states that there are no records available which indicate the time or extent of the original garage installation; that under Alt. Applic. 9761-22, an approval was obtained from the department of housing and buildings for increasing the area of the garage so as to accommodate five cars; that on November 17, 1935 the fire department issued permit No. B60323 which indicated a capacity of 15 cars; that under Alt. Applic. 340-42 approval was obtained for enlarging the existing car storage space on the 1st floor and while this application did not indicate a specific increase in the number of cars to be stored, the approved drawing did indicate the extent of the enlargement of the car storage space, which is the same area that is in use today; that certificate of occupancy was never obtained for this alteration; that on February 9, 1945 the fire department issued permit No. B257154 which indicated a capacity of 20 cars and on December 15, 1945 issued permit No. B312692 which also indicated a capacity of 20 cars; that on October 28, 1954 the department of housing and buildings approved Alt. Applic. 2535-54 which provided that the existing storage and office building will be converted so that the 4th, 5th and 6th floors will be used exclusively for offices and the remaining occupancy of the building will be unchanged; that the present 1st floor parking of occupant and employee passenger cars only, will continue to be used as such; that this work is now under construction; that on November 17, 1954 an amendment to Alt. Applic. 2535-54 was filed which provided for a proposed change in occupancy of the portion of the 1st floor now indicated to be used as parking of occupant and employee passenger cars only, to garage for the parking and storage of 35 occupant and employee passenger cars only, and existing lift to be used for greasing and minor repairs to keep Board of Education cars in running condition; that in acting on this amendment the department of housing and buildings denied request for reconsideration; and

WHEREAS, the applicant contends that it is neither proposed nor necessary to do any work to provide for this change in use because the Board of Education had assumed that the prior approvals obtained constituted legal use and therefore has been utilizing the space accordingly for the past 14 years; that during the past 14 years, the use of this garage by the Board of Education space has not produced a single complaint by any of the surrounding property owners; that the previous domination of storage space in this building resulted in considerable trucking movement; that the storage area in this building is now being reduced by approximately 50% thereby assuring a corresponding de-

sirable decrease in trucking movement; that the garage space involved in this appeal is an important adjunct to the proper administration of the extensive education system, including its buildings, and this administration is greatly facilitated by the present proximity (approximately 250 ft.) of the garage space to the main headquarters building at 110 Livingston street; that because of the benefits which will accrue to the people of the City of New York, it is requested that the Board grant the variance which would permit the Board of Education to continue its proposed use of the space involved; and

WHEREAS, the applicant states that the present owner has held title to lot 16 since June 22, 1891; lot 17, April 13, 1891; lot 18, May 5, 1925; lot 25, January 8, 1954; that the assessed valuation of land is \$125,000 and of the building \$375,000 making a total of \$500,000; that the building was erected in 1907; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten years to permit the storage of motor vehicles, as proposed and as indicated on plans filed with this application marked, "Received, December 29, 1954" (11 sheets) and to permit parking in the location as proposed and as indicated on such plans, and under Section 7i, to permit servicing of passenger cars belonging to the Board of Education and its employees and to include minor repairs with hand tools only, in the spaces as proposed, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that gasoline storage on the premises as may be permitted by the Fire Commissioner solely for use by City owned automobiles under proper license therefor provided there is no sale to the public; and that all permits shall be obtained and all work completed within six months and revised Certificate of Occupancy shall be obtained.

979-54-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application December 29, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business use district the reconstruction of existing gasoline service station, lubricatorium and auto laundry (non-automatic), and to permit the addition of motor vehicle repairs and the parking of motor vehicles awaiting service.

PREMISES AFFECTED—5961 Broadway, southwest corner of 242nd street, Block 3414, Lots 621, 622 and 626, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Krating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; laid over to June 14, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, B area, class 1 height district; Broadway and West 242nd street are in residence, retail and business use, B area, class 1 height districts; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated December 27, 1954 acting on N.B. Applic. 1451-54, reads:

"1. The reconstruction of a gasoline service station, lubritorium and auto laundry (non automatic) and the additional uses of motor auto repairing with hand tools only and the parking of motor vehicles awaiting service in a business use district is contrary to Art. II Sec. 4a of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 101.24 ft. and 100.87 ft. frontage by 100 ft. and 125 ft. in depth, irregular, on which is located a gasoline service station, lubritorium, car wash and office, with two 1-story structures used as office and garage; that it is proposed to reconstruct the existing gasoline station and demolish existing office and erect a structure 45 ft. by 28 ft. 8 in., one story, 14 ft. in height, of class 3 construction, to be used as lubritorium, auto laundry, motor vehicle repairs and office; that it is also proposed to have the present garage remain; and

WHEREAS, the applicant states that the plot known as block 3414, lots 621, 622 and 626 are now in the process of being combined into a single lot; that the owner purchased this gas station December 5, 1947 at a cost of \$70,000 and fire department and building department records show that the gas station was established prior to effective zoning on June 15, 1925 for this use in a business use district; that on July 25, 1916, Broadway as well as West 242nd street were zoned for business use for a depth of 100 ft., class 1½ height district and B area; that under amendment No. 2108, CPC 10107, effective January 14, 1954 the entire block was zoned for business use with the exception of a 100 ft. strip along Manhattan College parkway, formerly Spuyten Duyvil parkway; that the height class was changed from 1¼ to 1; that section 7A of the zoning resolution does not apply inasmuch as no curb cut or other restriction is within 75 ft. of a residence use district and there has been no change in the area district; and

WHEREAS, the applicant contends that fire department records, both old folder number and new account number, show that this gas station has been in continuous operation since 1921 and permits have been issued annually; that the metes and bounds given are similar to the present application and there will be no increase in area; that building department records show Slip Applic. No. 829-22 was approved November 24, 1922 for an extension to the present 10 ft. by 14 ft. metal building for use as an office in connection with existing gas station; that N.B. Applic. 545-25 was approved May 15, 1925 for the 25 ft. by 45 ft. concrete block building for use as a 4-car garage, metes and bounds being similar to the area in the present application; that existing conditions consist of the aforementioned metal building used as an office in conjunction with the gas station, the 25 ft. by 45 ft. concrete block 4-car garage, six 550 gallon gas tanks, one outside grease pit, one outside hydraulic lift, four gas pumps set on two concrete pump islands, a granite block retaining wall between 3 ft. and 4 ft. high along the southerly lot line of the property, a wooden lattice fence and a row of hedges to the rear of the present office building, one 38 ft. 6 in. and one 16 ft. curb cut on Broadway and one 49 ft. 6 in. and one 44 ft. 4 in. curb cut on West 242nd street; that proposed conditions provide for regrading the site substantially to the level of the adjoining streets, the removal of the present metal office building, the removal of the outside hydraulic lift and grease pit, the permanently sealing or removing the present six 550 gallon gas tanks, the removal of the wood lattice fence, the removal of the present gasoline pump islands and the repairing of the doors in the present 4-car garage building; that it is also proposed to erect a new 2-bay accessory building, 45 ft. by 28 ft. 8 in. for use, as sales office, combination heater and storage room, rest rooms, a one bay non-automatic car wash, a one-bay lubritorium and minor repair shop; that the new building will be finished on the two street fronts with porcelain enamel on masonry; that the present legally permitted building used

as a 4-car garage is to remain; that it is proposed to install ten new 550 gallon gas tanks together with two dual and two single dispensing pumps, set on concrete pump islands 15 ft. back from the street lot lines and to install one 550 gallon waste oil tank and one 550 gallon fuel oil tank together with an approved type ceiling suspended furnace for heating purposes; that it is proposed to erect two brand signs, one on Broadway and one on West 242nd street, to re-use the present stone wall along the southerly lot line and to erect anew masonry wall along the westerly lot line where not occupied by adjoining building; that the new wall as well as the altered wall will have wrought iron pickets on top to a total height of 5 ft. 6 in.; that new bituminous paving will be installed in portions of the yard and sidewalk areas, and sidewalks will be repaired or new ones installed as required; that existing curb cuts will be rearranged so that the present four cuts shall be reduced to one 35 ft. cut, 5 ft. from the southerly lot line on Broadway and two 30 ft. cuts on West 242nd street; that competitive demands require the modernization of this outlet; and

WHEREAS, the applicant states that the present owner has held title to the property since December 5, 1947; that the assessed valuation of land is \$55,000 and of the building \$5,000 making a total of \$60,000; that the building was erected 1924; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the lawfully existing gasoline service station to be reconstructed and rearranged, substantially as proposed and as indicated on plans filed with this application, marked "Received May 16, 1955", 5 sheets, *on condition* that all buildings proposed to be removed shall be removed and the premises constructed and arranged as indicated on such plans; that the accessory building shall be of the size, location and design as proposed, except that the exterior shall be of face brick facing the streets and the balance may be of painted common brick; that there shall be no cellar under the accessory building and it shall comply with the requirements of the Building Code in all respects; that on the rear lot line to the west there shall be a masonry wall constructed in line with the brick wall of existing building on lot 619; that such wall shall be not less than 5 ft. 6 in. in height; that along the southerly wall where walls of adjoining buildings do not occur on the lot line, there shall be erected as proposed a masonry wall with a steel picket fence on top to a total height of 5 ft. 6 inches; that curb cuts shall be restricted to the existing and proposed cuts shown on plans of proposed conditions, erected where shown thereon; that the sidewalk and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; that pumps shall be of an approved low type, located not nearer than 15 feet to the street building line; that the number of approved gasoline storage tanks shall not exceed ten 550 gallon tanks; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that under section 7i there may be motor vehicle repairing with hand tools only for adjustments made solely within the accessory building; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale, but permitting such sign to extend beyond the building line for a distance of not over 4 feet; that such sign shall be erected on the curved portion of the lot adjacent to Broadway and 242nd street so as to be read from both

MINUTES

streets; that under section 7c there may be parking of motor vehicles awaiting service; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

Adjourned: 1:15 P. M.

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on March 1, 1955, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 1, 1955, by adding thereto:

"that in the event the owner desires to face the accessory building with face brick and to construct the lot line walls as required to a height of 5 ft. 6 in., faced with similar brick except where it is required to carry the walls to a higher point, as indicated on revised plan marked 'Received June 1, 1955', (1 sheet), such wall due to the grade conditions may be constructed as shown thereon and the return of the wall on each street

MINUTES

may be six feet, *on condition* that in all other respects the resolution above cited shall be complied with." (N.B. 1868/54)

11-34-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Fay Beinstock, owner (Bolton McLucas, lessee).

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, the change of use from plumbing supplies to plumbing supplies and the parking and storage of motor vehicles on unbuilt upon portion of plot.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure to consider additional use.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

905-53-BZ—Vol. II

APPLICANT—Paul Trapani, for John Missali, owner.

SUBJECT—Application for consideration—reopening as for rehearing under alleged new facts—re Application (decision of the borough superintendent), previously denied, under sections 7e and 21 of the zoning resolution, to permit in a residence use district the maintenance of an existing one story structure as a commercial building (manufacturing).

PREMISES AFFECTED—900-900A 213th street, south-east corner of Bronxwood avenue, Block 4683, Lot 49, Borough of the Bronx.

APPEARANCES—

For Applicant: Paul Trapani, John R. Damico and John Missale.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, subject to the regular procedure, for rehearing as Vol. II.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

657-40-SM

APPLICANT—Triangle Steel Products Corp., owner-manufacturer.

SUBJECT—Application for consideration—re rescindment of resolution adopted November 12, 1952—re Triangle Three Hour Hollow Metal Fire Door; previously approved.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Resolution of November 12, 1952 rescinded on request of applicant.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this material was approved by the Board, on July 16, 1940, on certain conditions; and

WHEREAS, the resolution was amended in accordance with the report of the Committee on Test, on July 22, 1947; and

WHEREAS, this application was reopened for test and report, subject to regular procedure, on November 12, 1952; and

WHEREAS, the applicant requested a rescindment of the reopening of November 12, 1952.

Resolved, that the action of the Board, on November 12, 1952, be and hereby is *rescinded*.

368-47-SA—Vol. II

APPLICANT—General Machine Company, Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II as to additional models for test and report—re EFM Oil Burner, Models CT-30, CT-55 and CT-120, Gemaco Oil Burner, Models AT-45, AT-75 and AT-100; previously approved.

APPEARANCES—

For Applicant: Frederick L. Hilder.

ACTION OF BOARD—Application reopened as to additional models for test and report.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

Adjourned: 3:35 P.M.

JOSEPH J. DOYLE, *Chief Clerk*.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on April 26, 1955, as they appeared in Bulletin No. 18, Vol. 40, are hereby corrected to read as follows:

162-38-BZ—Vol. II

APPLICANT—John J. Tricarico, for Paul Nicolopoulos, owner.

SUBJECT—Application November 15, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in the business use portion of a plot located in a residence and business use, C area district, the erection of an extension to existing structure using more than the area permitted (previously granted by the Board an extension and to omit required rear yard).

PREMISES AFFECTED—781-787 East 31st street, east side, 40 ft. north of Avenue H, Block 7559, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. Tricarico.

For Opposition: Mrs. L. F. Hollenbach.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on December 7, 1954 subject to regular procedure and restored to docket to consider extension in area of proposed addition; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for further hearing, for appearance of the applicant and for inspection; then to April 26, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 31st street are in residence and business use, C area, class 1¼ height districts; Avenue H is in a business use, C area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1954 acting on Alt. Applic. 3487-54, reads:

"1. Proposed extension exceeds area for a 'C' district & is contrary to Art. 4 Sect. 13b & 19e of the zone resolution, note these premises were subject to a variation granted by Bd. of Standards & Appeals under 162-38-BZ & 169-41-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 67 ft. 6 in. frontage by 100 ft. in depth, on which is located a one-story brick building, which was granted under Cal. 162-38-BZ and 169-41-A; that the plot is in business and residential use, C area districts; that the use district boundary line between the business use and residence use districts parallel, at 100 ft. north of East 31st street and Avenue H and that this line leaves a small area at the northeast corner of the subject plot in the residence district; that this area, for a distance of 6 ft. 7 in. along the rear lot line and for 28 ft. along the north lot line is

MINUTES

equal to about 185 sq. ft. and will be kept vacant; and

WHEREAS, the applicant contends that the adjoining property bordering on the south has 100% coverage; that there has been no material change in the community since the original approval by the Board; that the owner has operated the premises continually as a restaurant since the date of purchase in June 1944; that a grant of this application will not adversely affect light or ventilation of any adjoining building and that it is mandatory for the owner to enlarge the building in order to operate his business as an efficient and profitable enterprise; and

WHEREAS, the applicant states that the present owner has held title to the property since June 18, 1944; that the assessed valuation of land is \$27,000 and of the building \$52,000 making a total of \$79,000; that the building was erected in 1941; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area dis-

trict regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to extension of area to permit the extension of the building substantially as proposed and as indicated on plans filed with this application marked, "Received, November 15, 1954" (5 sheets) *on condition* that the extension shall not be increased beyond the height and areas as therein proposed; that there shall be no windows on the rear or side lines; that there shall be no *windows* to the adjoining portion of the premises proposed to be unbuilt upon; that such open portion shall be maintained and paved and drained; that suitable fences shall be maintained thereon against such open space on the side lot line and on the rear lot line and that there shall be no skylight in the roof of the proposed extension; that ventilation shall be by mechanical means with equipment venting toward the street; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

* Correction—The word 'openings' changed to '*windows*' in the resolution, as indicated in italics.

PUBLIC HEARING

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, June 24, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954 and further hearing on March 25, 1955.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those accepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

PUBLIC HEARING

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

- 1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.
 - 1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.
 - 1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.
 - 1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.
 - 1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

- 1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.
- 1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.
- 1.4. The term "hereafter established" shall mean those dry cleaning establishments established after January 1, 1953.
- 1.5. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.
- 1.6. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.7. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings and obtain its approval. Any prior approval shall be a compliance with this rule.
- 2.2. The requirements of Rule 2.1. shall not apply to existing dry cleaning establishments.
- 2.3. No dry cleaning unit shall be installed unless such unit is approved by the Board of Standards and Appeals.
- 2.4. The use of any existing commercial premises, as defined in Article 4, Administrative Code, for any dry cleaning establishment shall not be deemed to be a Change of Occupancy within the meaning of Section C26-185.0 of the Administrative Code.
- 2.5. The dry load capacity of all dry cleaning units shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.6. No dry cleaning solvent shall be used unless such solvent has been tested and rated by the Fire Commissioner.
- 2.7. It shall be unlawful in any dry cleaning unit approved by the Board to use any solvent having a flashpoint other than that for which the dry cleaning unit has been approved by the Board.
- 2.8. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of

PUBLIC HEARING

employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles, but such area may include, in conjunction with the dry cleaning establishment, unless otherwise prohibited by law, ordinary storage, boilers, washing equipment, compressors, pumps and filtration equipment.

3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by lawful non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, and fur storage.

3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building, except that this Rule 3.2 shall not apply to those establishments created prior to the effective date of these Rules:

3.2.1. which is of wood frame construction;

3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;

3.2.3. any part of which establishment is within 20 feet of any public building, as defined in Section C26-235.0 of the Administrative Code

Rule 4. Egress.

4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:

4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following, except that this Rule 5 shall not apply to those establishments created prior to the effective date of these Rules:

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule

referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings within six feet of any dry cleaning unit shall be fire-retarded with one-hour fire resistive materials and doors and with two approved automatic wet pipe sprinkler heads located over the cleaning unit which may have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following, except that this Rule 6 shall not apply to those establishments created prior to the effective date of these Rules:

6.1. Unless otherwise specifically exempted by law, no power or heating boiler shall be permitted in the same area or space where dry cleaning units are located unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.3. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.4. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

PUBLIC HEARING

7.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide at least four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units, and such ventilation as is otherwise required by law.

8.2. All Class A dry cleaning establishments shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of all dry cleaning establishments whether Class A or Class B shall terminate to the outer air in the following manner:

- (1) At least 7 feet above the roof, street, yard or court grade on which it opens of the premises in which said establishment shall be located, and
- (2) the exhaust shall be under static pressure by reason of a mechanical fan, and
- (3) The terminal of the exhaust, shall be at least five feet from any window or ventilating opening if said ventilating window or ventilating opening lies on the same plane as the exhaust terminal and when the ventilating windows, or other ventilating openings lie on a plane which faces in the

direction of the exhaust terminal such terminal shall be at least 10 feet away from the same, and

- (4) All direct equipment exhausts or vents shall be provided with mesh lint arrestors which shall be kept clean unless lint traps are provided on the units, and
- (5) The requirements of subdivisions (1) and (3) of this Rule 8.3 shall not apply to those establishments created prior to the effective date of these Rules.

Rule 9. Operating Precautions.

9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments.

9.2. The proprietor of any Class A establishment shall furnish to any person cleaning out a dry cleaning unit an approved type respirator for his use during the process of cleaning out any such unit.

9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

Rule 12.

If any term, part or provision of any of the aforesaid Rules shall be held unconstitutional or ineffective in whole or in part, such determination shall not be deemed to invalidate the remaining terms, parts or provisions of these Rules.

PUBLIC HEARING

PROPOSED AMENDMENT TO RULES FOR INSPECTION OF APPROVED OPENING PROTECTIVE ASSEMBLIES

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 20, 1939, EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, NOVEMBER 13, 1939 AND AMENDED ON JUNE 8, 1945, EFFECTIVE JULY 2, 1945.

(1139-39-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Wednesday afternoon, July 6, 1955, in Room 1013, Municipal Building, Manhattan, on Proposed Amendment to Rules for Inspection of Approved Opening Protective Assemblies.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of

the City of New York and C26-189.0 Administrative Building Code and C26-610.0 Administrative Building Code and C26-660.0, 661.0 and 662.0 Administrative Building Code.

Note: Matter in parenthesis to be omitted.

Rule 2. Inspections.

2.1 No Opening Protective Assemblies shall be installed in any building until such Opening Protective Assemblies have been inspected and labelled (either by the Borough Superintendent, or) by a recognized testing laboratory or other qualified person or agency approved by the Board as having proper facilities.

RULES

RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

Adopted by The Board of Standards and Appeals,
March 11, 1955, Effective April 4, 1955.
Cal. No. 64-55-SR

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
 - 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
 - 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
 - 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
 - 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
 - 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The following statement is explanatory only of the reasons presented to the Board for adopting the rules, but in no way is any part of this statement to be considered as contravening any part of the rules adopted.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

COURT DECISION

plaintiff. About two years ago a building was erected on what had been the westerly portion of the original parking space. The easterly portion, separated from the synagogue by the new building, is still operated as an open parking lot.

On December 30, 1953, Lincoln applied, pursuant to section 21-F of the Zoning Resolution of the City of New York, for approval of the erection upon the site of the present parking lot of a modern, fireproof public garage designed to hold 450 cars. Section 21-F, to the extent that it is pertinent, provides as follows: "(b) Except where § 21-A of this Resolution applies in other than manufacturing and unrestricted use districts, the City Planning Commission may by resolution after public notice and hearing approve the use, subject to appropriate conditions and safeguards, of any building or premises as a garage or parking facility for one hundred and fifty (150) or more motor vehicles * * *. Such resolution of approval, together with a copy of the site plan, shall be filed with the Secretary of the Board of Estimate within five (5) days of its adoption. It shall take effect immediately upon approval by a majority vote of the Board of Estimate. * * * (c) * * * Nothing contained in this Section shall divest the Board (of Standards and Appeals) of its jurisdiction to vary the terms of the Zoning Resolution as provided in § 21 thereof. An applicant who has failed to receive a site approval under this Section may apply to the Board under § 7 to vary in the instant case the application of the Zoning Resolution."

The proposed garage lay in a retail use district, and so had to conform to the provisions of section 21-A. Section 21-A, as it then read, prohibited the operation of garages having a vehicular entrance within 200 feet from an entrance or exit of a school maintained by an established religious group.

On March 3, 1954, defendant city planning commission unanimously passed a resolution approving Lincoln's application to construct a garage of specified character, dimensions and capacity. One of a number of circumscribing conditions was "That no facilities shall be provided for gasoline service or oil selling or the repairing of motor vehicles". On March 11, 1954, defendant board of estimate unanimously approved the action of the city planning commission.

The actions of both the planning commission and the board of estimate followed public hearings, duly noticed, at both of which plaintiff appeared and opposed the application strenuously. Plaintiff's major contention was that it maintained a school in the synagogue building and because of that fact, under section 21-A of the zoning resolution as it read prior to amendment, the commission lacked the power in the first instance to authorize construction of the proposed garage.

Plaintiff had conducted a small religious school for a number of years, which was within the proscribed distance from the projected garage. In the year 1952-1953, the school had ten pupils. In 1953-1954, it had no pupils or teachers and was not in operation. Plaintiff termed this a temporary suspension of the school, caused by resignation of the directing rabbi and the difficulty encountered in finding a successor.

The planning commission and the board of estimate found that plaintiff was not operating a school—at least within the contemplation of section 21-A. Defendants contend that in any event the issue of whether plaintiff does in fact conduct a school no longer survives, because on May 29, 1954, the board of estimate approved and enacted a resolution of the planning commission amending section 21-A. It narrowed the restriction against the operation of garages so as to exclude only such garages as sell gasoline and oil. Lincoln's application had been approved on condition that it provide no facilities for the sale of such commodities. Therefore, even if plaintiff maintains a school, the proposed garage does not offend section 21-A, as amended, provided that amendment is valid.

Plaintiff's amended complaint seeks an injunction restraining defendant Lincoln from applying for any building permit or from proceeding to construct the proposed garage. It alleges that the religious school is still in existence. It further asserts that section 21-F is void and that the amendment to section 21-A of the zoning resolution is unconstitutional and void, and it seeks a declaratory judgment to that effect.

Special Term, in denying defendant Lincoln's motion for summary judgment, held that it should not reach the constitutional questions raised, since there were two issues of fact that first had to be resolved. These questions were: (1) whether in fact plaintiff's religious school was no longer in existence within the meaning of section 21-A before its amendment; and (2) whether the action of the board of estimate in approving Lincoln's application was for the benefit of Lincoln alone or for the benefit of the public.

Lincoln appeals from the order denying its motion for summary judgment. Defendants board of estimate and city planning commission filed an answer too late to join in the motion, but have authorized a statement that they join in seeking the relief asked by Lincoln.

Special Term relied on *Matter of Peters v. New York City Housing Auth.* (307 N. Y. 519), in deciding that the propounded issues of constitutionality should await the resolution of factual issues that might conclude the litigation. Of course, constitutional questions should not be decided before it is necessary to do so or when any alternative grounds of effective disposition present themselves (*Rescue Army v. Municipal Court*, 331 U. S. 549, 569; *Lynbrook Gardens v. Ullmann*, 291 N. Y. 472, certiorari denied 322 U. S. 742).

Plaintiff, however, is attacking the constitutionality of statutes whose substance or counterparts have been held to be constitutional before. Because of prior adjudication bearing on the validity and constitutionality of the statutes involved here the questions freshly raised by this motion can be answered readily. The mere assertion of a constitutional question does not warrant postponing its determination when the governing principles have been enunciated time and again in analogous situations. When such a decision will not tend to break new ground, but rather to follow the leaders, there appears to be no point in first trying out an immaterial issue.

The question of fact allegedly requiring priority in determination relates to whether the governmental bodies in approving Lincoln's application acted in the interest of defendant Lincoln alone or in the interest of the public. In *Matter of City of New York (Ely Ave.)* (217 N. Y.

45, 59), the court stated that it would not "impute to the legislature or the discretionary action of municipal bodies clothed with legislative powers other than public motives for their acts; that the presumption that legislative action has been devised and adopted on adequate information and under the influence of correct motives will be applied to the discretionary action of municipal bodies and will preclude all collateral attack (*McCabe v. City of New York*, 213 N. Y. 468), and this rule has long been established by decisions of this court."

Plaintiff made no effort to combat the presumption thus raised. Although plaintiff opposed the granting of a garage permit to Lincoln vigorously and at great length before the planning commission, the board of estimate and at Special Term, it has not hitherto asserted that the board of estimate's approval constituted special legislation for the benefit of Lincoln alone. The record is barren of any facts in support of such a claim. To the contrary, the record indicates the planning commission and the board gave careful and intelligent consideration to the urgent need for off-street parking facilities in the area of the proposed garage site. Six large department stores within three blocks of the location, and Manhattan Centre, which is a large public hall, and the Hotel New Yorker, both on the same block, expressed approval. So did four associations representing local business interests. Proof positive was presented to the effect that available off-street, transient parking facilities in the area are grossly inadequate.

Section 21-A of the zoning law, as it now reads, if it is constitutional, must govern the disposition of this case. In *Boardwalk & Seashore Corp. v. Murdock* (286 N. Y. 494), the zoning resolution was amended while the case was on appeal. The court held the law as amended had to be followed, although it dictated an affirmance where otherwise a reversal would have been required.

Plaintiff attacks the amendment to section 21-A on the ground that it is so irrational in its terms and operation that it bears no substantial relation to the public health, morals, safety and welfare. "Upon parties who attack an ordinance * * * rests the burden of showing that the regulation assailed is not justified under the police power of the state by any reasonable interpretation of the facts." (*Shepard v. Village of Skaneateles*, 300 N. Y. 115, 118.)

In approving and recommending the amendment to section 21-A the planning commission was evidently moved by many of the same considerations, viewed however against the overall city experience, as had prompted approval of the Lincoln application a few months earlier. Hearings were held at which opponents and proponents of the announced proposal were heard, six months of painstaking study was had, and as a result, the commission made the finding that there was insufficient city-wide provision for off-street accommodation of motor vehicles. The amendment was designed to liberalize section 21-A since "attempts to provide off-street accommodations are negated to a very considerable extent by the accumulated highly restrictive regulations of Section 21-A as it now exists" (Report of City Planning Comm. to Bd. of Estimate). In fact, the commission was giving serious consideration to the revocation of section 21-A entirely, due to the anomalous situations it bred.

In the light of the record the amendment was a reasonable legislative act, immune from plaintiff's attack (*Nappi v. La Guardia*, 184 Misc. 775, 783, 784, affd. without opinion 295 N. Y. 652; *McCabe v. City of New York*, 281 N. Y. 349, 353; *Village of Euclid v. Ambler Co.*, 272 U. S. 365, 388).

Plaintiff also charges that the amendment was "tailor-made" to suit the appellant and was designed to overcome the fatal weaknesses in the approval of his application under the original section 21-A. The hearings before the planning commission and the board of estimate indicate clearly that the amendment was intended to be city-wide in scope and of general applicability. It was evidently enacted after careful consideration and study of its effect upon thousands of schools and hospitals as contrasted with its effect upon a critical city-wide off-street parking problem. Such balancing of relative harm, benefit and convenience is peculiarly a legislative function.

In *Rodgers v. Village of Tarrytown* (302 N. Y. 115, 124), a charge of illegal "spot zoning" for the benefit of one owner and the detriment of other owners was dismissed as without substance. It was said that the relevant inquiry is "whether it was accomplished for the benefit of individual owners rather than pursuant to a comprehensive plan for the general welfare of the community". (See, also, *Nappi v. La Guardia*, *supra*, pp. 780-781.)

Freeman v. City of Yonkers (205 Misc. 947), relied on by plaintiff and cited by Special Term, affords little comfort to plaintiff. In that case, upon ample evidence, the court found that the ordinance under attack constituted special legislation to change the zone classification of a single lot.

There remains plaintiff's contention that section 21-F of the zoning resolution purports to confer on the planning commission the power to grant "variances"; and to that extent that the section is void. It argues that the basic function of the commission is to prepare the zoning map of the city and to revise it from time to time; while the power to vary the application of the zoning resolution in a specific case is reposed in the board of standards and appeals.

Under subdivision 5 of section 666 of the New York City Charter the board is given the power to "determine and vary the application of the building zone resolution as may be provided in such resolution." If it determines "that there existed unnecessary hardships in the way of carrying out the strict letter of the provisions of the zone resolution and that substantial justice would be promoted both to the property owners and the public interest" (*People ex rel. Sheldon v. Board of Appeals*, 234 N. Y. 484, 495) it may modify or vary the application of the regulations, in harmony with their general purposes.

It may well be that by allowing a variance the board could have given Lincoln the relief it sought in its application to the commission. It does not follow that in the legislative zoning scheme such power precluded change in the applicable zoning resolution by reason of which substantially similar results would be obtained.

Section 21-F was adopted in 1949, and modified to its present form in 1950, pursuant to section 200 of the charter. The pertinent portions

COURT DECISION

of the latter section read as follows: "Any existing resolution * * * to regulate and restrict * * * the location of buildings designed for specific uses * * * including any such regulation which provides that the board of standards and appeals may determine and vary the application of such resolutions * * * may be amended, repealed or added to only in the following manner:" (emphasis supplied). (Then follow the technical provisions for notice, hearing and enactment.)

The power lodged in the board of standards and appeals to grant variances stems in the first instance from the board of estimate, which was authorized by the Legislature to so provide by regulations (L. 1917, ch. 601).

The city planning commission's report to the board of estimate (dated July 13, 1949) stressed the intolerable condition of traffic congestion and the urgent need to stimulate construction of adequate garage and parking facilities. This evidently could not be accomplished by the piecemeal procedure for the granting of variances, but required a general resolution of uniform city-wide application. Such a resolution would not be inconsistent with the variance granting function of the board.

This is indicated by the following excerpt from the above-mentioned report: "The relationship between the Board of Estimate, City Planning Commission and the Board of Standards and Appeals and their jurisdiction remains unchanged. At present, if a zoning change is approved by the Planning Commission, it goes to the Board of Estimate as required in Section 200 of the Charter. If a zoning change be disapproved by the City Planning Commission, the unsuccessful applicant may seek relief from the Board of Standards and Appeals under either Section 21 (the hardship section) or any of the subdivisions under Section 7. Under the proposed amendment, an applicant may apply to the Board of Standards and Appeals for a variance under Section 21 of the Zoning Resolution, on the grounds of unnecessary hardship. The applicant may also apply to the City Planning Commission for a site approval. Should the Planning Commission refuse to grant a site approval, the unsuccessful applicant would have the right to seek relief from the Board of Standards and Appeals as set forth in Sections 21 and 7 of the Zoning Resolution. From any action of the Board of

Standards and Appeals an aggrieved party has a right of appeal by way of certiorari to the Supreme Court. An unsuccessful applicant for a site approval under the proposed Section 21-F may thereafter seek relief from the Board of Standards and Appeals, but such action is not construed as an appeal from the decision of the City Planning Commission. The jurisdiction of the Board of Standards and Appeals to vary the terms of the Zoning Resolution as provided in Section 21 thereof will remain unchanged. The right of the applicant thereafter to initiate a proceeding before the Board of Standards and Appeals under the Zoning Resolution remains unimpaired."

The zoning function is not confined to mere map making. When, as here, the resolution provides for relief that is general and uniform in scope and applicability, the governmental unit administering such resolution is performing a zoning function (*Green Point Sav. Bank v. Board of Zoning Appeals*, 281 N. Y. 534).

This sort of zoning provision—enactment of a general resolution, withholding blanket approval beforehand, and requiring subsequent separate authorization for specific uses—has been sustained by the courts as a valid exercise of the legislative zoning power rather than the grant of a variance (*Rodgers v. Village of Tarrytown*, 302 N. Y. 115, 122, *supra*; *Green Point Sav. Bank v. Board of Zoning Appeals*, *supra*, p. 539; *Nappi v. La Guardia*, *supra*, p. 781). As has been noted, in each instance the approving resolution of the planning commission must be further approved by the board of estimate.

Since sections 21-A and 21-F of the zoning resolution are valid and constitutional both as enacted and as they bear upon the facts in this case, and since such a holding leaves no issue of fact to be determined, the order appealed from should be reversed and summary judgment granted dismissing the complaint.

PECK, P. J., CALLAHAN, BARSTOW and RABIN, JJ., concur.

Order unanimously reversed, with \$20 costs and disbursements to the appellant, the motion granted, and judgment is directed to be entered in favor of the defendant dismissing the complaint herein, with costs.

Petition to Court of Appeals for further review was denied.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

DOCKET

New Cases filed up to June 21, 1955

Cal No. Dept. Premises Affected

461-55-BZ—H.B.Bx.—2642 Marion avenue, east side, 139 ft. north of East 194th street, Block 3282, Lots 10 and 11, Borough of The Bronx, Alt. 186-55—re parking and storage of motor vehicles in residence use district.

462-55-A—F.D.—16-24 West 47th street, south side, 250 ft. west of 5th avenue, Block 1262, Lots 48-51, Borough of Manhattan, Violation Order 43418—re certificate of fitness, etc.

463-55-BZ—H.B.Q.—208-20 Northern boulevard, south side, 125 ft. west of Oceania street and 206-63 45th road, Block 7305, Lot 29, Bayside, Borough of Queens, Alt. 824-55—re change in use of store and dwelling to body and fender repairs, welding, painting, parking of cars to be serviced, etc.

464-55-A—H.B.Q.—208-20 Northern boulevard, south side, 125 ft. west of Oceania street and 206-63 45th road, Block 7305, Lot 29, Bayside, Borough of Queens, Alt. 824-55—re use of 2 story building for repair shop—class III construction.

465-55-BZ—H.B.B.—486-496 Coney Island avenue, west side, 80 ft. 2½ in. north of Turner place and 820-826 Church avenue, Block 5341, Lots 8 and 17, Borough of Brooklyn, Alt. 347-55—re change in occupancy of gasoline station, public garage, parking lot, etc. to boiler room, gasoline station, public garage, repairs, welding, etc., parking, office, etc.

466-55-A—H.B.B.—486-496 Coney Island avenue, west side, 80 ft. 2½ in. north of Turner place and 820-826 Church avenue, Block 5341, Lots 8 and 17, Borough of Brooklyn, Alt. 347-55—re use of 2 story frame building as factory; stair, etc.

467-55-BZ—H.B.Q.—108-28 46th avenue, south side, 75 ft. west of 109th street, Block 2002, Lot 8, Corona, Borough of Queens, Alt. 662-55—re change in use from garage, repair shop and dwelling, to garage, storage, roasting of nuts and dwelling.

468-55-A—H.B.M.—681 Broadway and 2-6 West 3rd street, southwest corner, Block 532, Lot 9, Borough of Manhattan, Amendment to B.N. 3274-54—re egress, etc.

469-55-BZ—H.B.M.—4320-4338 Broadway, east side, from West 184th to West 185th streets, 659-665 West 184th street and 650-660 West 185th street, Block 2167, Lots 1-6 inclusive, Borough of Manhattan, N.B. 51-55—re gasoline service station, lubritorium, auto repairs, car washing, storage, office, sales, parking of motor vehicles.

470-55-SM—Lecite Furan Resin Cement and Duron #21 Resin Cement, manufactured by Electro Chemical Engineering and Manufacturing Co., Material.

471-55-SA—Bunkerflo Fuel Oil Heating System (preheater for heavy fuel oil), manufactured by Eugene R. O'Hare, Appliance.

472-55-SM—Hercules Vacuum Breaker Backcheck Valve, Models 1 and 2, manufactured by Hercules Plastics Corp., Material.

473-55-BZ—H.B.Bx.—2901-2907 Bruckner boulevard, and 3399 East Tremont avenue, northeast corner, Block 5309, Lot 1, Borough of The Bronx, N.B. 774-55—re area excessive, etc.

474-55-A—H.B.B.—502-506 Fulton street, south side, 40 ft. east of Bond street and 9-17 Bond street and 16-20 Hanover street, Block 160, Lot 1, Borough of Brooklyn, Alt. 1948-55—re escalators, etc.

475-55-A—H.B.B.—957 Putnam avenue, north side, 100 ft. east of Ralph avenue, Block 1483, Lot 64, Borough of Brooklyn, Alt. 1584-55—re nursing home; lodge rooms; exit stairs.

476-55-A—H.B.M.—6-8 East 94th street, south side, 138 ft. 10¼ in. east of 5th avenue, Block 1505, Lot 66, Borough of Manhattan, Alt. 765-55—re class III construction change in use from residence to commercial use (offices).

Negative	0
Absent: Commissioner Keating	1

THE RESOLUTION—

WHEREAS, on May 23, 1954 this application (Vol. I) was granted by the Board on certain conditions, to permit in a residence use district the erection and maintenance of a building to be used for business purposes (stores), affecting premises 1310-1320 East 15th street, Borough of Brooklyn; and

WHEREAS, on May 24, 1944 the Board amended resolution under Vol. II, to permit stores along Elm avenue, under sections 7e and 7A of the zoning resolution for a term of five years, affecting 1418-1424 Elm avenue and 1310-1320 East 15th street, southwest corner, Block 6743, Lot 12, Borough of Brooklyn; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation May 24, 1954; and

WHEREAS, this application was reopened on May 10, 1955 and set for hearing on June 7, 1955 at 10 A. M., subject to the regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on June 7, 1955 after due notice of publication in the Bulletin; laid over to June 14, 1955, for applicant to obtain decision

MINUTES

of borough superintendent; then to June 21, 1955, for applicant to file a decision of the borough superintendent; hearing previously closed; and

WHEREAS, the decision of the borough superintendent, dated June 16, 1955 acting on Alt. Applic. 2283-55, reads:

"1. Proposed alteration of bldg. partly in a Business use district and partly in a Residence use district from shoe repair shop, public market, tailor shop, barber shop, electrical supply store and two vacant spaces to shoe repair shop, public market, tailor shop, barber shop, electrical supply store and two retail stores restricted to occupancy permitted in a Restricted Retail District is contrary to Art. II, Sect. 3 of the Zoning Resolution.

2. Proposed show windows and signs on E. 15th St. will be contrary to Bd. of Standards and Appeals variance under Cal. #312-24-BZ and in violation of Article II, P. 7-A of the Zoning Resolution.

Note: Premises were subject of B.S.A. approval under Cal. #312-24-BZ."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 24, 1949, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted for a term of five years from the date of this amended resolution to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within three months from the date of this amended resolution."

50-42-BZ

APPLICANT—M. B. Rhine, for Marie Rusciano, owner (Harry Barkoff, lessee).

SUBJECT—Application reopened May 24, 1955, for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7i of the zoning resolution, permitting in a business use district, for a term of years, the conversion of occupancy of an existing building to a motor vehicle repair shop.

PREMISES AFFECTED—1261 Jerome avenue, west side, 70 ft. south of West 169th street, Block 2855, Lot 28, Borough of The Bronx.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, on May 12, 1942 this application was granted by the Board on certain conditions, under section 7i of the zoning resolution, to permit in a business use district, for a term of two years, the conversion of occupancy of an existing building to a motor vehicle repair shop and paint shop, affecting 1261 Jerome avenue, west side, 70 ft. south of West 169th street, Block 2855, Lot 28, Borough of the Bronx; and

WHEREAS, on February 6, 1945 the Board extended the term of variance for a term of two years; and

WHEREAS, on February 18, 1947, February 1, 1949, January 31, 1951 and February 3, 1953 the Board extended the term of variance for a term of two years; and

WHEREAS, the applicant requested reopening of this application and a further extension of the term of variance, which had expired by time limitation; and

WHEREAS, this application was reopened on May 24, 1955 and set for hearing on June 21, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a

new decision of the borough superintendent and two publications in the Bulletin, variance having expired February 3, 1955; new owner, Marie Rusciano; Ellen Mahoney, former owner; Harry Barkoff, same lessee; and

WHEREAS, a public hearing was held on this application on June 21, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated June 16, 1955 acting on Alt. Applic. 517-55, reads:

"1. The proposed continued use of the premises as an 'auto paint shop and Motor Vehicle Repairs' is contrary to B. of S. & A. Cal. No. 50-42-BZ, #5 Vol. 36."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 12, 1942, as thereafter amended by resolutions adopted through February 3, 1953, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7i for a term of two years from the date of this amended resolution * * *; that other than as herein amended the resolutions above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained." WHEREAS, this application was reopened on May 24, 1955 and set for hearing on June 21, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; time to complete expired March 23, 1955; and

MINUTES

WHEREAS, a public hearing was held on this application on June 21, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated June 17, 1955 acting on N.B. Applic. 1003-48, reads:

"1. The time limit stated in resolution of the Bd. of Standards & Appeals has expired therefor.

2. A public garage for more than 5 motor vehicles located partly in a residence and partly in a business use district is contrary to the Zoning Resolution, Art. II, Sect. 3 and Art. II, Sect. 4(a)-15.

3. The proposed building exceeds in area the 60% of the lot permitted by the Zoning Resolution; Art. IV, Sect. 13, in a 'C' area district."

Resolved; that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 27, 1949, as amended by resolution adopted February 28, 1950, reducing the height of the building to one story from two stories, and thereafter amended by resolutions adopted through March 23, 1954, only so far as it has reference to obtaining permits and completion of work, so that as amended this portion of the resolution shall read:

"* * * in view of statement by applicant that no work has been done on the premises under the variance granted by the Board as above referred to that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution."

147-52-BZ

APPLICANT—George Reichelmann, owner.

SUBJECT—Application February 23, 1952 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the change in occupancy from restaurant and cabaret, to existing factory use.

PREMISES AFFECTED—88-46 Linden boulevard and 90-06 Pitkin avenue, southeast corner, Block 11401, Lot 1, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: George Reichelmann.

For Opposition: Bernie Ostrowski and Therese H. Parlet.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955 for inspection and decision; hearing closed; then to June 7, 1955, for revised plans showing machinery in the rear of the building; then to June 21, 1955, for applicant to file a complete statement and corrected plans showing existing and proposed conditions; hearings previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Linden boulevard and Pitkin avenue in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated January 25, 1952 acting on Alt. Applic. 1834-51, reads:

"1. Change in use of existing bldg. to factory use in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 27.87 ft. frontage by 100 ft. in depth, irregular, on

which is located a building 22 ft. front by 84 ft. in depth, one story, 13 ft. in height, of class 3 and class 4 construction, formerly used as a bar and grill for which certificate of occupancy No. 19863-41 has been filed, but is being used as a factory; that it is proposed to permit the existing factory use to be maintained; and

WHEREAS, the applicant contends that the premises were originally constructed as a commercial structure in 1933 and were then zoned as business; that plans were approved under N.B. 1327-33 but certificate of occupancy No. 19863-41 was not issued until June 25, 1941; that the subject premises were purchased by the present owner in 1948, at which time they were being used as a factory; that he was a member of a partnership that acquired the premises; that later the partnership was dissolved and in the dissolution he received title to the premises; that he had no knowledge concerning the alleged violation of the certificate of occupancy, all legal questions concerning the original acquisition of the property being left to the partner; that he now finds himself with a totally useless building; that the limited use as a bar and grill is valueless because there is no need for such use in this neighborhood and in fact this use proved to be unsuccessful in the past; that he is presently occupying the premises for his own business and failure to obtain a certificate of occupancy would mean the loss of his life savings; that the zone was changed to residential May 14, 1941, long after the building was erected; that the proposed use will not be more obnoxious to the neighborhood than the previous authorized use for a bar and grill, with its necessary noise, late hours and general reputation; that the general neighborhood is decadent; that of 52 parcels in the affected area, 14 parcels have been abandoned by the owners and were acquired by the City in tax lien foreclosures; that 16 parcels are vacant land and 5 parcels are now used for commercial purposes; that approximately two-thirds of the area of the adjoining block 11368 is used for garages and approximately ¼ of the block in which the subject premises is located is used for garages (block 11401); that immediately outside the affected area are auto parts (junk yards) and gas stations (block 11372) and many other commercial uses and the use now desired will not adversely affect the neighborhood in any greater degree than such present uses; that proposed plans show minor changes required to fully conform the present building to the legal requirements and he is further willing to comply with any conditions imposed by the Board in this request; and

WHEREAS, the applicant states that the present owner has held title to the property since July 6, 1948; that the assessed valuation of land is \$1,200 and of the building \$4,200 making a total of \$5,400; that the building was erected in 1941; and

WHEREAS, the applicant states in his letter of June 14, 1955, that there is also a sub-tenant in the rear of the building who operates metal working machines in making metal parts, and the applicant agrees to remove that work from the premises, the Committee recommends that the application be granted to continue the pattern work for a term of two years; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of two years to permit the continuation of the use now in the premises insofar as it refers to the work done by the owner in connection with the making of patterns *on condition* that all other work, particularly the metal working machines and factory in the rear of the building, shall be discontinued; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and a new Certificate of Occupancy shall be obtained citing the conditions of this resolution; and that all permits shall be obtained and all work completed within six months from the date of this resolution.

100-55-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application January 11, 1955 (decision of the borough superintendent), under sections 7a, 7c and 7i of the zoning resolution, to permit in a business use district the reconstruction and extension of existing gasoline service station, to include lubritorium, auto laundry (non-automatic), motor vehicle repairs and office, and to permit the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—60 Richmond terrace, southwest corner of Wall street, Block 7, Lot 70, Tompkinsville, Borough of Richmond.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, under Cal. No. 608-21-BZ, on September 27, 1921, application was dismissed for lack of prosecution (different owner), to permit in a business use district the erection of a garage for more than five motor vehicles; and

WHEREAS, the existing gasoline service station was established prior to the amendment of the zoning resolution in 1925, prohibiting a gasoline service station in a business use district; and

WHEREAS, a public hearing was held on this application on June 21, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, C area, class 1½ height district; Richmond terrace is in business and unrestricted use, C area, class 1½ height districts; Wall street is in residence, business and business-1 use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 28, 1954 acting on N.B. Applic. 496-53, reads:

"1. The reconstruction and extension in area of an existing gasoline service station, lubritorium and a licensed parking and storage lot for more than five (5) motor vehicles and the additional uses of auto laundry (non automatic) & minor auto repair shop with hand tools only in a business use district is contrary to Art. II Section 4a, sub. div. 15, & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 108 ft. in depth, irregular, on which is located a gasoline service station for which certificate of occupancy No. 2303-40 has been filed; and

WHEREAS, the applicant further states that in a letter to the Board dated December 30, 1954 a request was made to reopen Cal. No. 608-21-BZ for the purpose of extending in area and reconstructing an existing gas station; that the application in 1921 provided for a variance for the erection of a public garage in a business use district on a plot 108 ft. by 100 ft.; that this application was dismissed by the Board for lack of prosecution; that during the early part of 1955 the Board assigned Cal. No. 100-55-BZ for the proposed work instead of reopening Cal. No. 608-21-BZ; that accordingly this application is made for a variation of section 4a of the zoning resolution under authority vested in the Board by sections 7c and 7i on department of buildings objection on N.B. Applic. 496-53 so as to permit entirely in a business use district the reconstruction of the existing gas station, lubritorium and auto laundry and parking lot, and the extension in area for an additional 25 ft. along Richmond terrace of the gas station, and the additional use of minor auto repairs with hand tools only; and

WHEREAS, the applicant contends that the owner purchased this property on June 28, 1944 at which time it was used as a gas station serving Gulf products; that the plot is presently zoned for business use, C area, class 1½ height; that on July 25, 1916 the premises was zoned for business use for a depth of 100 ft. parallel to Richmond terrace with the balance of the block to Stuyvesant place, zoned for residence use; that area was class B and height class 1½, that on March 23, 1948 under C. P. No. 5341 the block was rezoned so that a business-1 use was established along Stuyvesant place for a depth of 100 ft. with the balance being rezoned for business use; that in this procedure the area was changed from B to C and there was no change in height class; that there will be no entrance to or exit from Wall street in this application and accordingly it is felt that there is no contravention of section 21A of the zoning resolution; that building department and fire department records show that the gas station was established in 1921 with metes and bounds being 100 ft. on Richmond terrace and 108 ft. on Wall street, for which N.B. Applic. 100-21 was approved; that fire department plan No. 1926-1915 was approved for two 160 gallon gasoline storage tanks, fire department plan No. 1545-21 was approved December 30, 1921 for one 550 gallon gas tank and plan No. 577-24 was approved June 13, 1924 for two additional 550 gallon gas tanks, metes and bounds being 100 ft. on Richmond terrace and 108 ft. on Wall street; that records further show that the gas station has been operated continuously since that time; that building department records further show that certificate of occupancy No. 2303 was issued December 17, 1940 on N.B. Applic. No. 834-40 for a parking lot at No. 62 Wall street and curb cut permit B.P. No. 42062 was issued for this parking lot in conjunction with the gas station; that from these records it appears that the parking lot is now legally permitted for the entire plot under appeal, that is, 125 ft. on Richmond terrace and 108 ft. on Wall street and that the gas station is a legal non-conforming use as established prior to effective zoning in June 1925 for a portion of the plot, this portion being 100 ft. on Richmond terrace and 108 ft. on Wall street; that request is included herein for an extension of 25 ft. for the gas station; and

WHEREAS, the applicant further contends that proposed conditions consist of removing all present buildings and equipment, grading the plot substantially to the level of the streets and to erect a new accessory building 45 ft. by 28 ft. 8 in., finished on two sides with porcelain enamel, for use as office, combination heater and storage room, rest rooms, lubritorium, car wash and minor repairs; that it is also proposed to erect new lot line walls 5 ft. 6 in. in height along interior lines where not occupied by adjoining buildings or present retaining walls and to provide grass plots and planted areas, including 16 in. high concrete curbs, along the rear line and along the lot line of Wall street; that there will be no entrance to the station from Wall street; that it is also proposed to install ten 550 gallon gas tanks together with two dual dispensing pumps set back 12 ft. from the lot line of Richmond terrace, install one 550 gallon fuel oil tank together with an approved type ceiling suspending furnace in store room and erect one brand sign; that it is also proposed to repave portions of the yard area with asphalt and portions with bluestone screenings; that present curb cuts will be rearranged so that there will be two 30 ft. cuts along Richmond terrace, no cut to be within 5 ft. of any lot line as extended; that section 7c is substantiated in that the gas station was existing on a portion of the plot now under appeal prior to effective zoning in 1925; that under section 7i minor repairs and adjustments are requested as a conjunctive use to the gas station; and

WHEREAS, the applicant states that the present owner has held title to the property since June 28, 1944; that the assessed valuation of land is \$59,000 and of the building \$1,000 making a total of \$60,000; that the building was erected 1915; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

MINUTES

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the lawfully existing gasoline service station to be extended by 25 ft. frontage southwesterly, and to permit the reconstruction and rearrangement substantially as proposed and as indicated on plans filed with this application marked, "Received, January 11, 1955" (4 sheets) and "June 3, 1955" (one sheet) *on condition* that all buildings and uses shall be removed and the premises shall be graded as proposed and as thereon shown and the plot shall be rearranged and reconstructed substantially as indicated thereon; that the accessory building shall comply with the requirements of the Building Code; that there shall be no excavation under the accessory building; that the accessory building shall be faced with face brick on all sides; that the pumps shall be of a low approved type and erected not nearer than 15 ft. to the street building line of Richmond Terrace; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that such tanks shall be new installed tanks, replacing all previous tanks which shall be properly filled to the satisfaction of the Fire Commissioner or removed; that along the rear lot line, to the southwest, there shall be a planting area with suitable planting located where shown and with suitable curbing, protecting the planting area, not less than 16 inches in height; that there shall be a similar planting area erected along the building line of Wall Street, as shown on plan showing proposed conditions; that curb cuts shall be restricted to two curb cuts to Richmond terrace, located where shown, and each not over thirty feet in width; that no curb cut shall be nearer than five feet to a lot line as prolonged; that all other curb cuts shall be removed and filled with new curbing and sidewalks and curbing shall be reconstructed or repaired to the satisfaction of the Borough President; that where walls of adjoining buildings do not occur there shall be erected, as proposed and as shown, a masonry wall not less than five feet six inches in height; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs but permitting the erection within the building line of a post standard supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale; that such sign shall be placed parallel to Wall Street and shall not extend for a distance of more than four feet beyond the building line of Richmond Terrace; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7c the existing parking may be permitted to continue provided such parking does not interfere with the servicing of the station; that under Section 7i there may be repairing with hand tools only for adjustments maintained solely within the accessory building; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

305-55-BZ

APPLICANT—Leon and Lionel Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail business and unrestricted use district, the installation of eight, 550 gallon gasoline storage tanks under sub-cellar floor, and two dispensing pumps on cellar floor level, for sale of gasoline to patrons of the proposed parking garage.

PREMISES AFFECTED—10 Columbus Circle, west side, from West 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29, and Block 1112, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Lionel K. Levy, Edward Baresel and Carlo Marano.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 7, 1955 after due notice by publication in the Bulletin; laid over to June 14, 1955, for applicant to file additional objection as to storage garage within twenty-five feet of a place of public assembly; then to June 21, 1955, for applicant to file revised plans; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Columbus circle are in retail, business and unrestricted use, B area, class 2 height districts; West 60th street is in business, and unrestricted use, B area, class 2 height districts; West 58th street and 9th avenue are in retail and business use, B area, class 2 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 30, 1955 acting on amendment to N.B. Applic. 27-54, reads:

"1. Proposal to install gasoline storage tanks under sub-cellar floor and dispensing pumps in the cellar level for sale to the patrons of the parking garage in a building located partly in a Retail and partly in a Business District is contrary to Sec. 4(a)(15) and Sec. 4A Art. II Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 421 ft. 7 $\frac{3}{8}$ in. frontage by 339 ft. 9-13/16 in. in depth, irregular, on which is being constructed the New York Coliseum; that the building will be 26 stories high, will occupy an area of 421 ft. 5 in. by 339 ft. 8 in. and 334 ft. in height; that it will be of class 1 fireproof construction and will be located partly in business, retail and unrestricted use, B area, class 2 height districts; that the building will be used and occupied as follows: sub-cellar and cellar—storage, parking garage, mechanical equipment, transformer vaults, etc., 300 persons each floor; 1st floor—exhibition hall, entrance lobbies and foyers, commercial areas and loading docks, etc., 6500 persons; 1st intermediate floor (2nd level)—upper portion of 1st floor hall, lobbies, foyer, meeting rooms, exhibition and storage areas, service areas, etc.—1200 persons; main exhibition floor (3rd level)—main exhibition hall, check rooms, mechanical equipment, meeting rooms, service areas, 9000 persons; 2nd intermediate floor (4th level)—upper portion of exhibit hall, mechanical equipment rooms, meeting rooms, service area, toilet facilities, etc., 750 persons; mezzanine exhibition floor (5th level)—exhibition hall, check rooms, service areas, toilet facilities, etc., 7667 persons; upper exhibition floor (6th level)—exhibition areas, meeting rooms, mechanical equipment room, concessionaire storage space, exhibit storage spaces, locker rooms—4400 persons; attic (trusses) and 1st floor of office building (7th level)—electronic control room, mechanical equipment rooms, office space, 280 persons; 2nd floor office building and roof of Coliseum (8th level)—cooling towers, office space and elevator machine room, 292 persons; 3rd and 4th floors of office building (9th and 10th level)—office, 250 persons per floor; 5th to 8th floors of office building (11th to 14th level)—office, 250 persons per floor; 9th to 20th floors (15th to 16th level)—office, 250 persons per floor; penthouse—mechanical equipment room and elevator machine room; that the building will be provided with an approved standpipe system 14 interior stairs for the Coliseum portion and one interior stair and one fire tower for the office portion; that it is proposed to install eight 550 gallon storage tanks under sub-cellar floor with two dispensing pumps on cellar floor level; and

MINUTES

WHEREAS, the applicant contends that the Authority is specifically authorized and empowered to build this Coliseum garage in the vicinity of Columbus circle; that no question of power to build the garage is presented and no need exists for City Planning approval of such garage; that the authorization is statutory; that the appeal arises in connection with the proposed plan to install gasoline dispensing pumps in the garage; that the proposed plan requires a variance of a zoning resolution provision prohibiting this use in the partly retail and partly business district in which the garage is built; that the necessity for variance arises from the provision in the statute that business and commercial uses in such garage are subject to zoning restrictions; that the two-level parking garage is being erected primarily for the use of the exhibitors and patrons of the exhibition hall and tenants of the office building; that a certain portion of the parking area is to be reserved for the use of the tenants of the housing to be erected on the 9th avenue section of this block; that the garage will have a capacity of 850 cars and at least a two times turnover of parking is anticipated; that normal emergency tanks will have insufficient capacity of 850 cars; that normal emergency tanks will have insufficient capacity to accommodate the emergency needs of this number of cars; that the sale of gasoline and oil is a necessary service to this large group of patrons; that the installation of gas pumps is strictly for the use of the patrons as defined above and there will be no sale of gasoline and oil to the general public; and

WHEREAS, the applicant states that the present owner has held title to the property since November 23, 1953; that the assessed valuation of land is \$4,000,000 and of the building \$1,500,000 making a total of \$5,500,000; that the building is under construction; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use District regulations of the zoning resolution and that the application be and it hereby *is granted* under Section 7f for a term of twenty years to permit the installation of storage tanks and dispensing pumps substantially as proposed and as indicated on revised plans filed with Cal. No. 306-55-A marked, "Received, June 20, 1955" (9 sheets) *on condition* that the gasoline servicing installation shall comply with the requirements of the resolution adopted under Cal. No. 306-55-A; that there shall be no sign erected on the exterior of the building advertising the sale of gasoline within the garage; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

306-55-A

APPLICANT—Leon and Lionel K. Levy, for Triborough Bridge and Tunnel Authority, owner.

SUBJECT—Application April 7, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—10 Columbus Circle, west side, from 58th to West 60th streets, 325-335 West 58th street and 20 West 60th street, Block 1049, Lot 29 and Block 1112, Lot 25, Borough of Manhattan.

WHEREAS, the applicant states that the building will be equipped with an approved standpipe system; that there will be 14 interior stairs in the coliseum portion of the building and one interior stairs and one fire tower for the office building section; that it is proposed to install two gasoline dispensing pumps on the cellar level located approximately 13 feet below curb and 8 gasoline storage tanks each having a capacity of 550 gallons below the sub-cellar level; and

WHEREAS, the applicant contends that adequate ventilation both gravity and natural will be provided; that exhaust ventilation in the vicinity of the dispensing pumps will be capable of providing six changes per hour as against 4 changes per hour required for the garage itself; that fixed louvers will be installed in the garage entrance doors to provide an adequate supply of natural ventilation; and

WHEREAS, the applicant states that the gasoline storage tanks will be installed below the sub-cellar floor; that all vertical gasoline pipelines will be protected against damage by mechanical injury by the installation of angle iron enclosures, all vent lines will extend to ten feet above the main coliseum roof; that fill lines will extend to sidewalk spill boxes and will be connected with an alarm gong inside of the building; that gasoline dispensing pumps will be interconnected with the ventilating system so that the pumps will be inoperable unless the fans are in operation and all fans and ducts will be proofed against sparking; and

WHEREAS, the applicant contends that the ventilation of the garage areas will be separated from any of the ventilating systems in the balance of the building; that the two levels of the garage will have complete sprinkler coverage, standpipe hose and such other fire extinguishing equipment as may be required by the Fire Commissioner and the Borough Superintendent.

Resolved, that the decision of the borough superintendent, acting on Misc. Fire Prevention Application 240 of 1955, Objection No. 2, dated February 11, 1955, and repeated February 16 and March 30, 1955, and Objection No. 3, dated June 7, 1955, be and it hereby is *modified*, and that the appeal be and it hereby is *granted* to permit the installation of the gasoline tanks within a re-enforced concrete vault, the exterior wall of which shall be independent of the building walls and so constructed as to be capable of sustaining a lateral pressure of 120 lbs. per sq. ft. and the concrete slab above similarly constructed to sustain an upward thrust of 120 lbs. per sq. ft.; that the floor of the vault and the enclosing walls to a height of two feet shall be waterproofed on the interior with a wall troweled mixture not less than 1/2 inch in thickness, of a portland cement and sand mixture, using washed sand so as to make the vault walls and floor reasonably impervious to penetration of gasoline; that the eight tanks shall be installed in pairs with 8 inch separation and 18 inch between each pair of tanks to provide aisle space for inspection and maintenance; that no tank shall be located less than 18 inches from the vault walls; that each tank shall be set on a re-enforced concrete cradle and shall be at least 18 inches above the vault floor; that tanks shall be cleaned, painted and kept painted; that all tank fittings and outlets shall be at the tops of the tanks; that gasoline shall be supplied to tanks from sidewalk fill boxes; that each group of four tanks shall be provided with an approved float valve actuated by locally supervised electric closed circuit annunciator alarm system satisfactory to the Fire Commissioner, with enunciators and alarm bells located behind a metal cover on the exterior wall of the building adjacent to the fill boxes and so arranged as to be audible and visible to the operator of the tank truck while filling the gasoline storage tanks; that each tank shall be provided with a separate vent line venting to a point approximately 15 feet above the sidewalk level in approved vent bricks located on the exterior of the building opposite the sidewalk fill boxes; that no windows shall be located within 10 feet of these vent bricks; that a Fire Department pipe suction line shall be installed terminating in a sump pit at the floor of the vault so arranged that the vault floor will pitch to the sump pit and such pipe suction line shall be provided with fittings to the satisfaction of the Fire Commissioner for the purpose of

emptying the vault in the event a rupture of gasoline tanks takes place; that a 3 inch foam line shall be provided from the exterior wall of the building equipped with Fire Department connection and leading to the ceiling of the vault space so arranged that the Fire Department can flood the vault space with foam if necessary; that all booster pumps located within the vault space, all ventilating machinery and alarm devices, dispensing pumps and electrical equipment installed within the garage portion of the building shall be of a type approved for explosive atmospheres; that all fill and suction lines shall be encased in concrete to prevent damage and to protect them against fire; that access to the vault shall be provided through an access door constructed of steel of not less than 8 gauge in thickness and made reasonably tight fitting, located near the vault ceiling; that the vault shall have a mechanical exhaust ventilating system providing not less than six changes per hour for the vault with an exhaust duct so arranged as to exhaust within 6 inches of the vault's floor, and an additional opening in the duct be provided to ventilate at a point not less than 3 ft. above vault floor; that the upper termination of this exhaust vent shall be not less than 10 ft. above the sidewalk and shall terminate on the exterior wall of the building; that a fresh air intake vent shall be provided leading from a point approximately at sidewalk level on the exterior of the building to within the vault at approximately the ceiling of the vault; that supplementary mechanical ventilation shall be provided in the cellar story in the vicinity of the dispensing pumps; that the supplementary ventilating system located in the vicinity of the gasoline dispensing pumps and the garage ventilating system shall be independent of the ventilating system for the balance of the building; that the garage ventilating system and the vault ventilating system shall be so interconnected with the dispensing pump mechanism and the booster pump mechanism located within the vault that the pumping mechanisms cannot be operated unless the ventilating systems are all in operation; that a steel access ladder shall be provided on either side of the vault enclosing walls leading to the steel access door; that steel pipe sleeves shall be provided where fill and vent lines enter the vault walls and shall be caulked water and gas tight; that the tanks, the piping within the vault, the booster and dispensing pumps and all of the equipment within the gasoline storage vault shall be inspected weekly by a person holding a Certificate of Fitness issued by the Fire Commissioner and a record of such inspections kept continuously for a period of one year in the garage office and made available for inspection by the Fire Department upon demand and such inspection and records shall be continued thereafter; that the equipment hereinabove required shall be maintained to the satisfaction of the Fire Commissioner and installed and maintained substantially as proposed and as indicated on revised plans filed with this appeal marked, "Received, June 20, 1955" (9 sheets); that the sprinkler system shall be maintained in accordance with the requirements.

Adjourned: 1:35 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, JUNE 21, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

333-39-SM—Vol. II

APPLICANT—Joseph Platzker, for De Yorgi Bros., Inc., owner-manufacturer.

SUBJECT—Application reopened February 23, 1955 as to amendment to resolution to include additional sizes of masonry units—re Double V Cinder Block (cinder con-

MINUTES

crete construction) sizes various: 4 x 8 x 18, 8 x 8 x 18, 12 x 8 x 16, 6 x 8 x 18, 10 x 8 x 16, 12 x 8 x 18 and 8 x 9 x 18; previously approved.

APPEARANCES—

For Applicant: Joseph Platzker.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 333-39-SM Vol. II

Subject: Amendment to resolution to include additional sizes of masonry units.

Joseph Platzker for De Yorgi Bros., Inc., Bronx, New York, requested by letter dated January 20, 1955 that the resolution adopted July 21, 1942 under Cal. No. 333-39-SM Vol. I be amended so as to include additional sizes of masonry units. The application was reopened by a vote of the Board February 23, 1955 under Cal. No. 333-39-SM Vol. II.

Purpose

The material is masonry units to be used in masonry construction.

Description

The cinder units are made of the same material, same mix and on the same machines as the units approved July 10, 1951 under Cal. No. 333-39-SM Vol. II.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts Committee on Test. Sample blocks were identified and marked and these units were tested in accordance with the requirements of the Masonry Rules of the Board at Manhattan College.

Results were as follows:

1. 3" x 8" x 18" Solid Cinder
Compressive Strength—1617 psi
2. 6" x 8" x 18" Hollow Cinder
Compressive Strength—799 psi
Absorption (lbs. per cu. feet)—11.4 psi
3. 6" x 8" x 18" Hollow Header Cinder
Compressive Strength—1369 psi
Absorption (lbs. per cu. feet)—12.4
4. 12" x 8" x 18" Solid Cinder
Compressive Strength—182
Absorption (lbs. per cu. feet)—14.1

This unit did not meet the requirements of 1500 psi in compression.

Cinder Brick—2¾" x 3¾" x 8"
Compressive Strength—2021 psi
Modulus of Rupture—316 psi

The brick did not meet the requirements of the Masonry Rules as to the modulus of rupture.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted July 21, 1942 and amended July 10, 1951 amended so as to include additional sizes of masonry units so that the units recommended for approval including those previously approved under Cal. No. 333-39-SM are as follows:

Concrete—Hollow; 8" x 8" x 18", 8" x 10" x 16" and 8" x 12" x 16".
Solid 8" x 12" x 16".
Cinder—Hollow; 4" x 8" x 16", 6" x 8" x 18", 8" x 8" x 18", 10" x 8" x 18", 12" x 8" x 18" and 12" x 8" x 16".

Solid 3" x 8" x 16", 4" x 8" x 18" and 8" x 8" x 18".

Hollow Header Units—6" x 8" x 18", 6" x 9" x 18", 8" x 8" x 18" and 8" x 9" x 18".

on condition that the requirements of the resolution adopted July 21, 1942 and July 10, 1951 under Cal. No. 333-39-SM Vols. I and II be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of July 21, 1942 and July 10, 1951 in accordance with the above report.

650-49-SA—Vol. II

APPLICANT—William J. Feigley, for The Patterson-Kelley Company, Inc., manufacturer.

SUBJECT—Application reopened March 15, 1955 as Vol. II for test and report to consider new model—Patterson-Kelley Fuel Oil Heater with Fuel Oil Detector (preheater); previously withdrawn re Patterson Type "O" Fuel Oil Preheaters.

APPEARANCES—

For Applicant: Leonard F. Lowe.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 650-49-SA Vol. II

Subject: Patterson-Kelley Fuel Oil Preheater with Fuel Oil Detector, approval of.

Patterson-Kelley Company, Inc., New York, filed June 25, 1949 an application with the Board of Standards and Appeals for approval of the appliance known as the Patterson-Kelley Type "O" Fuel Oil Preheater under the provisions of the Oil Burner Rules of the Board. The application was withdrawn, at the request of the applicant March 15, 1955, in order to submit a redesign. The application was reopened March 15, 1955 under Cal. No. 650-49-SA Vol. II.

Purpose

The appliance is to be used to preheat No. 6 fuel oil.

Description

The appliance is a standard shell and tube fuel oil heater.

The shells are either steel pipe or rolled plate, pipe being used on the smaller diameter shell and plate on the larger. The tubes are either steel, admiralty metal or copper.

Each heater is equipped with an electrical control device made up of the following essential components:

1. A sensitive probe mounted on the heater approximately 5" from the tube sheet at the oil inlet end of the shell.
2. A specially designed transformer.
3. The necessary relays to energize an alarm circuit and break the circuit to the fuel oil pump.
4. An alarm bell and signal lights.

The probe unit is in compliance with Dwg. D-1329 marked Received February 18, 1955 which is on file with and is part of the record.

MINUTES

The electrical system is of the normally closed type and the control will go on safe, shutting down the fuel oil pump when any of the following occur:

1. Current to the instrument fails.
2. Components fail.
3. Oil collects at probe.

In addition, in order to restart after a shut down due to an oil leak, oil must be purged from the system.

In the event of a leak the oil will rise to the high point of the shell. Accordingly, the sensitive element (probe) is installed in a coupling of the shell. Normally, the probe tip will be immersed in water and due to the conductivity of the water will maintain a closed circuit. Should an oil leak develop, the oil will rise into the probe coupling and as soon as the oil has depressed the water interface to a point $\frac{1}{8}$ " below the bottom of the probe tip, the circuit will be broken due to the high resistance of the oil to the flow of electrical current. Two ounces of oil are required to operate the controlled. When the circuit is broken due to oil at the probe, the external relays will shut down the burner of fuel oil pump and at the same time sound an alarm and light a red light.

Inspection and Test

The appliance was inspected and tested at the applicant's plant at Stroudsburg, Pa., in the presence of Asst. Engr. J. A. Darts of the Committee on Test. The device operated in 7 seconds on the injection of $1\frac{1}{2}$ ozs. of oil with a flow of 3 ft. per minute on the water side and the preheater in a level position.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Patterson-Kelley Fuel Oil Preheater with fuel oil Detector as it is of the opinion that this device is a positive means for preventing the injection of fuel oil into the boiler as any oil entering into the heating medium in the preheater will break the electronic circuit thereby stopping the burner, fan and oil pump motor and give a visual and audible alarm.

The Committee further recommends that the Piping Arrangement, Details for Electronic Controls and Relation to Heater and Heater Piping and the Schematic Circuit for Photo-Electric Detector be in accordance with Dwgs. D-1329 on file with the application and further that each Patterson-Kelley Fuel Oil Preheater with fuel oil Detector bears a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 650-49-SA," and further that the heater be installed in a level and horizontal position.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

770-45-SM

APPLICANT—Walter Maguire Company, Inc., owner.
SUBJECT—Application December 3, 1945—Cortland Emery Aggregate, approval of.

APPEARANCES—

For Applicant: Gilford H. Hennegar.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert
and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 770-45-SM

Subject: Cortland Emery Aggregate, approval of.

Walter Maguire Co., Inc., New York filed December 3, 1945 an application with the Board of Standards and Appeals for approval of the material known as Cortland Emery Aggregate under the provisions of C26-191.0 Administrative Building Code. The application was placed on the calendar October 3, 1950 and March 25, 1952 for dismissal but was taken off the calendar each time at the request of the applicant.

Purpose

The material is to be used as a wear resistant wearing course for concrete floors.

Description

The material is made from natural mined emery which has been crushed, graded and bagged.

The Chemical analysis of the emery aggregate is as follows:

Silica—5.90%, Alumina—64.51%, Magnetite—27.14%, Manganese Oxide—0.25%, Iron Sulphide—0.03%, Magnesia—2.31% and Titanium Oxide 0.30 and the specific gravity is 3.343.

In application the flooring shall be not less than $\frac{3}{4}$ of an inch.

In applying this surface over old construction the floor must be thoroughly scarified so as to provide a mechanical bond between the old surface and the new wearing surface, after scarifying all dirt thoroughly removed, the clean slab is then wetted and allowed to remain wet for at least ten hours, a grout coat is then applied, the grout consisting of 1 part cement and 1 part of emery. The wearing surface is then applied to a depth of at least $\frac{3}{4}$ inches.

In new construction, the wearing surface is applied while the slab is still green so that there is a chemical bond.

Inspection and Test

The applicant has submitted test reports of an abrasion test wherein the report shows that after 50,000 cycles the surface was still in excellent condition.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Cortland Emery Aggregate, for voluntary use under C26-191.0 Administrative Building Code as a wear resistant wearing course for concrete floors on condition that the topping shall not be considered as entering into the structural strength of the slab and that each bag in which the aggregate is marketed shall be tagged, marked or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 770-45-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

518-53-SM

APPLICANT—Rector Mineral Trading Corp., for Infal-Industria De Fabricacao, owner.

SUBJECT—Application June 30, 1953—Rector Infal Cork Insulation (manufactured in Montijo, Portugal), approval of.

MINUTES

APPEARANCES—

For Applicant: Hugo H. Stern.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 518-53-SM

Subject: Rector Infal Cork Insulation, approval of.

Rector Mineral Trading Company, New York, for Infal-
Industria De Fabricacao, Montijo, Portugal filed June 30,
1953 an application with the Board of Standards and Appeals
for approval of the material known as Rector Infal Cork
Insulation under the provisions of C26-680.0 Administrative
Building Code and the Fibre Board Rules of the Board.

Purpose

The material is to be used as an insulating material.

Description

The material is standard cork insulation and is manufac-
tured of granulated particles of the bark of the Cork Oak,
these particles are cleaned and then compressed and baked
under steam pressure. There is no binder used in the form-
ing of the sheets.

Inspection and Test

The material was tested at the New York Testing Lab-
oratory in accordance with the requirements of Federal
Spec. HH-C-561b.

Results were as follows:

	Required	Tested
Modulus of Rupture..	18 (Min) psi	19. psi
Thermal Conductivity	.29 Max	.27
Density lbs. per cu. ft.	6.10	6.6
Boiling Test (3 hrs.)	No disintegration.	No disintegration.

The applicant has also submitted a photostatic copy of a
letter granting approval of the material by the Board of
Transportation.

Recommendation

On the basis of the test and the data filed by the applicant,
the Committee on Test recommends the approval of the
material known as Rector Infal Cork Insulation for volun-
tary installation under the provisions of C26-680.0 Adminis-
trative Building Code as a roof insulation provided an
approved type of fire resistive roof covering is applied
directly thereto and also for permissive uses under the Fibre
Board Rules of the Board on condition that each bill of
lading or shipping ticket is marked or labeled as follows:
"Approved by the Board of Standards and Appeals for use
in New York City under Cal. No. 518-53-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engr.,

JOHN A. DARTS,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does
hereby approve this material in accordance with the above
report.

604-54-SM

APPLICANT—National Gypsum Co., owner.

SUBJECT—Application July 20, 1954—Gold Bond Gypsum
Plaster and Gold Bond Gypsum Lath Ceiling, with Gold

Bond Clip-Lok System (1 hr. fire resistive ceiling under
steel joists), approval of.

APPEARANCES—

For Applicant: Royden E. Dygert.

ACTION OF BOARD—Material approved in accordance
with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 604-54-SM

Subject: Gold Bond Gypsum Lath and Plaster Ceiling,
approval of.

Sheldon H. Cady for National Gypsum Company, Buffalo,
New York filed July 20, 1954 an application with the Board
of Standards and Appeals for approval of the material
known as Gold Bond Gypsum Lath and Gold Bond Plaster
Ceiling with Gold Bond Clip-Lok System under the provi-
sions of C26-618.0, C26-88.0 and C26-615.0 Administrative
Building Code.

Purpose

The purpose of this system is to provide a short span fire
resistive ceiling with a one-hour fire protection to structural
steel.

Description

The construction consists of a 2 inch poured in place rein-
forced concrete floor slab, open web steel joists and a ceiling
of ½ inch of gypsum perlite on ¾ inch perforated gypsum
lath secured by wire clips to furring channels which, in
turn were tied to the lower chords of the joists.

The joists are spaced 24 inches on centers and a row of
X-bridging, consisting of ¾ inch Cold Rolled Channels, cut
to tie around the joist and maintain the 24 inch spacing are
6'-6" on centers along the center line of the joist.

The base for the reinforced portland cement slab is an
expanded metal rib lath weighing 3.4 lbs./sq. yd. The lath
is laid on top of the joists, transversely, and lapped 1'-0" on
the end of the adjoining sheet and 0'-4" along the edge.
The laths are tied together along the lapped joints and to
each joist at each rib with #18 galvanized wire. The con-
crete is a 1:2:4 mix, by volume and the reinforcing in the
concrete is 6 inch square weld mesh of #8 ga. wire.

The ¾" Cold Rolled Channels, spaced 12 inches on center
are tied transversely to the lower chord of the joists with
double ties of #18 gauge wire.

The ¾" perforated gypsum lath, 48" x 16" are then
placed with the long dimension parallel to the joists and are
secured to the furring channels with formed wire clips.
Each lath is supported by four clips along each edge. Along
each furring channel, at the mid-point of the 16" edge a
wire clip is punched through the lath and hooked over the
channel for additional support. The lath is secured to one
another at the ends and edges by formed wire clips.

The plaster of a mix of 100 lbs. of gypsum to 2½ cu.
ft. of perlite, is applied out to 7/16" grounds. The white
coat consists of 3 parts lime putty to 1 part of gaging plaster.
The total thickness of plaster being ½".

Inspection and Test

A floor and ceiling construction as herein described was
fire tested at the National Bureau of Standards, Washington,
D. C. in the presence of Asst. Engr. J. A. Darts, Committee
on Test and representatives of the National Gypsum Com-
pany. The floor construction was loaded, as required under
C26-589.0 with a total load of 150 lbs. per sq. ft.

The test was terminated at 1 hour and 3 minutes when
the temperature at one section of the steel joist reached
1200°F. The construction was not subjected to the hose
stream or double loading. A complete copy of the report
10.2U is on file with and is part of the record.

MINUTES

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the National Gold Bond Company Gold Bond Lath and Plaster Ceiling and Floor System when constructed as herein described as a one-hour short span fire resistive construction for use under the provisions of C26-240.0 for use in residence structures not exceeding 35 ft. in height and under the provisions of C26-243.0 as having met the requirements of C26-601, C26-602 and C26-603.0.

The Committee further recommends that all plans submitted to the Department of Housing and Buildings showing the proposed use of this type of construction shall be marked, stamped or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 604-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.
JOHN A. DARTS,
Asst. Engr.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

668-54-SM

APPLICANT—National Gypsum Co., owner.

SUBJECT—Application July 30, 1954—Gold Bond Prefabricated Steel Stud, approval of.

APPEARANCES—

For Applicant: Royden E. Dygert.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 668-54-SM

Subject: Gold Bond Prefabricated Steel Stud, approval of.

Sheldon H. Cady for National Gypsum Co., Buffalo, New York filed July 30, 1954 an application with the Board of Standards and Appeals for approval of the material known as the Gold Bond Prefabricated Steel Stud under the provisions of C26-191.0 and C26-460.0 Administrative Building Code.

Purpose

This material is an incombustible stud for attaching plaster basis for furring and hollow partitions. It may be used as a stud to which gypsum or insulation board may be screwed or clipped.

Description

The stud is in the form of a truss. The flange consists of a 16 gauge angle, the web member consists of one No. 7 gauge wire bent to form symmetrical diagonals with panel points 8" apart. The angle of the web member is contact welded to the flange member. The stud depths are 2½", 3¼", 4" and 6".

Inspection and Test

Partitions constructed of the studs, lath and plaster were tested in accordance with the requirements of C26-591.0 and C26-592.0 Administrative Building Code, at Ohio State University in the presence of Asst. Engr. J. A. Darts Committee on Test and Sheldon H. Cady and others representing the applicant.

Construction of the partitions were as follows:

Panel 1.

Gold Bond 22 gauge base and ceiling runners were installed and the Gold Bond steel studs, 2½" were inserted between the flanges of the runner tracks and were spaced on 16" on center. Starter clips are attached to the flanges of the base runner and the lower edge of the first course of lath is placed behind the protruding arms of the starter clip. The head of the field clips are placed around the stud flange, the body of the clip running over the lath with the lower end engaging the starter clip. After lathing the partition was plastered with 7/16" plaster consisting of 2 parts of sand to 1 part of Gold Bond extra fibered gypsum, by weight and a 1/16" finish coat of 1 part of gauging plaster to 2 parts of lime putty, by volume. The overall thickness of plaster on each face was ½" so that the overall thickness of the partition was 4¼".

Panel 2

The construction of Panel 2 was identical to Panel 1 except that the studs were 3½", in all other respects the panels were similar.

Results: Two tests were conducted on the 4¼" panel and the time of failure was 90 minutes and 18 seconds on one panel and 91 minutes and 24 seconds on the second panel giving an average of 90 minutes and 50 seconds on the two panels. The panels successfully passed the hose stream test, the panel construction with the 3¼" stud failed in 96 minutes and 12 seconds, this panel also successfully passed the hose stream test.

The complete reports are on file with and are part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Gold Bond Prefabricated Steel Stud, in depths of 2½" to 6" for use in New York City as a component part of one and one-half hour fire resistive incombustible partitions, when the construction of the partition is as herein described, under the provisions of C26-636.0 for use under C26-239.0 Administrative Building Code on condition that all plans submitted to the Department of Housing and Buildings showing the proposed use of this stud in a fireproof partition as herein described, shall be stamped or marked as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 668-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 1013-54-SA

Subject: Rowe Automatic Milk Vending Machine, Model 16, approved of.

Rowe Manufacturing Company, Inc., filed December 28, 1954, an application with the Board of Standards and Appeals for approval of the Rowe Automatic Milk Vending Machine, Model 16 under the provisions of Chapter 19, Article 18 Administrative Building Code.

Purpose

An automatic vending machine for milk in glass or paper containers.

Description

The Rowe Automatic Milk Vending Machine is a fully automatic electrically operated refrigerated machine designed to dispense half-pints, one-third quarts, pints and quarts of milk in either glass or cardboard containers.

The outer cabinet of the machine is constructed of 18 gauge steel, which is Parkerized before application of the final baked finished coat of paint. $2\frac{1}{2}$ " of fiberglass insulation is used between the inner and outer walls of the cabinet. The external dimensions of the cabinet are as follows:

Height	74"
Width	42"
Depth	34"

The internal construction of the cabinet is of aluminum.

Refrigeration of the machine is provided by a Kelvinator R258 $\frac{1}{4}$ horsepower sealed refrigeration unit which operates on 115 volts AC. All necessary overload protection is provided in this unit.

The machine operates on 115 volts, 60 cycles AC. The line cord is equipped with a ground wire which may be attached to the outlet box. A transformer, mounted in the base of the machine, reduces the line voltage to 30 volts which is utilized for the operation of the vending circuits.

The coin mechanisms and coin changers which are attached to the inner door of the Milk Machine operate at 30 volts AC. All components are of the continuous duty type.

The two vending levels mounted inside of the machine are identical in construction and each contain two motors manufactured by the Redmond Co. The motors are protected by Klixon motor protectors manufactured by the Spencer Thermostat Company, in order to prevent overheating of the motors.

The sequence of operation of the machine is as follows:

The coin or coins equal to the selling price are inserted in the coin entrance plate. The coins close the electrical circuit to the vending relay in the coin mechanism. The vending relay closes the circuit to the coin accept solenoid which deposits the coins in the cash box. The motion of the solenoid plunger operates a switch which closed the circuit to the delivery motor in the vending level. This delivery motor becomes energized and drives the delivery belt upon which the containers of milk are stored. The delivery belt runs continuously until the first container of milk falls through the delivery chute. In passing through the delivery chute, the container operates a switch which restores the machine to the standby condition. After, the last container is delivered from the delivery belt a switch is operated which energizes the storage motor mounted in the vending level. The storage motor, through a chute and sprocket arrangement, moves a storage which pushes the milk stored in the vending level forward in the direction of the delivery belt. As the next row of milk is moved into position on the delivery belt, the switch which energized the storage motor is shut off. This process continues until all containers have been delivered from the vending level. Following the delivery of the last container, an empty switch is operated which removes the electrical circuit to the coil mechanism and simultaneously illuminates a sold out signal.

Inspection and Test

The appliance was inspected and tested at 58-64 Maurice Avenue, Maspeth, Long Island, by Asst. Engr. J. A. Darts

Committee on Test and representatives of the applicant. The appliance operated as designed. The use of this machine was discussed with the Dept. of Health.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as the Rowe Automatic Milk Vending Machine, Model 16 for voluntary use in New York City under the provisions of C26-191.0 Administrative Building Code and Chapter 19, Article 18 Administrative Code on condition that each machine bears a label reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 1013-54-SA." The Committee further recommends that the maintenance of the appliance shall comply with all the requirements of the Bureau of Food and Drugs of the New York City Department of Health.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

27-55-SM

APPLICANT—Benda Products Inc., owner.

SUBJECT—Application January 10, 1955—Benda Flameproof (Compound for flameproofing fabrics), approval of.

APPEARANCES—

For Applicant: Benjamin Blocker.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 27-55-SM

Subject: Benda Flamepruf (flameproofing compound), approval of.

Benda Products Inc., Cambridge, Mass., filed January 10, 1955 an application with the Board of Standards and Appeals for approval of the material known as Benda Flamepruf under the provisions of the Flameproofing Rules of the Board.

Purpose

The material is a flameproofing compound to flameproof fabrics used in places of public assembly.

Description

The material is a white crystalline powder, which is readily soluble in water, comprising a blend of inorganic salts. The fabrics to be flameproofed are either dipped or sprayed with the compound and the concentration for heavy material such as woollens shall be one pound per gallon and for light weights it shall be two pounds per gallon.

Inspection and Test

Samples of various fabrics, treated with the compound Benda were tested at the Better Fabrics Testing Bureau in the presence of Asst. Engr. J. A. Darts Committee on Test, B. Blocker representing the applicant and W. H. Masterson of the Laboratory.

Results were as follows:

Six fabrics identified as cotton drapery, cotton plush, cotton twill, cotton sateen, cotton drapery (different weight from

MINUTES

first sample) and a combination of viscose rayons and cotton showed no flashing, flaming or glow during the test. A sample identified as 100% wool twill showed no flashing, an average flaming of $1\frac{1}{3}$ seconds and no glow during the test.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test concludes that the material Benda Flamepruf (flameproofing compound) possesses inherent flameproofing qualities and accordingly recommends the approval of this material as a flameproofing compound on the following fabrics, cotton drapery material, cotton plush, cotton twill, cotton sateen, a combination of viscose rayon and cotton and wool.

Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner or in a laboratory approved by him in accordance with the requirements of the Flameproofing Rules of the Board.

The Committee further recommends that each container in which Benda Flamepruf is marketed shall be tagged or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 27-55-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

48-55-SM

APPLICANT—National Gypsum Co., owner.

SUBJECT—Application January 12, 1955—National Gypsum Co., FR fire retardant coating for Acoustifibre, approval of.

APPEARANCES—

For Applicant: Royden E. Dygert.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-ert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 48-55-SM

Subject: National Gypsum Company, FR (improved) Fire Retardant Coating for Acoustifibre, approval of.

National Gypsum Company, Buffalo, New York, filed January 12, 1955 an application with the Board of Standards and Appeals for approval of the material known as National Gypsum Co. FR (improved) Fire Retardant Coating for Acoustifibre under Rule 1.6 of the Fibre Board Rules of the Board.

Purpose

This material is to be used as a fire retardant on accoustical tile.

Description

The tile is manufactured from fibre board. The wood fibers are felted into a porous fibre board and are then cut into tile sizes, namely 12" x 12", 12" x 24" and 24" x 24". The tile is drill perforated with 484 holes per sq. foot, $\frac{3}{16}$ " in diameter to impart increased sound absorption.

The tile is factory coated with a fire retardant paint "FR" which is composed of the following:

Resinous and Chlorinated Elasto Border	6 parts
Pigment and Fillers	4 "
Compound of Boron	67 "
Dispersing and plasticizing agent	1 "
Flame resisting Agents	22 "

Inspection and Test

The tiles coated with "FR" fire retardant was tested in accordance with the requirements of Federal Specifications SS-A-118a, which covers slow burning and combustible material. The test at Manhattan College was witnessed by Asst. Engr. J. A. Darts Committee on Test and S. Cady representing the applicant. The material tested met the requirements of the test. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that National Gypsum Co. product made of wood fibers and known as Acoustifibre and Econacoustic be approved for voluntary use, when treated at the shop, factory or in the field by spraying or brush painting the tile on the exposed surface with the pre-retardant paint known as "FR" (improved) consisting of the ingredients herein described, on ceilings only and in classes of construction as follows:

Class of Construction	Ceiling Area (sq. ft.)
1	5000*
2	5000*
3	6000
4	no limit
5	6000
6	6000

In school buildings where the ceiling is 20 ft. clear above the floor these areas may be increased 50%.

If the treatment is applied in the field or shop, one full coat of a color different from Acoustifibre Tile shall be used to insure covering the entire surface to be treated. In all other respects, the material shall comply with all the requirements of the approval granted under Cal. No. 538-44-SM except that if the treatment is applied at the factory each package shall carry in addition to the label wording requirements contained in resolution dated November 14, 1944 under Cal. No. 538-44-SM, the additional words, "Fire Treated" so as to distinguish this product from the untreated product.

It is further recommended that this product even when fire treated be backed up solidly (tightly) without air space by an incombustible backing, such as concrete, gypsum cement, plaster, cement, plaster asbestos, cement building board, gypsum board, or similar incombustible material and each tile be secured by four 6 penny nails in addition to an approved cement, as tested.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

298-55-SM

APPLICANT—W. J. Haertel and Co., owner (Owens-Corning Fiberglas Corp., Agent).

SUBJECT—Application April 1, 1955—Securitie Pan System (suspension system for acoustical ceilings), approval of.

MINUTES

APPEARANCES—

For Applicant: Richard Ringwalt.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 298-55-SM

Subject: Securitee Pan System (suspension system for accoustical ceiling), approval of.

W. J. Haertel and Co., Chicago, Illinois, filed April 1, 1955 an application with the Board of Standards and Appeals for approval of the Securitee Pan System (suspension System for accoustical ceilings) under the provisions of C26-461.0 Administrative Building Code.

Purpose

The system is an incombustible suspended ceiling.

Description

The system consists of hangers and channels spaced and installed in accordance with the requirements of C26-461.0 Administrative Building Code. At right angles to the channels and spaced 54 inches on center, steel panels $6\frac{3}{4}$ inches wide by $1\frac{3}{8}$ inches high by 120 inches, of 22 gauge, are clipped to the channels by means of 8 gauge steel wire clips, the clips going over the channel and hooking into the panel; there being two clips at each intersection of the channels and the main carrying member. The Fiberglass accoustical tile 12 inches by 24 inches is then set in pairs, end to end between panels, so that the outer 12 inch edge of each pair of tiles is supported by the lower flange of the steel panel. Transverse support for the accoustical tile is provided by the use of "T" or double angles incombustible splines. The lower flange of the steel panel is so designed as to support the ends of 48 inch long recessed light troffers.

Inspection and Test

A sample ceiling was inspected and tested at 300 Park Avenue, New York in the presence of Asst. Engr. J. A. Darts Committee on Test, R. Ringwalt of Owen-Corning Fiberglas and others representing the applicant. The system was loaded so that the pan itself carried a load to simulate a light troffer four feet long, weighing approximately 10 to 12 lbs. per foot of length of troffer.

Loading and deflections were as follows:

60 lbs.	$\frac{1}{16}$
90 "	$\frac{1}{8}$
120 "	$\frac{3}{16}$

It was noted that, as only one bay was loaded and as there was no load placed on the adjacent bays, the pan would have a tendency to turn inward to a slight degree which caused a greater deflection than would occur if more than one bay were loaded.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Securitee Pan System (suspension system for accoustical ceilings) for voluntary installation as an incombustible accoustical ceiling when constructed as herein described on condition that the hangers and main purlins are installed in conformity with the requirements of C26-461. Administrative Building Code and the balance of the ceiling is installed as herein described and further that all plans submitted to the Department of Housing and Buildings showing the proposed use of this system shall be marked or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 298-55-SM."

The Committee further recommends that light troffers weighing between 10 and 12 lbs. per foot may be supported on the panel.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.
JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 21, 1955, on amendment to Alt. Applic. 460/55, reads:

"Disapproved (1) Proposal to change the use of the 4th (top) floor of the subject nonfireproof 4 story and basement bldg. from 'vacant' to offices is contrary to 4.2.1. B.C."

and

WHEREAS, the applicant states the building is 4 stories and basement, 53 ft. in height, 40 ft. by 78 ft. in area at street level, 40 ft. by 55 ft. in area at typical floor level, of Class 3 construction, erected in 1874 on a lot 40 ft. front by 100 ft. 5 in. in depth, in a retail use, B area, Class 1½ height district, used and occupied since 1955; Cellar—mechanical equipment and storage, 0 persons; Basement—stores, bar and grill, 120 persons; 1st floor—beauty shop, 40 persons; 2nd and 3d floor—offices, 20 persons per floor; 4th floor—vacant; which use and occupancy was permitted by Certificate of Occupancy #43902 issued March 18, 1955, upon completion of work under Alt. App. 738/54, containing the provision that the 4th floor is to remain permanently vacant; and

WHEREAS, the applicant states it is now proposed to use the 4th floor as offices with an occupancy of 10 persons; and

WHEREAS, the applicant states that under Alt. App. 738/54, two 20 ft. residence buildings were extended a distance of 5 feet at the front and a new front erected and a fireproof stair, enclosure and elevator installed and the two buildings combined into one; that the entrance to the basement floor was direct from the street level but the floor itself was reached on the inside by four steps down; and

WHEREAS, the applicant contends that no increase in the existing height is proposed; that no new floor has been added; that the same building envelope remains; that when the work was completed under Alt. App. 738/54, application was made for a certificate of occupancy and objection was then raised by the Borough Superintendent that the building was four stories and basement in height and more than 50 feet and the certificate was refused; that as the work was completed and leases had been drawn and the tenants desired occupancy and an amendment was filed to the approved plans and new specification sheet filed indicating that the 4th floor would remain vacant and the Borough Superintendent issued certificate of occupancy #43902 so that the tenants could occupy the premises; and

WHEREAS, the applicant states that it is now proposed to use the 4th floor for offices with an occupancy of ten persons as originally intended under Alt. App. 738/54 as original approved; and

WHEREAS, the applicant contends that the level of the 4th floor is only 42 feet 2 inches above grade; that the occupancy is light; that the basement floor is being extended to the rear to provide refrigeration facilities for the basement occupancy; that the entire 4th floor is less than 2300 sq. ft. in area and will be used by a publishing house with an occupancy of ten; that as the building was altered in accordance with approved plans and the height of the building was shown to be 53 ft. 3 in. and no new story was added, it is requested that a variance be granted to permit the 4th story occupancy as proposed.

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 460/55, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the occupancy of the 4th floor as proposed, and as shown on plans marked "Received April 25, 1955" (3 sheets) and plan marked "Received June 1, 1955" (1 sheet), *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that a new certificate of occupancy superseding the present certificate shall be obtained.

ACTION OF BOARD—Application reopened, resolution amended and working drawings approved.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on February 25, 1953, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and submitted revised working drawings, for approval by the Board, as being in substantial compliance with the requirements of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *approve* revised working drawings marked, "Received, March 30, 1955" (3 sheets) as being in substantial compliance with the resolution adopted by the Board on February 25, 1953; that such working drawings shall be filed with the Borough Superintendent and shall be followed as to arrangement and design of the premises and to permit as shown on said plans:

1. Two 30 ft. curb cuts to East New York Avenue, as shown;
2. Four additional pumps, as shown, along the East New York Avenue front;
3. The system of drainage of the gasoline station;

4. Change in the size of the accessory building from 36 ft. by 66 ft. to 34 ft. by 63 ft.; and,

5. To omit the planting along the East New York Avenue front in view of the curb cuts referred to in Item 1, above. (N.B. 820/52.)

373-38-BZ—Vol. III

APPLICANT—George H. Colin for Cities Service Co., owner.

SUBJECT—Application for consideration—re reopening and extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7h, 7f and 7i of the zoning resolution permitting in a residence and business use district, the erection and maintenance of a gasoline service station, retail sales, lubritorium, auto laundry, motor vehicle repairs and the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—1401-1409 Far Rockaway boulevard and 1149-1161 Nameoke street, southeast corner, Block 38, Lot 40, Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Benjamin Mosher.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on May 23, 1950, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on July 7, 1954; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 23, 1950, as thereafter *amended* by resolutions through July 7, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that no work has been commenced, plans have been approved by the Department of Housing and Buildings that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution." (Alt. App. 4992/48)

304-54-BZ

APPLICANT—Robert Gottlieb, for G. and S. Garage Corp., owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under section 19A(h) of the zoning resolution, permitting in an unrestricted use district an entrance to a loading berth less than required height.

PREMISES AFFECTED—1074 Home street, west side, 147.76 ft. north of Westchester avenue, Block 2758, Lot 25, Borough of The Bronx.

APPEARANCES—

For Applicant: Pauline Martell.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE RESOLUTION—

WHEREAS, this application was amended by the Board as
Vol. II, on May 25, 1954, on certain conditions; and

WHEREAS, the resolution was further amended on Septem-
ber 14, 1954; and

WHEREAS, the applicant requested an extension of time to
obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on May 25, 1954, as
thereafter *amended* by resolutions adopted through Septem-
ber 14, 1954 only so far as it has reference to the time within
which to obtain permits and complete the work, so that as
amended this portion of the resolution shall read:

"that all permits required shall be obtained and all
work completed within the requirements of Sections 22A
of the Zoning Resolution from the date of this *amended*
resolution" (Alt. App. 143/54).

* Correction—Reference that plans have been approved by
the Department of Housing and Buildings deleted in the
resolution.

RULES

Fire Drill Rules, Adopted by the Board of Standards and Appeals, October 5, 1923

(593-23-SR)

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 thereof and in any other building in which such drills are required by the Fire Commissioner pursuant to the power conferred in section 491 of the New York City Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captain's) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE AND FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET-ALARM-BOX-RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways, and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory,

and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNERS, LESSEE OR TENANT, who supervises the FIRE DRILL at the building shall submit to an examination by the Division of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs, requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills, showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

NOTICE

Applicants, under the zoning resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such

copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.
